# Innovative solutions for the Textile Industry: Digital Passport, Reuse and AI

SustainableSolutionsMatch

## Welcome!

SustainableSolutionsMatch

# Session Agenda

- Welcome & Introduction
- Sustainability in Textile Sector
- Pitch Presentations:
  - Pitch 1: Atelier Riforma (Italy)
  - Pitch 2: Dawa (Spain)
  - Pitch 3: E-scm (France)
  - Pitch 4: Human material loop (Netherlands)
  - Pitch 5: Kosha (India)
  - Pitch 6: Renoon (Italy)
  - Pitch 7: Scimm (Belgium)
- Closing Remarks

# Welcome & Introduction

## Who's moderating?

Marta Casanova  
ACCIO  
Sustainability Advisor

## Who's organizing?

# Welcome & Introduction

Let's play by the rules: smooth sailing for our session!

- **Mute Policy:** Please remain muted unless speaking to avoid background noise.
- **Q&A Time:** After each pitch, there will be 1–2 minutes for questions. Please use the chat to ask questions.
- **Time management:** Pitchers, please keep track of your time. We will inform you if 5 minutes have passed.
- **Technical Issues:** If you encounter issues, use the chat to notify the host.

# Sustainability in textile sector

- ✓ **Textile sector as large consumer of resources** in the world
- ✓ **Environmental and climate impact:** 100,000 million pieces of clothing sold every year worldwide, less than 1% of textile waste is recycled.
- ✓ **Great potential to move towards a circular economy model** (EU Transition Pathway- European Commission).
- ✓ **EU Textile companies profile: 99.5% are SMEs**, face sustainability industry challenges in the coming years ➡ transformation accelerated by current and coming EU legislation.
- ✓ Innovative solutions that can boost the EU textile Industry to sustainability through **Digital Passport, Reuse of textiles and Artificial Intelligence** implementation tools.

# Pitch Presentations

**Time to meet the innovators!**

**Pitch 1**  
**Atelier Riforma**  
**Elena Ferrero**

# Re4circulad

TECH FOR CIRCULAR FASHION

BY

Atelier  Riforma

SustainableSolutionsMatch

A large-scale photograph of a landfill site. A yellow excavator is visible on the right side, working on a massive pile of waste. The waste consists of a dense layer of plastic bags, crumpled paper, and other debris. In the background, there are some small structures and trees on a hillside.

**EVERY SECOND, ONE TRUCK  
OF TEXTILES IS LANDFILLED  
OR BURNED**

**REUSE**

**UPCYCLING**

**RECYCLING**

**Up2Circ**  
**USES IN  
OTHER  
INDUSTRIES**

**THERE ARE SOLUTIONS TO GIVE TEXTILES  
A SECOND LIFE**

**IN ORDER TO DIRECT TEXTILE WASTE TO CIRCULAR DESTINATIONS, YOU NEED TO KNOW AND TRANSMIT THE SPECIFIC CHARACTERISTICS OF EACH ITEM.**

**WHAT KIND OF GARMENT IS IT?**

IS IT A SUMMER OR WINTER GARMENT?

IS IT A GARMENT FOR MEN, WOMEN OR KIDS?

**WHAT COLOUR IS IT?  
DOES IT HAVE A PARTICULAR PATTERN?**

WHAT MATERIALS IS IT MADE OF? DOES IT HAVE A HOMOGENEOUS OR MIXED COMPOSITION?

WHAT IS ITS VALUE IN THE CIRCULAR FASHION MARKET?

**WHAT IS ITS SIZE?**

**SustainableSolutionsMatch**

IN WHAT CONDITION IS IT?

**MASSIVE AMOUNTS COLLECTED DAILY**

**EVERY ITEM SHOULD BE CATALOGUED**

**COLOSSAL CHALLENGE  
FOR THE SECTOR**

**DESIGNED  
THE INNOVATIVE TECHNOLOGY**

[SustainableSolutionsMatch](#)

## AI-POWERED CLASSIFICATION TECHNOLOGY

POWERED BY

target customers:  
sellers

## COLLECTING/ SORTING ENTITIES

need:  
to economically exploit what they collect, little  
waste to dispose of

## FASHION BRANDS

need:  
to dispose of unsold (or taken-back) clothes,  
show sustainability

[SustainableSolutionsMatch](#)

target customers:  
buyers

## SECOND-HAND SHOPS

need  
garments in perfect  
condition and  
INTERESTING FOR THE  
CONSUMER

## UPCYCLING PROFESSIONALS

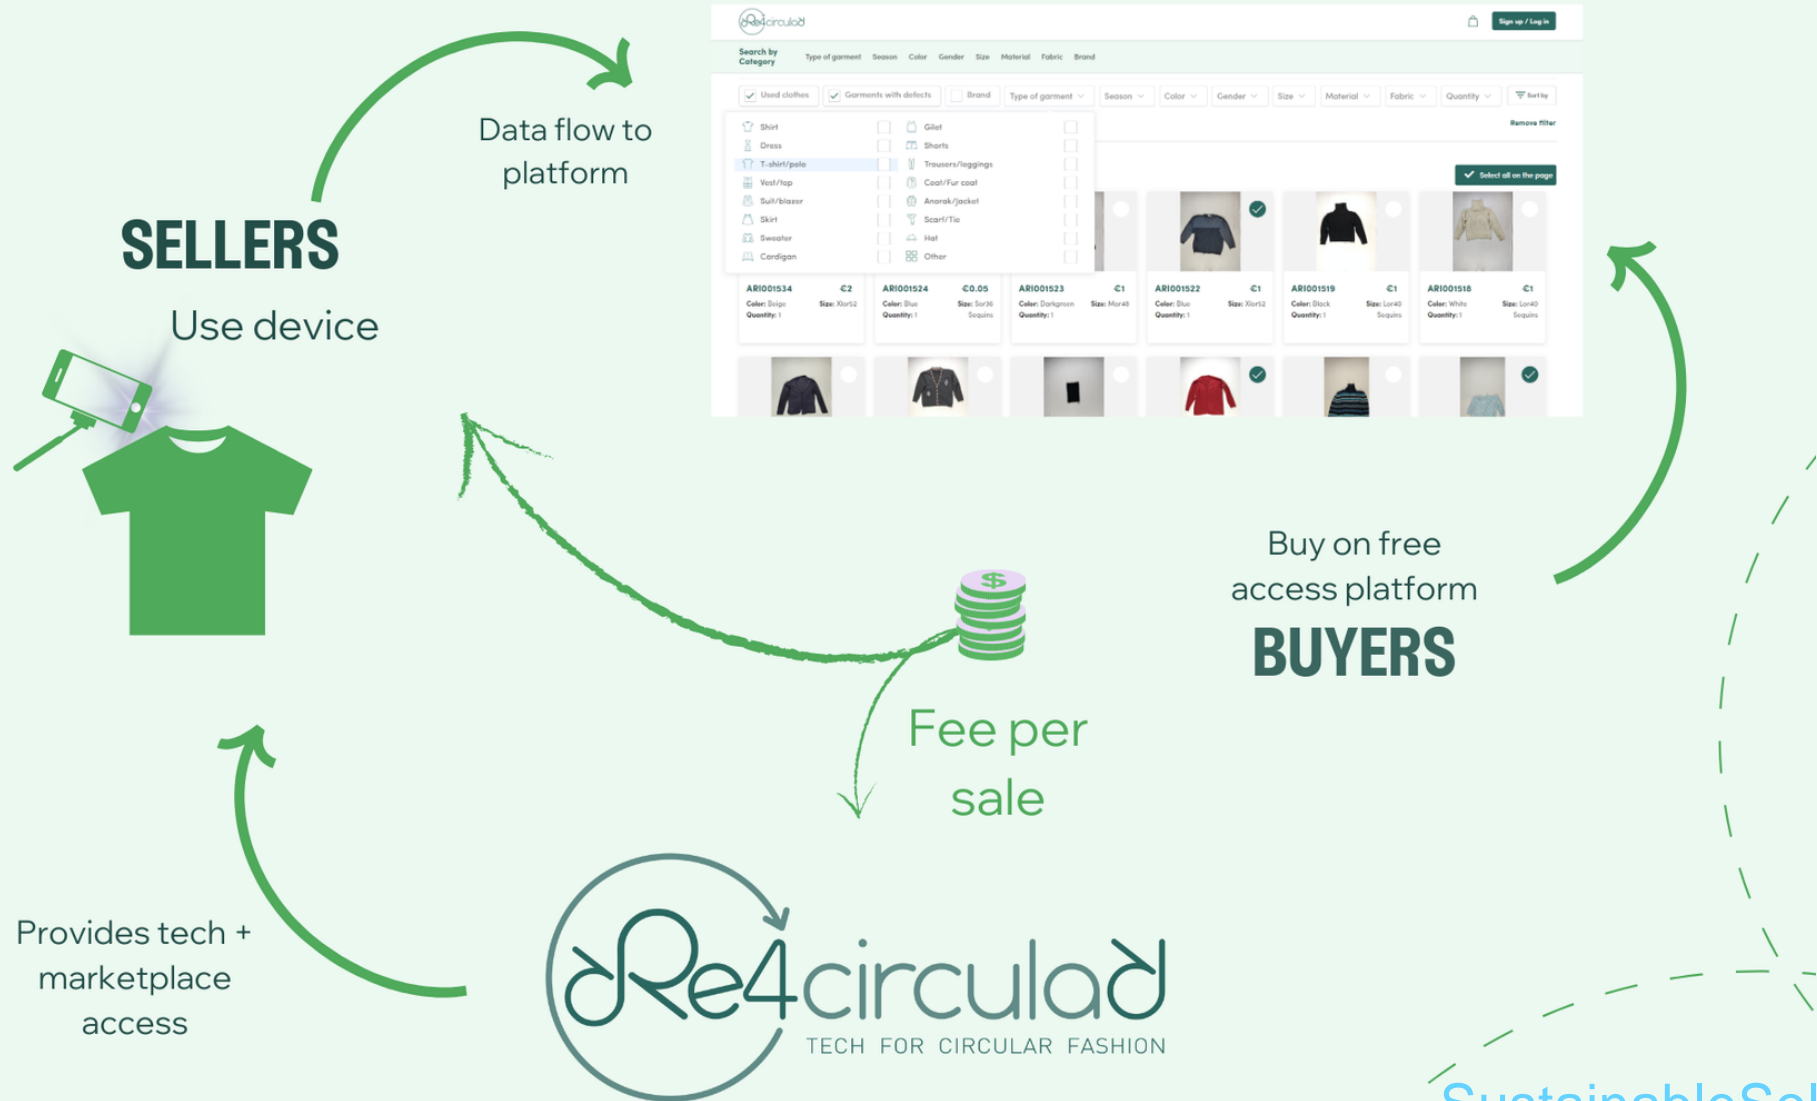

need  
clothes with specific  
features / patterns, even  
with flaws

## RECYCLING COMPANIES

need  
clothes 100% single  
mateRial, divided by  
color

## USES IN OTHER INDUSTRIES

# BUSINESS MODEL

This is a very lean and scalable business model, because we do not have to physically take the material ourselves. But we can provide our tools to any entity in any location.

This makes our business model lean and

# SCALABLE

and our positive

# IMPACT

applicable to a very large scale

# New project

We are now also experimenting with a new application of Re4Circular, which is to provide it to municipalities as a tool for improving the efficiency of textile separate collection over the entire city

# innovation

The most comprehensive B2B solution for buying and selling used clothing

It combines:

- AI-tech that automates the classification and digitization of products
- marketplace, which allows demand to meet supply transparently

**filed a patent application for it**

# Pitch Presentations

**Time to meet the innovators!**

**Pitch 2**  
**Dawa**  
**Alberto Miralles**

**Solution title**

**End-to-end platform that offers reuse and repair services for textile brands (Reuse)**

**Company name**

**DAWA**

**Alberto Miralles  
CRO & Co-founder**

**Dawa®**

## QUESTION

# Why Can't We Return Used Products Instead of Just New Ones?

# The **Hidden Toll of Style**: How Fashion Impacts the Planet

**3 years of one person's  
water consumption**

Liters of water used to  
produce a single cotton t-shirt

**+100k  
swimming pools**

Toxic chemicals released  
annually

**More than all flights and  
maritime transport  
combined**

CO<sub>2</sub> emissions generated per  
year

Giving products a 'Second Life' reduces waste and preserves  
resources

# EU Brands Face Rapid Market Shifts: **Adapt or Fall Behind**

1

## Second Life Marketplaces

Customers actively **sell and buy used products** through marketplaces like **Vinted**

2

## First movers Buyback Program

Leaders like Apple and **Patagonia set the trend** fostering **loyalty** and advancing **sustainability**

3

## Regulatory Push for Sustainability

**New EU laws mandate upcycling** accelerating the push for greener practices

EU brands **don't have the Tech capabilities** to make this transition and capture the opportunity

# Dawa is the first all-in-one solution with 4 modules designed for the circular economy

## Second Life Recommerce

Allows customers to return used products and receive credit for new purchases

## Repair

Comprehensive repair service restoring damaged products to full functionality, extending their lifespan and value

## Reconditioning

Restore returned products to like-new condition, ready for resale or reuse

## Exchange & Returns

The ideal solution for brands to manage returns and exchanges effectively

# Highly customizable modules to be powered by AI

For **all** sources of revenue, **across all channels**—both **online and offline**, including third-party distribution

The image displays a collage of various Dawa mobile application interfaces, illustrating its highly customizable modules powered by AI. The central focus is a dashboard for 'Alberto Miralles' dated 'Jun 18, 2024', which includes several key metrics and charts:

- Ventas (Sales):** 88.582,26 € (306.440,24 € (+345,21%)).
- Devoluciones (Returns):** 478,75 € (492,300 € (+0,28%)).
- Cambios (Exchanges):** 0,00 € (0,200 € (+0,00%)).
- Pedidos, devoluciones y cambios (Orders, returns, and exchanges):** A bar chart showing 1237 orders, 42 returns, and 33 exchanges.
- Tasa de devoluciones (Return rate):** 11.70% (12,58% (+0,88%)).
- Principales motivos (Main reasons):** A pie chart showing the distribution of return reasons.

Surrounding the dashboard are several other app screens and overlays:

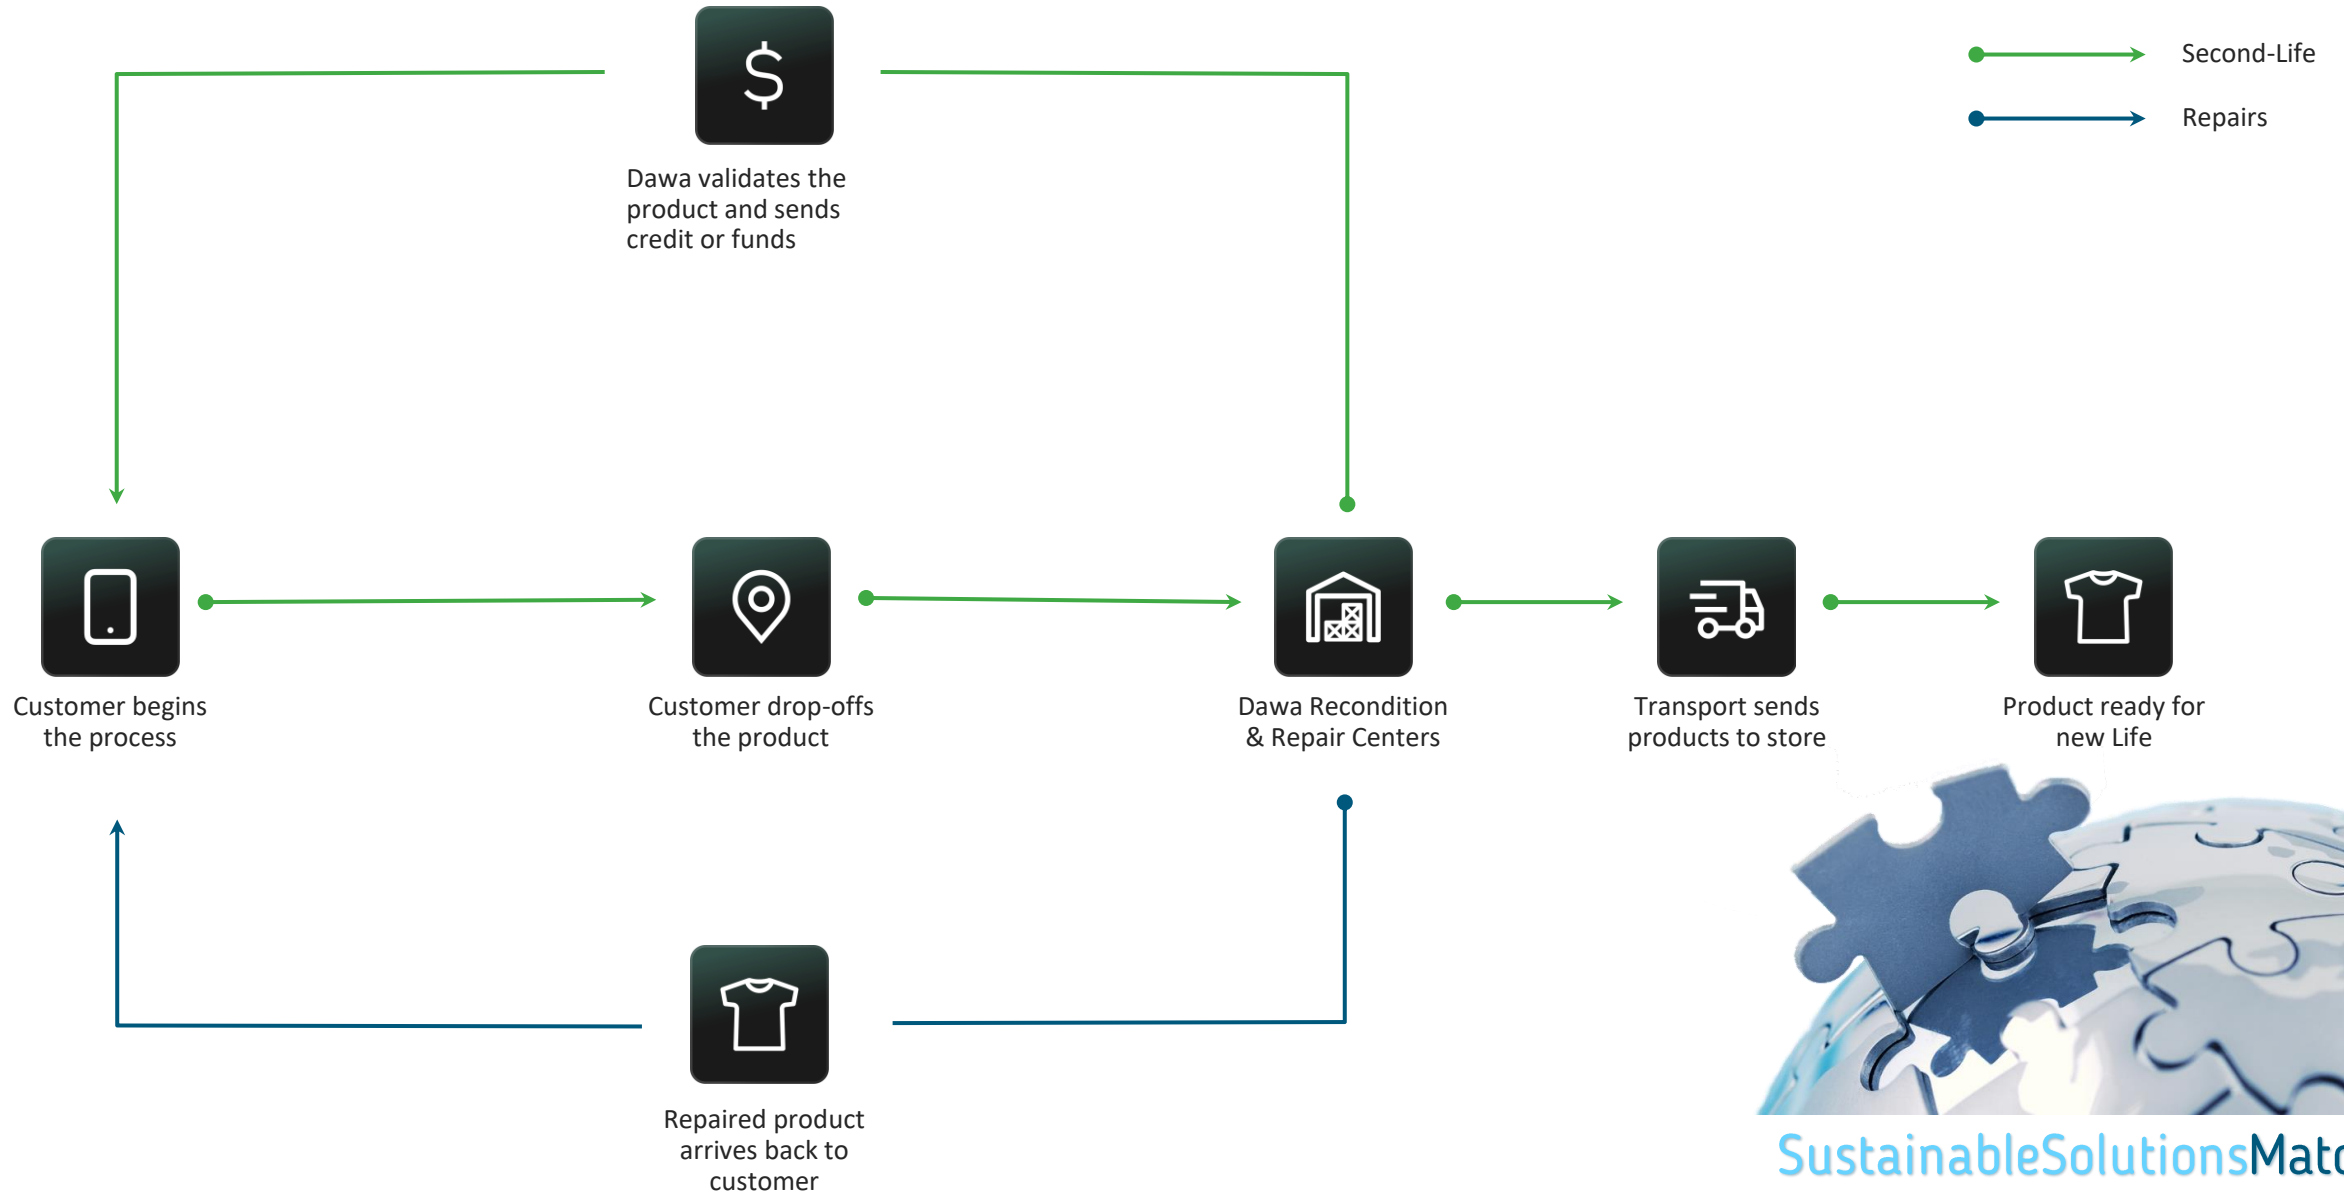

- Product Listing:** A screen for 'Buy Used Items' featuring a pair of black trousers, a 'Published' status, and a 'Condition ★★★★★' rating.
- Refund Options:** A 'Select Options' dialog box with two choices: 'Instant refund to our Digital Wallet' (selected) and 'Refund to our bank account'.
- Delivery Point Finder:** A map overlay titled 'Find the Nearest Delivery Point' showing various UPS locations.
- Product Selection:** A screen titled 'Choose the products to sell' listing 'Dress Pants' (Color: BLACK, Size: M, Price: 36,99 €) and 'Light Coat' (Color: BEIGE, Size: L, Price: 455,99 €).
- Status Confirmation:** A dialog box asking 'Can you specify the status of the product?' with options like 'New without tag (40%)' and a field for 'Add an explanation to the reason for your sale'.
- Product Details:** A screen for a 'Blue Jacket' with a 'Select Options' dialog box.

The Dawa logo is prominently displayed in the center of the collage. The bottom right corner features the text 'inableSolutionsMatch'.

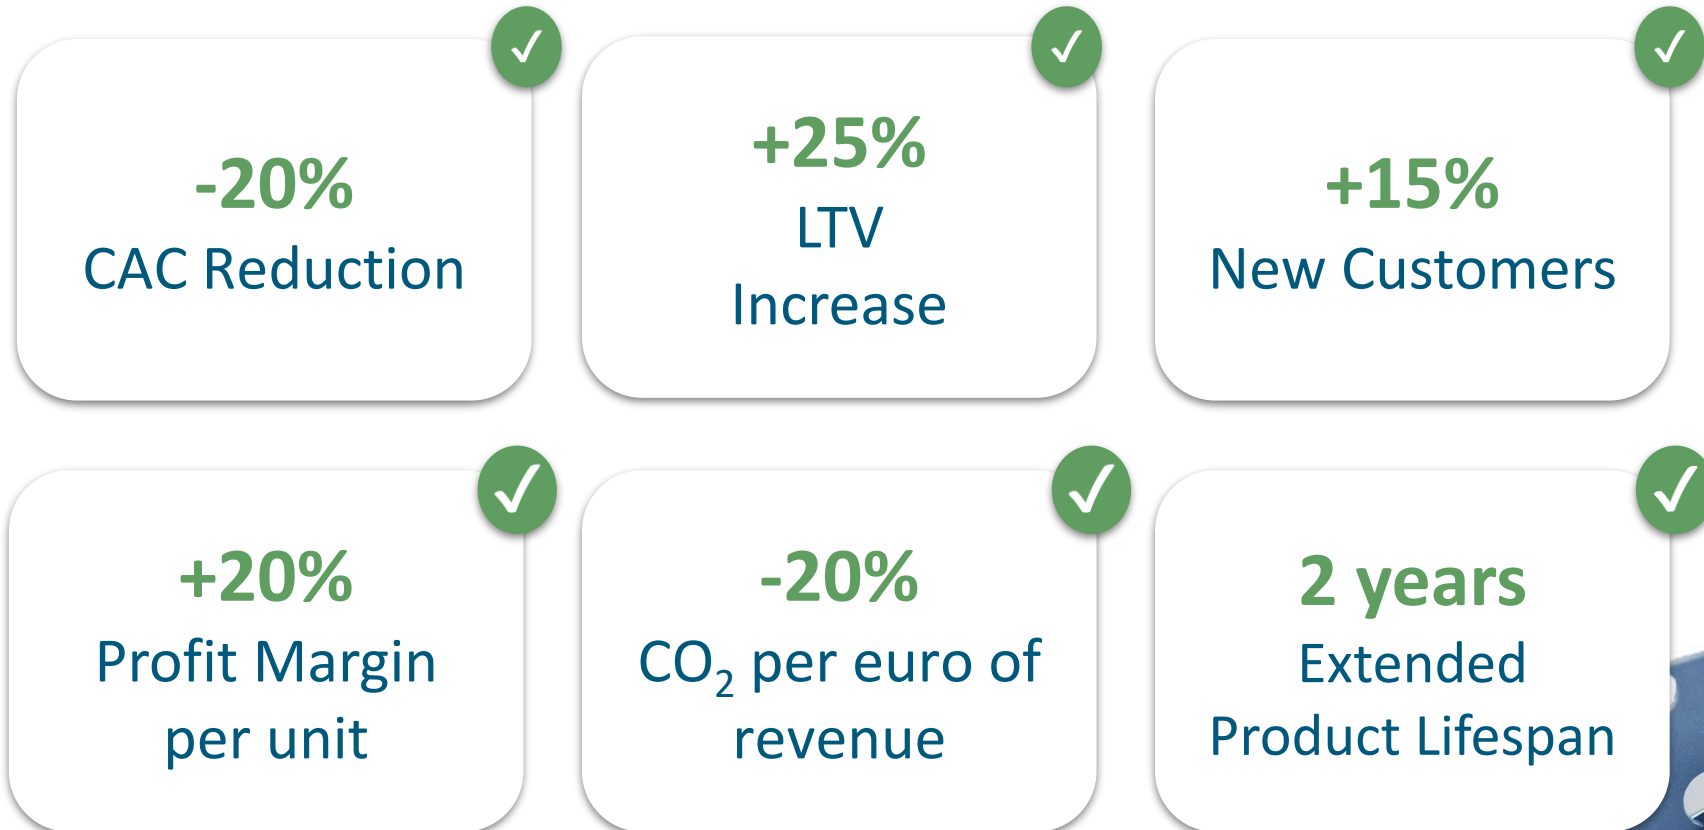

## HOW IT WORKS

Dawa®

## Brands could generate **economic and environmental** impacts

**Dawa Impact:**  
**Enhance unit profitability for sustainable growth**

## Cooperation Partners

-  **Brands & Retailers** – Adoption & scaling of circular business models.
-  **Sustainable Suppliers** – Recycled, biodegradable & low-impact materials.
-  **Governments & Regulators** – Compliance & circular economy initiatives.
-  **3PLs & Recycling Facilities** – Reverse logistics, waste management & upcycling.
-  **Repair & Refurbishment Partners** – Fashion, footwear & durable goods solutions.
-  **Transportation & Logistics** – Efficient, low-carbon distribution networks.

# OUR VISION

# 500K TONS

## HAIR WASTE TO MATERIAL PER YEAR

human  
material  
loop

# ādara™

transformation - collaboration - reverence

**ādara™ has a 43 times lower** global warming potential than wool, emitting just 0.241 kg CO<sub>2</sub> eq. per kg compared to wool's 10.4 kg CO<sub>2</sub> eq., and 16.5 times lower than rPET, making it a truly climate-conscious alternative.

Traceability in the global textile supply chain remains limited. A 2021 KPMG report indicates that only 15% of companies have full traceability, while less than 20% have complete visibility across their supply chains. This lack of transparency hinders efforts to ensure sustainability and ethical practices within the industry. **ādara™ offers a 100% traceable supply chain.**

Wool's inherent fire resistance comes from its naturally high nitrogen and water content. Because of this, wool requires higher levels of oxygen in the surrounding environment in order to burn. Wool may be ignited if subjected to a significantly powerful heat source, but it does not normally support flame. **ādara™ is made of the same keratin protein fiber as wool.**

# KOSHATrace One Platform, Many Services

*KOSHATrace is a SaaS platform for fashion industry enabling sustainability and circularity through Digital Product Passport and Traceability.*

*The platform offers multiple solutions in a modular and integrated approach. These are:*

1. Digital Product Passport
2. Anti-counterfeiting modules
3. Provenance and product credential verification(using Immutable ledgers)
4. Brand Building and protection
5. Full Cycle traceability including Post Recycling traceability
6. Consumer Engagement
7. Remote deployment (Eg. Ethiopia)
8. Integrable with External systems through APIs

## Product Details

Name, style, price, design,  
content and more

## Verified Product Provenance

Location of origin, supply chain map

## Verifiable Credentials

ESG credentials/proof points across  
product, process and people with  
verification details

## Consumer engagement

Customer experience  
feedback, offers

## Recycling information

Dispose instruction, recycling  
information

## Logistics

Logistics Mode, cost

## Material

## Authenticity data

FiberSENSE Verified  
certificate

## Unique Proposition

KOSHATrace is developed keeping in mind the unique needs of the fashion ecosystem

1. Low code Modular Architecture to enable rapid deployment
2. Highly scalable and Customizable Workflows
3. Multiple DPP options available based on need and cost
3. Integrated with FibreSENSE for material authentication
4. Ease of Operation Tested in 100s of MSMEs and Decentralised operations
5. Mobile First platform for decentralised operation
6. Immutable Ledger Database ensuring data integrity
7. Deeptech product integration with IoT
8. Modular deployment - Reduced cost to customers advantage

## Target Market

- Brands
- Manufacturers
- Exporters
- Importers
- MSMEs
- Recyclers

- **We are looking for**
  - Investors
  - Customers
  - Sales and Marketing Partners
  - Joint Venture Partners

# Sustainable size solution

## Product Fit passport & Body ID

### Traditional Approach

- 📏 National average-based tables
- 📏 Static S/M/L labels
- 📏 Disconnected from real fit

### Our Smart Solution

- 🔗 **Product-First Data Model**  
Enriched data with fitting rules & compression
- 🔗 **Personal Matching**  
Body scans, preferences & expertise level
- 🔗 **Smart Recommendations**  
Precise fit control & intelligent matching

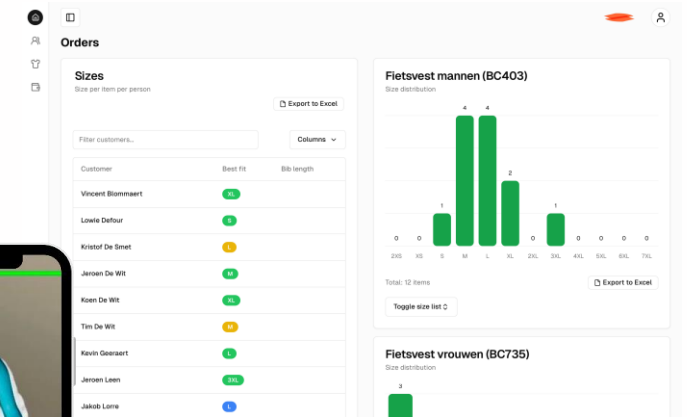

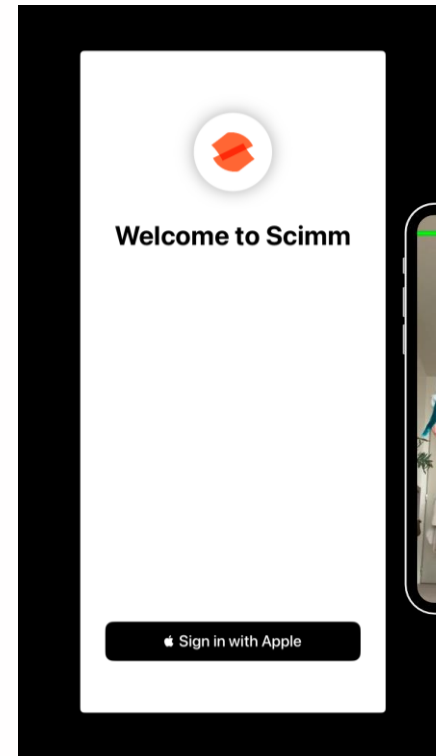

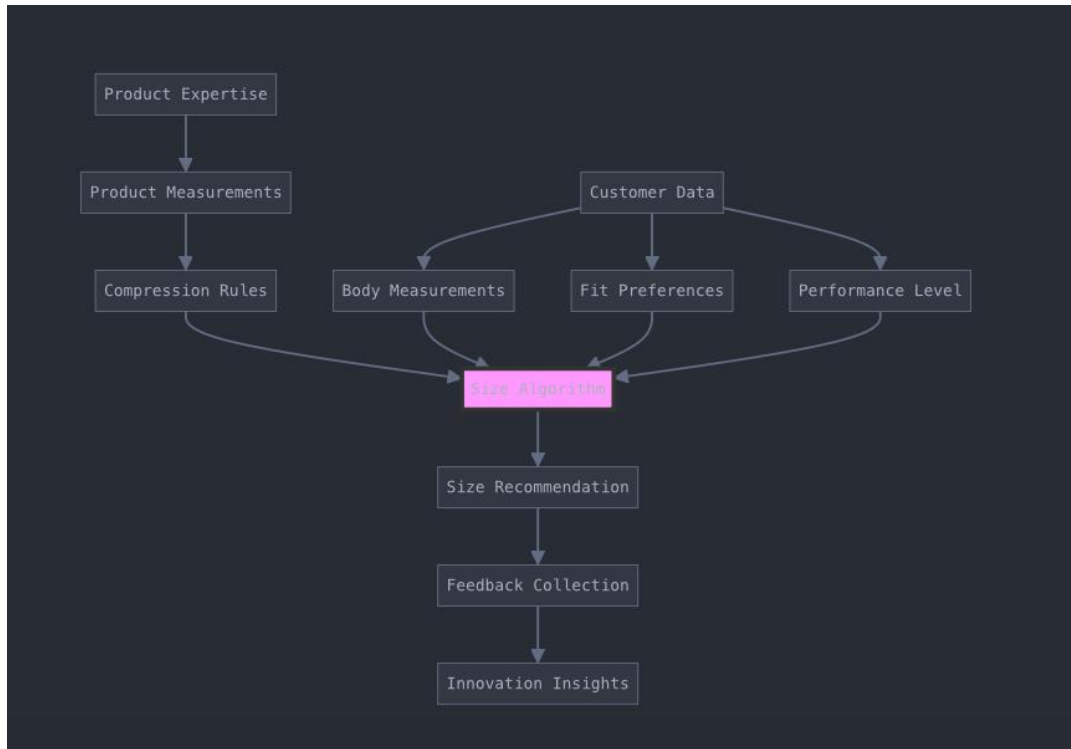

### Key Benefits

- **Zero Excess Logistics**  
Eliminate shipping costs & returns in workwear
- **Optimized Production**  
Precise sizing matrix from real body data
- **Sustainable Impact**  
Eliminate excess stock & reduce waste

# Details on the technology/process

# Differential value and sustainable impact

Size Charts

Brand Size	Bust (in)	Waist (in)	Hip (in)
XX-Small	31.5	25	34.5
X-Small	32.5 - 33.5	26 - 27	35.5 - 36.5
Small	34.5 - 35.5	28 - 29	37.5 - 38.5
Medium	36.5 - 37.5	30 - 31	39.5 - 40.5
Large	39 - 40.5	32.5 - 34	42 - 43.5
X-Large	42.5 - 44.5	36 - 38	45.5 - 47.5

## ⚠ A Crisis That Demands Action

Fashion is the 2nd largest polluter, where even sustainable products become waste due to poor fit. Every misfit leads to returns, reshipping, and eventually pollution in our fields and oceans.

## 🔄 A Market Ready for Change

Starting with professional uniforms - from cycling teams to firefighters to airline staff - where fit is crucial and current manual fitting costs €10 per person. A clear opportunity to demonstrate how digital fitting can transform an industry.

## 💚 A Mission That Matters

Creating a product-first data standard that prevents waste before it happens. By structuring product data and matching it perfectly with customer bodies, we're setting a new sustainable standard for the fashion industry.

# Market/Target audience

## ⇒ Strategic Market Focus: Professional Uniforms

### Performance Wear

Cycling teams with custom logos & sponsoring

### Safety Wear

Firefighter suits & professional equipment

### Formal Uniforms

Airlines & corporate dress codes

### € Cost-Benefit Analysis

#### Current Process:

€10 per manual fitting session

#### Our Solution:

Digital, scalable fitting platform

### Key Challenge

- Split between wearer & buyer
- Manual fitting process
- Inefficient data collection

### Digital Solution

- Automated Fitting Platform**  
Digital measurements & matching
- B2B Integration**  
Seamless process for buyers & wearers
- Data-Driven Decisions**  
Optimize inventory & production

### Business Impact

- **Zero Excess Logistics**  
Eliminate shipping costs & returns in workwear
- **Optimized Production**  
Precise sizing matrix from real body data
- **Sustainable Impact**  
Eliminate excess stock & reduce waste
