

WHERE PURITY MEETS PRECISION.

Visit us at: www.lr-pure.com

LR PURE integrates high-purity solutions for demanding industries.

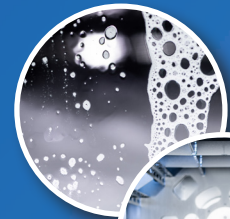

MACHINED PARTS & ASSEMBLIES

HIRTISATION® OF 3D-PRINTED PARTS

CLEANROOM-COMPATIBLE CONNECTIONS

WET & DRY CLEANING

ORBITAL WELDING

SPECIAL FLANGES

THE BENEFIT FOR YOU: Reduction in complexity in your supply chain and technical expertise along the entire value chain.

Consulting, design & engineering along the entire process chain

Industrial wet and dry cleaning in ultra-high purity quality

High-precision bending of challenging diameters and the realisation of complicated orbital weld seams

High-precision machining of large and very small parts

Coating of components and the posttreatment / smoothing of the interior and exterior areas of additive manufactured metal components in the μm range using the innovative and patent-protected HIRTISATION® surface treatment method
