

HARNESSING AI TO DRIVE CLIMATE SOLUTIONS

A BGV and Ratio Affiliated Fund

“

Applied AI & Climatech are becoming the two most innovative, interesting, highly invested and widely adopted tech trends.

McKinsey's Technology Trends Outlook 2024 (July 2024)

CGV focuses on early-stage, cross-border companies applying AI to solve critical Climatech challenges, representing an unprecedented business opportunity for an enhanced investor return, supported by two anchor investors – BGV and Ratio. Based on its global rich deal flow with a proven track record of its team of experts, providing hands-on value to our portfolio companies, CGV is uniquely positioned to capitalize on the next big global opportunity.
