

# BIT Academy Courses: Building Digital Skillsets

## Salesforce Administrator

This remote, tuition-free program is designed with accessibility at its core. Led by certified Salesforce Administrators who also have disabilities, this course ensures inclusivity for everyone, particularly those using screen readers.

Participants join a supportive community where collaboration with fellow students fosters growth. With tailored materials, quizzes, and insights, the program equips individuals with the skills needed to prepare for Salesforce certification.

As the only Salesforce training provider globally dedicated to people with disabilities, BIT is committed to helping individuals unlock their potential and build rewarding careers.

# BIT Academy Courses: Building Digital Skillsets

## Digital Accessibility

This 14-week program, also led by instructors with disabilities, is designed to equip participants with the skills and knowledge needed to pass the IAAP CPACC certification exam, preparing them to make a real impact in creating inclusive digital environments.

The course dives deep into key areas like disabilities, assistive technology, accessible design, Universal Design, and the latest global accessibility laws and standards. Participants will also learn to conduct comprehensive WCAG 2.1 and 2.2 AA audits and plan effective remediation strategies.

This program is focused on empowering disabled professionals to lead in accessibility and make the digital world more inclusive for everyone.
