INTERMODAL TRANSPORT

Intermodal transport means carriage of a single unit of cargo using different means of transport, such as trucks, trains and ships. We use semi-trailers specially designed for intermodal transport, with a reinforced frame construction and air suspension. Such a unique solution allows for vertical reloading by overhead cranes or a special high-storage truck, the so-called Reachstacker, directly on the train wagon.

LOOSE GOODS

We are constantly trying to enter new solutions that are available on the market. Our company offers customers a new one specialization, which is loose transport.

Thanks to the extensive experience of our team, we transport loose goods such as:

- Cereals
- Meal
- Coal
- Fertilizers

We provide transport with vehicles such as:

tippers with a damper and flap doors (with a capacity of 30 m³ to 70 m³), silo, walkingfloor (with a capacity of up to 95 m³).

The logo for OMIDA GROUP, featuring the word "OMIDA" in a bold, white, sans-serif font above the word "GROUP" in a smaller, white, sans-serif font. The logo is set against a dark green background with a white outline.A white OMIDA Logistics truck with a large white trailer. The trailer has the OMIDA LOGISTICS logo on its side. The truck is parked on a grassy field at sunset or sunrise, with a bright orange and yellow sky in the background. The truck is a tipper truck, with a red hydraulic arm visible on the side of the trailer.

OMIDA
LOGISTICS

Following the principle of innovation in action, we present paperliner semi-trailers. Specialized longitudinal rails and a system of eyelets enabling the adaptation of securing wedges allow for quick horizontal loading of paper in rolls and horizontal positioning of rolls at any point on the semi-trailer. This innovative solution is not possible with standard semi-trailers used by competitors. In addition, our semi-trailers are equipped with Joloda selfpropelled trolleys, thanks to which the driver can load or unload goods without the need to use a trolley or a platform, which significantly reduces the time of loading or unloading.

Omidia Sea&Air provides a full range of logistics and transport services in sea, air and rail transport, including a wide range of insurance coverage in transport. The largest share of the company's operations is the transport of FCL and LCL container cargo and air freight services. The company's operations records dynamic growth in (FCL/LCL) rail freight along the China-Poland-China route.

We provide freight and forwarding services since 2013. Despite being a young company, we currently hire 118 employees spread across 16 branch offices. We approach our work with the intent to provide high quality services at reasonable prices. Our forwarders provide “out of the box” solutions to even the most demanding clients.

We take care of organizing freight of all types of cargo both domestically and internationally. Thanks to the knowledge and experience acquired over many years, our employees create a brand trusted by huge companies and small family businesses. These entities entrust us with organizing everything from small freights to whole logistics chains.

AWARDS

Columbus Personal Development Academy is a Foundation appointed to help people to growth their interpersonal and competence skills. October 2014 was the day when a group of young and talented people from Tri-City area, inspired and under a patronage of Omidia Group, started regular meetings with the object to form a Leaders Area where people could meet specialist who would then share with them their knowledge and experience in areas of business, psychology, self development, education, life and family. Columbus is a place where Leaders cooperate together, can relay on each other, gain experience from each other, experience that will help them in future to become true Leaders.
