Aquitaine

A Long Tradition of Fruit

Favols was founded in 1966, in the Aquitaine orchard heartland town of Villeneuve-sur-Lot, by a local plum producer interested in making jams with the fruit from his orchard. For almost 60 years, Favols has handed down this jam-making know-how, the secret of which lies in **a unique process of gently cooking the fruit** at low temperature, allowing all their flavors to be preserved.

Priority to French Fruit

Fruit is carefully selected according to criteria of freshness, maturity, and taste. Thanks to close partnerships with local producers, Favols now offers **a very wide range of French fruit jams**.

Convinced that the future of our planet depends in particular on the evolution of agricultural practices, Favols began organic farming at the end of the 1980s and offers **numerous jams from organic farming**.

A Passion for Creativity

Dedicated to fine food establishments, Favols has always been keen to offer **original and inventive recipes**, which offer a unique taste journey. From the creative range to the pastry range, including chutneys or cheese, festive jams or gifts for all circumstances, **the palette of flavors is limitless**.

Less Sugar, More Pleasure

Favols' expertise includes its **reduced sugar jams** which meet the expectations its customers. **Richer in fruit**, they enhance all the flavors, as in our organic range which contains **60% fruit**. In our famous 100% fruit preparations, **fruit juice replaces cane sugar**, reducing the sugar level by a third and yielding a lower glycemic index.

Certified Quality

Favols has always worked with **noble raw materials**. Thanks to its upstream partnerships, Favols guarantees rigorous monitoring of quality, from the producer to the processing of the fruits in its workshops in Villeneuve-sur-Lot. As such, Favols has been **IFS (International Food Standards)** certified since 2010. **Long committed to a Corporate Social Responsibility (CSR) approach**, Favols is also labeled **Bioentreprisedurable** and **PME+**.
