Strategy

Our initial step is a deep dive to understand your business, allowing us to recommend the best methodology, technology stack, and team for your needs.

Analytics

We create detailed design and development documentation, identify key features, and analyze competitors to find the best solution for you.

Design

We use a user-focused design approach, creating modern UI and UX while meeting business needs.

Development

We code and enjoy lots of coffee, using a cutting-edge yet proven technology stack to handle projects of any complexity.

QA & Optimization

We ensure quality with thorough manual and automated testing. We also offer ongoing maintenance to keep your project running smoothly.

What our clients say

★★★★★

“Highly recommend 👍”

I was very happy with our experience working with Ivan and his team. We had several custom calculators we wanted to get up and running and he was able to meet our requirements, timeline, and project deliverables.

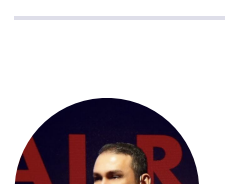

Scott Dixon
YouTube Creator
Everyday Home Repairs

★★★★★

“The best service”

BuildApps is a first class company. They understand and evaluate the requirements very well, fulfill the promised on time. I am completely satisfied with their availability and approach to solving issues. Modern technologies, means and methods are used. I will definitely collaborate on my upcoming projects. Thank you!

Oguz Sezgin
CIO, Digital Transformation Leader
Koç Holding A.Ş.

★★★★★

“Loved their work”

The project was clearly managed, developers adhered to the plan and updated the team promptly. Our feedback and changes requests were always listened to and implemented in their best way.

Aleksejs Beloglazovs
Co-Founder, Partner
Solnams
