VITAE

About Coremine Vitae

Norwegian SME specializing in AI, machine learning, and complex data analysis.

Our mission is to bridge the gap between research, data, and real-world decision making.

Key collaborations & proven delivery

- 1. Spin-out from PubGene (2022)**
– roots in biomedical text mining and knowledge extraction

- 2. 200+ personalised medicine reports delivered**
– combining evidence synthesis and clinical input

- 3. Brain Cancer Portal (Hjernesvulstportalen)**
launched with the Norwegian Brain Cancer Association (2025) – supporting health literacy and shared decision-making

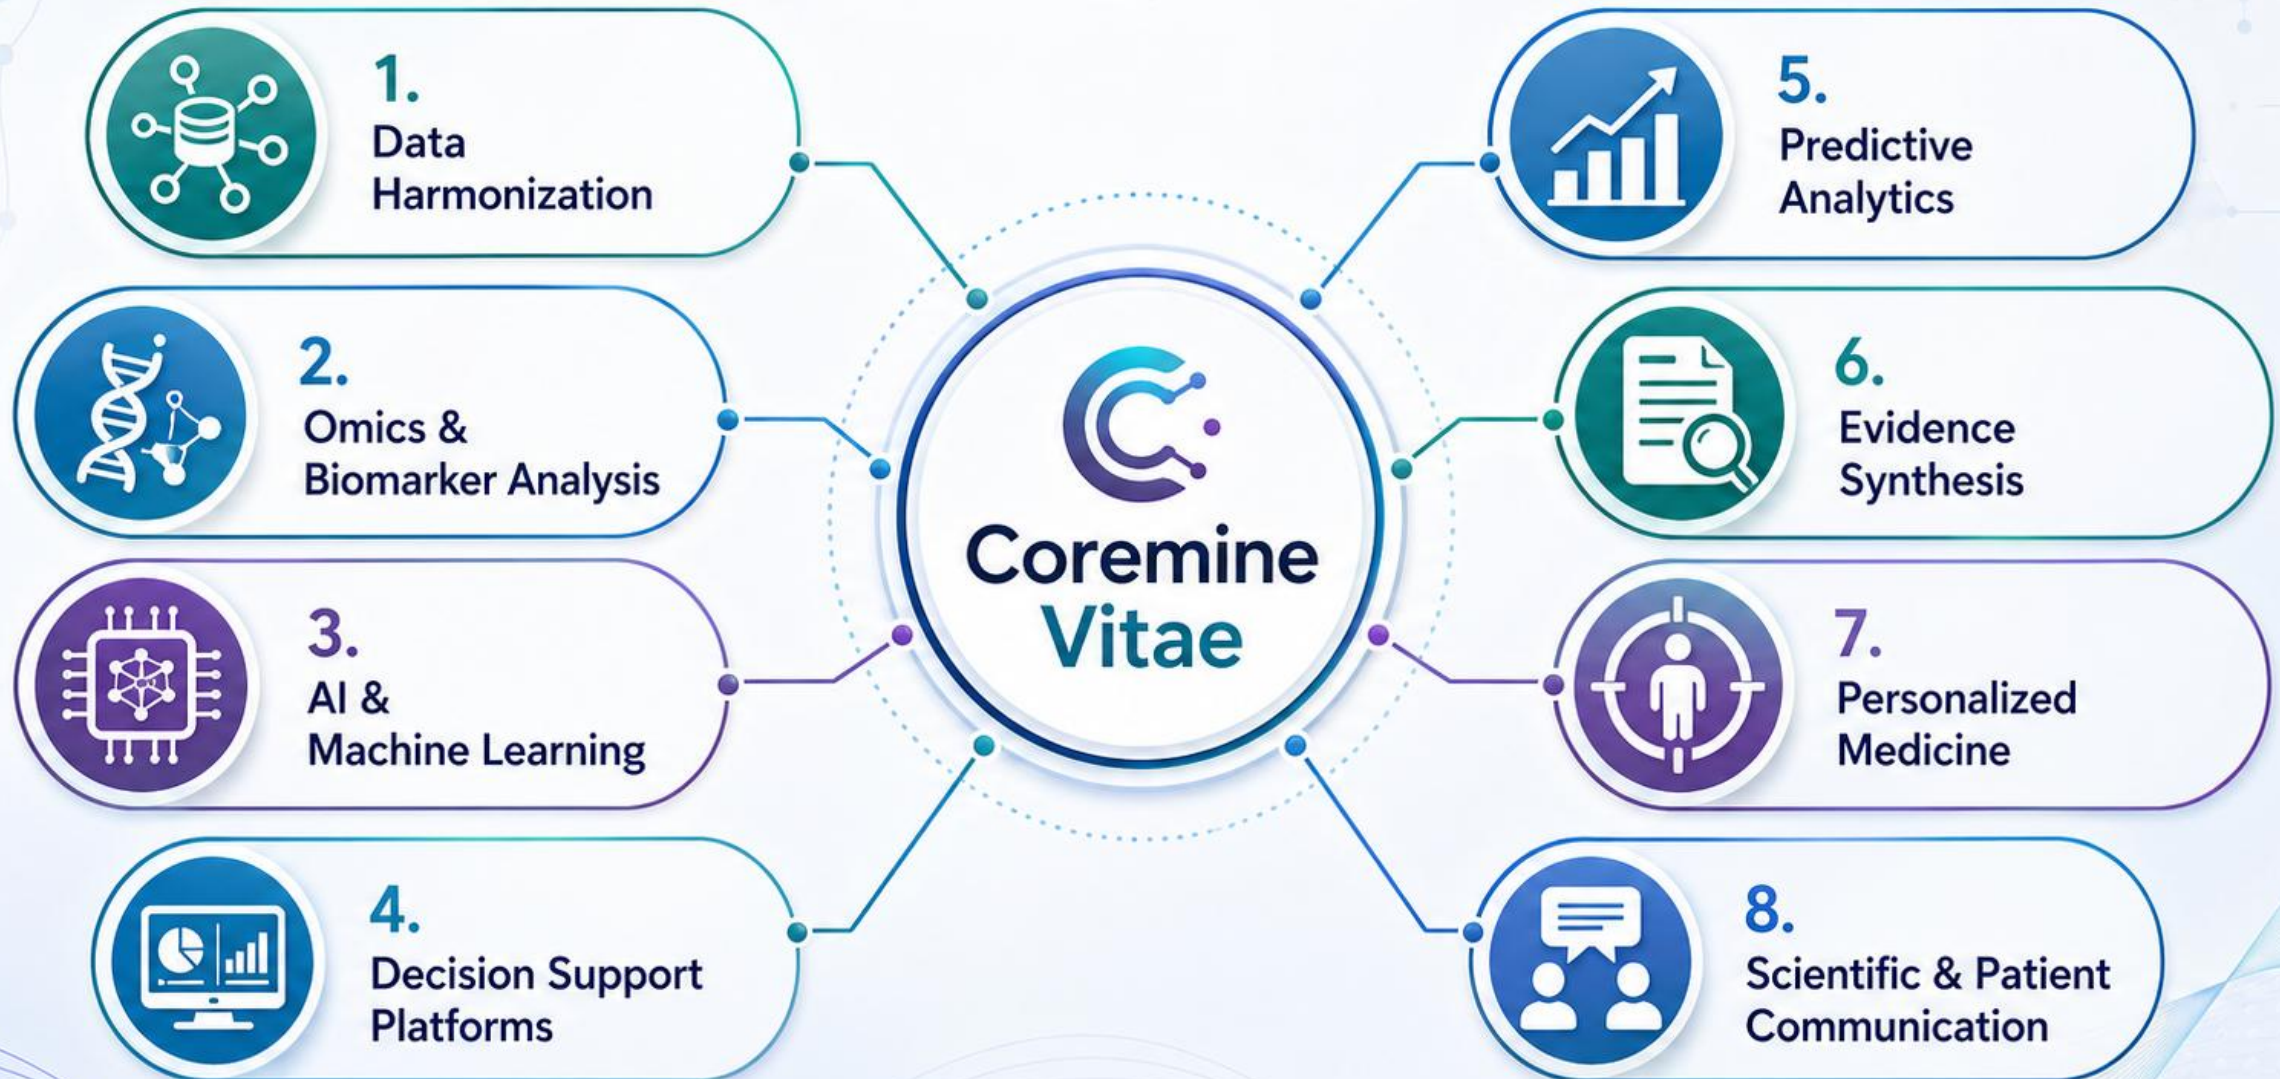

- 4. EU Horizon & Eurostars collaboration experience**
– working with academic, clinical, SME, and patient-organisation partners

- 5. Proven ability to translate complex research into usable tools and insights**
(dashboards, portals)
