TEXTILE

WEAVING RESPONSIBLY FOR 40 YEARS

CELEBRATING 40 YEARS OF TEXTILE EXCELLENCE

HISTORY

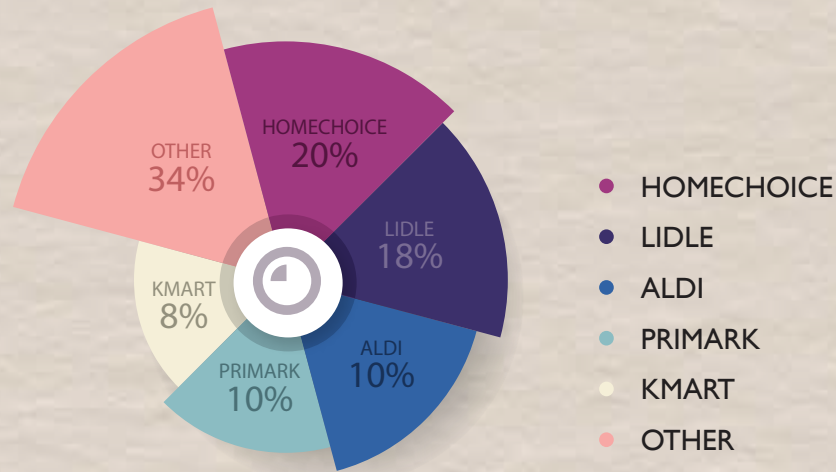

In 1980, Gohar Textiles started their company in the UK to fulfil demand in the textile industry. The ensuing success rapidly required diversification into fashion bed linen and quilts for the retail market and the company acquired an enviable reputation within the textile industry for the quality of its products and efficiency of its service. By 1984 the company started to manufacture household quilts, curtains and bed linen. An integrated operation was opened in Pakistan in 1990. By 1993 the mill was producing printed and dyed bedding and filled products; quilts, pillows, mattress toppers and protectors.

ABOUT

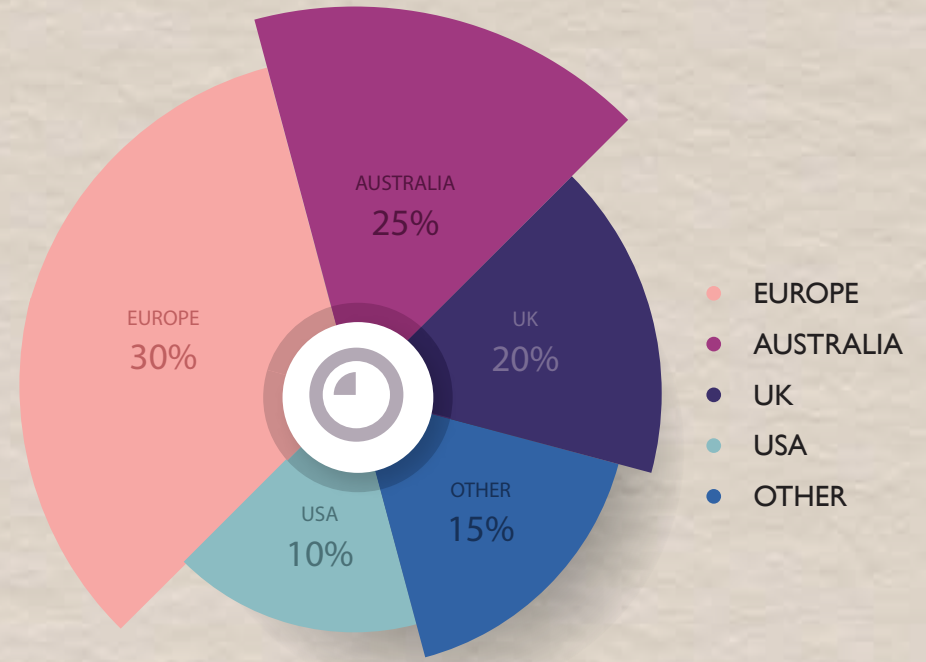

Gohar Textile Mills is a vertically integrated textile manufacturing specialist working with retailers, distributors, hospitality and institutional wholesalers worldwide, with state of the art equipment from Europe, converts 70 tons of cotton per day through the various stages of manufacturing and into an array of products. With 6 factories and 3,000 staff spread across 150 acres of land in Faisalabad, Pakistan combined with a manufacturing facility in Manchester, UK to ensure consistent output and the quality Gohar Textiles is synonymous with. Our teams of international designers, based in Pakistan and the UK, consistently monitor trends, techniques and finishes to offer the best of designs.

SUSTAINABILITY

Gohar Textile Mills has been committed to a greener future since its inception. These beliefs originated from the founders, which stemmed from a farming community and has resulted in the ethos of the global company today. The route of Textile Sustainability involves a lifecycle process starting from raw material through to end product in the following processes:

- Energy Conservation
- Chemical Policy
- Water Recycling
- Waste Management
- Green Initiatives
- CSR
