The background image shows a large industrial facility with complex machinery. Two workers in high-visibility yellow jackets and white hard hats are in the foreground, looking towards the machinery. The machinery features large orange and blue components, including what appears to be a large spool or drum. The scene is brightly lit, suggesting an indoor industrial environment.

**Your PARTNER  
for high-end  
SYSTEMS & TOOLS**

**DRAFTEC**

### **Turnkey Expertise:**

We design and build high-end systems and mission equipment, integrating mechanical, hydraulic, and electrical engineering from concept to completion.

### **Advanced Capabilities:**

Operating from Middelburg with a modern workshop and cutting-edge tools for precise, reliable solutions.

### **Driven by Innovation:**

A multidisciplinary team committed to sustainability, client partnership, and future-proof technologies.

Our standards for sustainability, quality, and safety are fundamental to Draftec's operations and culture.

# WHAT WE DO

*DRIVEN WORKFORCE – “The greatest asset of a company is it’s people”*

- ✓ ~45 Multidisciplinary and pragmatic engineers
- ✓ Broad knowledge in mechanical, hydraulic and electrical control system and equipment engineering
- ✓ Enthusiastic, driven by innovation, no-nonsense reliable team
- ✓ Extensive in-house quality management

## Our global onshore & offshore portfolio include:

### Lifting Tools

Jacket lifting tools,  
Pile lifting tools,  
A-frames & cranes

### Cable Handling

Tensioners,  
Roller boxes,  
Bend restrictors,  
Routing solutions,  
Bundling tools,

### Cable Loading & Storage

Reels,  
Carousels,  
Baskets,

### Pile Cleaning Tools

Cleaning,  
Brushing,  
Jetting tool.

### Subsea Tools

Rock dumping systems,  
Dredging tools,  
Trenchers,  
Ploughs,  
Vertical injector

### Vessel Tools

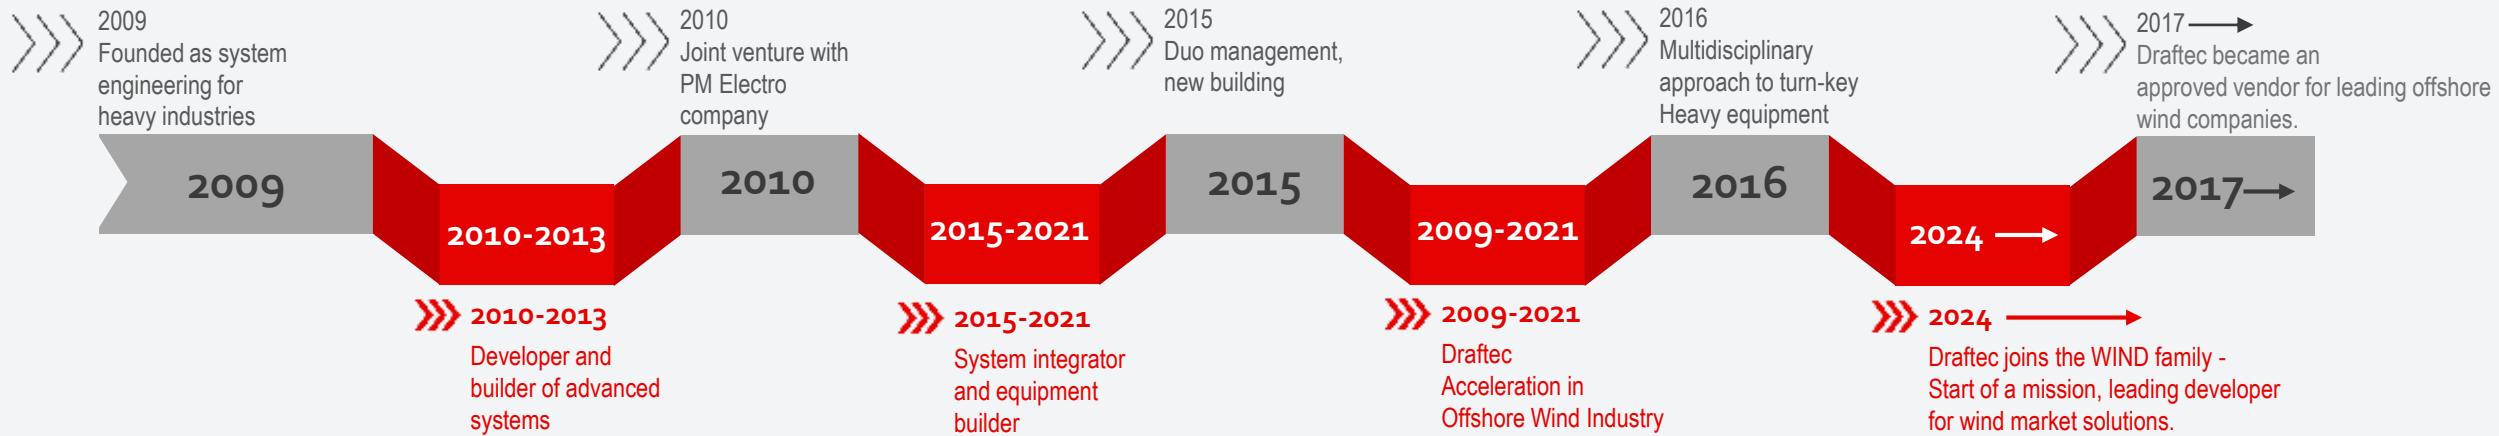

Winches, captans,  
Stone and rock dumping systems,  
and other deck equipment  
Upending tools,

### Handling Tools

Hydrographic sensor launchers,  
Moonpool actuators,  
Survey sensor handling tools.

# EVENTFULL YEARS

‘Experts in Engineering, Build and Maintenance for the entire lifecycle of a tool, a one-stop-shop!’

## SERVICES

- ✓ Engineering
- ✓ Production
- ✓ Commissioning
- ✓ Project Management
- ✓ Service & Maintenance

# ENGINEERING & PRODUCTION

## Engineering

### Precision in Every Detail

- ✓ **Comprehensive Engineering Design**  
3D/2D designs, layouts, workshop drawings, li and detailed diagrams.
- ✓ **Advanced Technical Expertise**  
Static/dynamic calculations, FEA, software de and FMECA studies.
- ✓ **Performance-Focused Solutions**  
Precision-engineered, solution-oriented, and reliable performance.

## Production

With deep **technical expertise** and a **solid network of trusted suppliers**, we manufacture top-quality parts and assemblies for the most demanding industries. We focus on **precision, durability, and cost-effective installation**

## COMMISSIONING

We ensure smooth integration across the disciplines and compliance with design standards through FAT, SAT, and HAT testing. Our in-house setups enable precise, reliable evaluations.

---

**Performance tracking & control**

Remote service, Assistance and Monitoring of your tools, systems and equipment

## INSPECTIONS

Draftec delivers reliable onshore and offshore inspections, ensuring optimal equipment performance.

Our skilled engineers follow industry standards to minimize downtime and maximize reliability.

---

### **Asset Reliability**

Remote service, Assistance and Monitoring of your tools, systems and equipment

## SERVICE & MAINTENANCE

Draftec offers cross-disciplinary maintenance, repairs, and refurbishments for mechanical, hydraulic and electrical assets.

We optimize the operating costs with tailored programs, remote support, and digital service management.

---

### Asset Life Cycle Management

Remote service, Assistance and Monitoring of your tools, systems and equipment
