

HIGH NATURAL COEFFICIENT

Xiléa

INGREDIENTS

ABOUT US

We are a company based in Extremadura (Spain) with a unique vertical production model, controlling every stage of the process: **from the cultivation** of our raw materials to their transformation into **high-quality functional ingredients**.

Our processing facility is integrated into the same area of the farm, ensuring **maximum freshness, full traceability**, and the flexibility to quickly adapt to our clients' needs.

We were born with a clear purpose: to deliver the industry **natural, science-backed ingredients** that are **effective, safe, and sustainable**, designed to bring real value to today's and tomorrow's formulations.

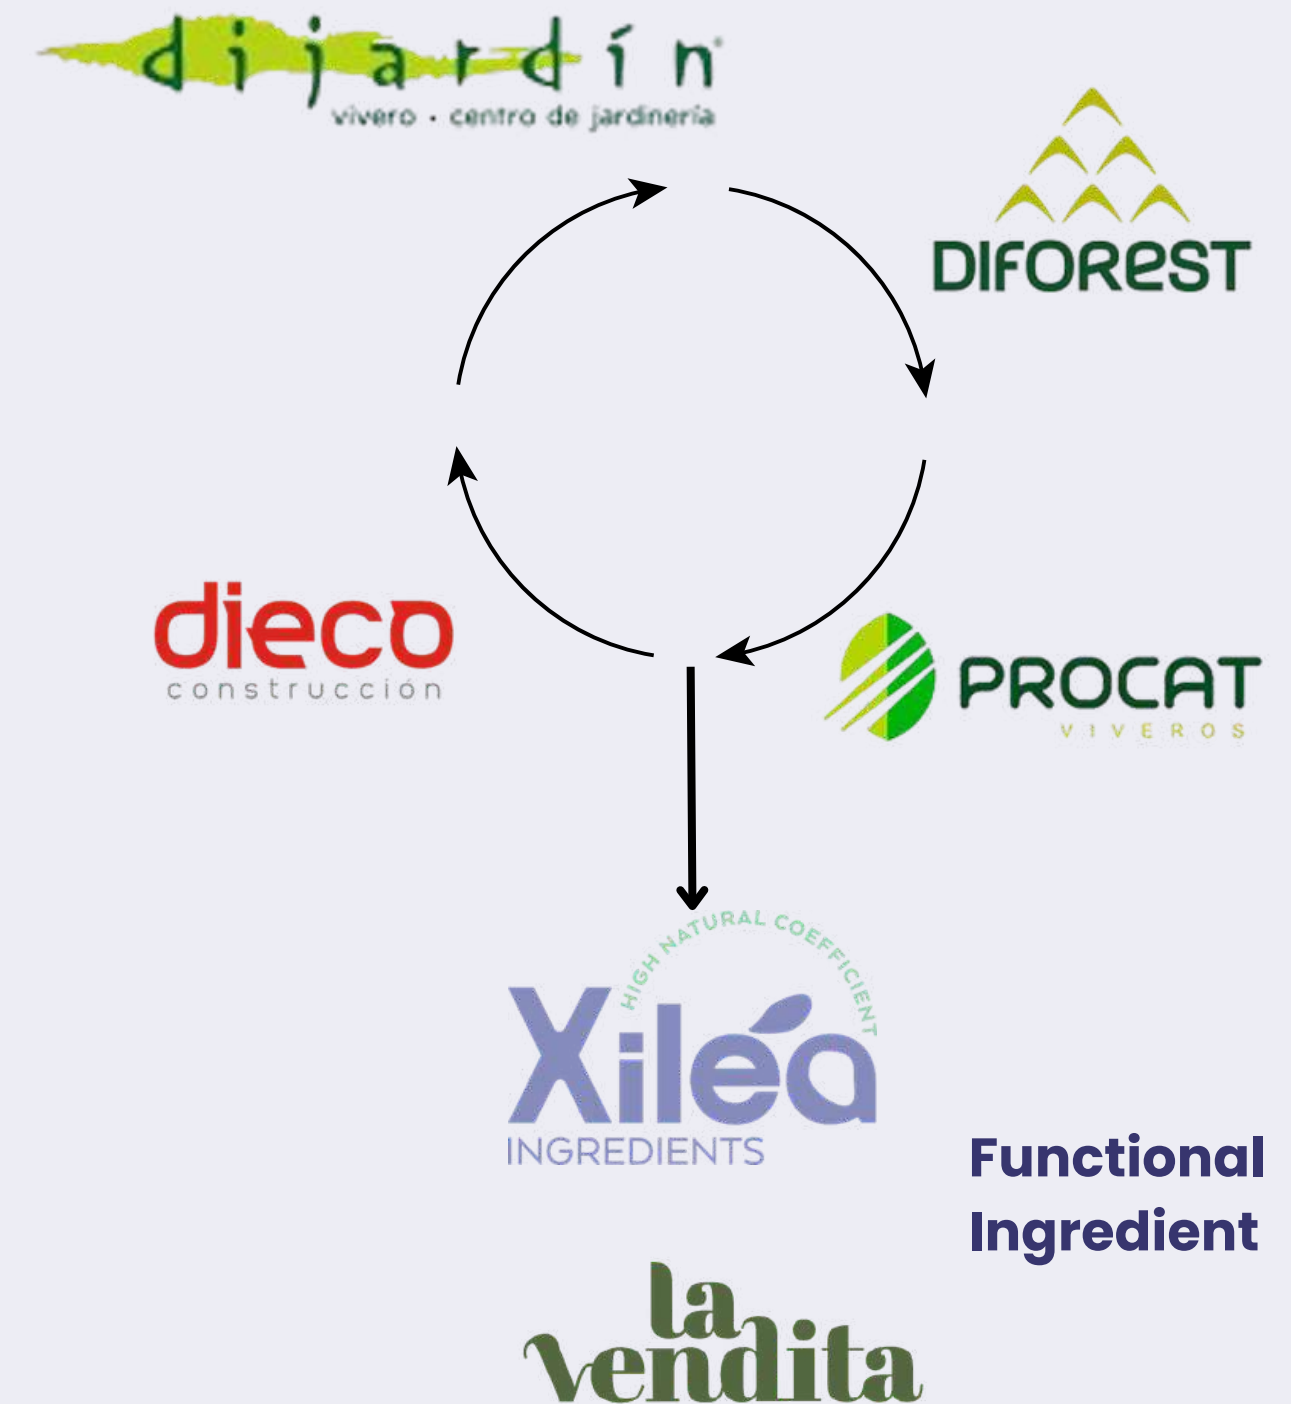

WHO WE ARE

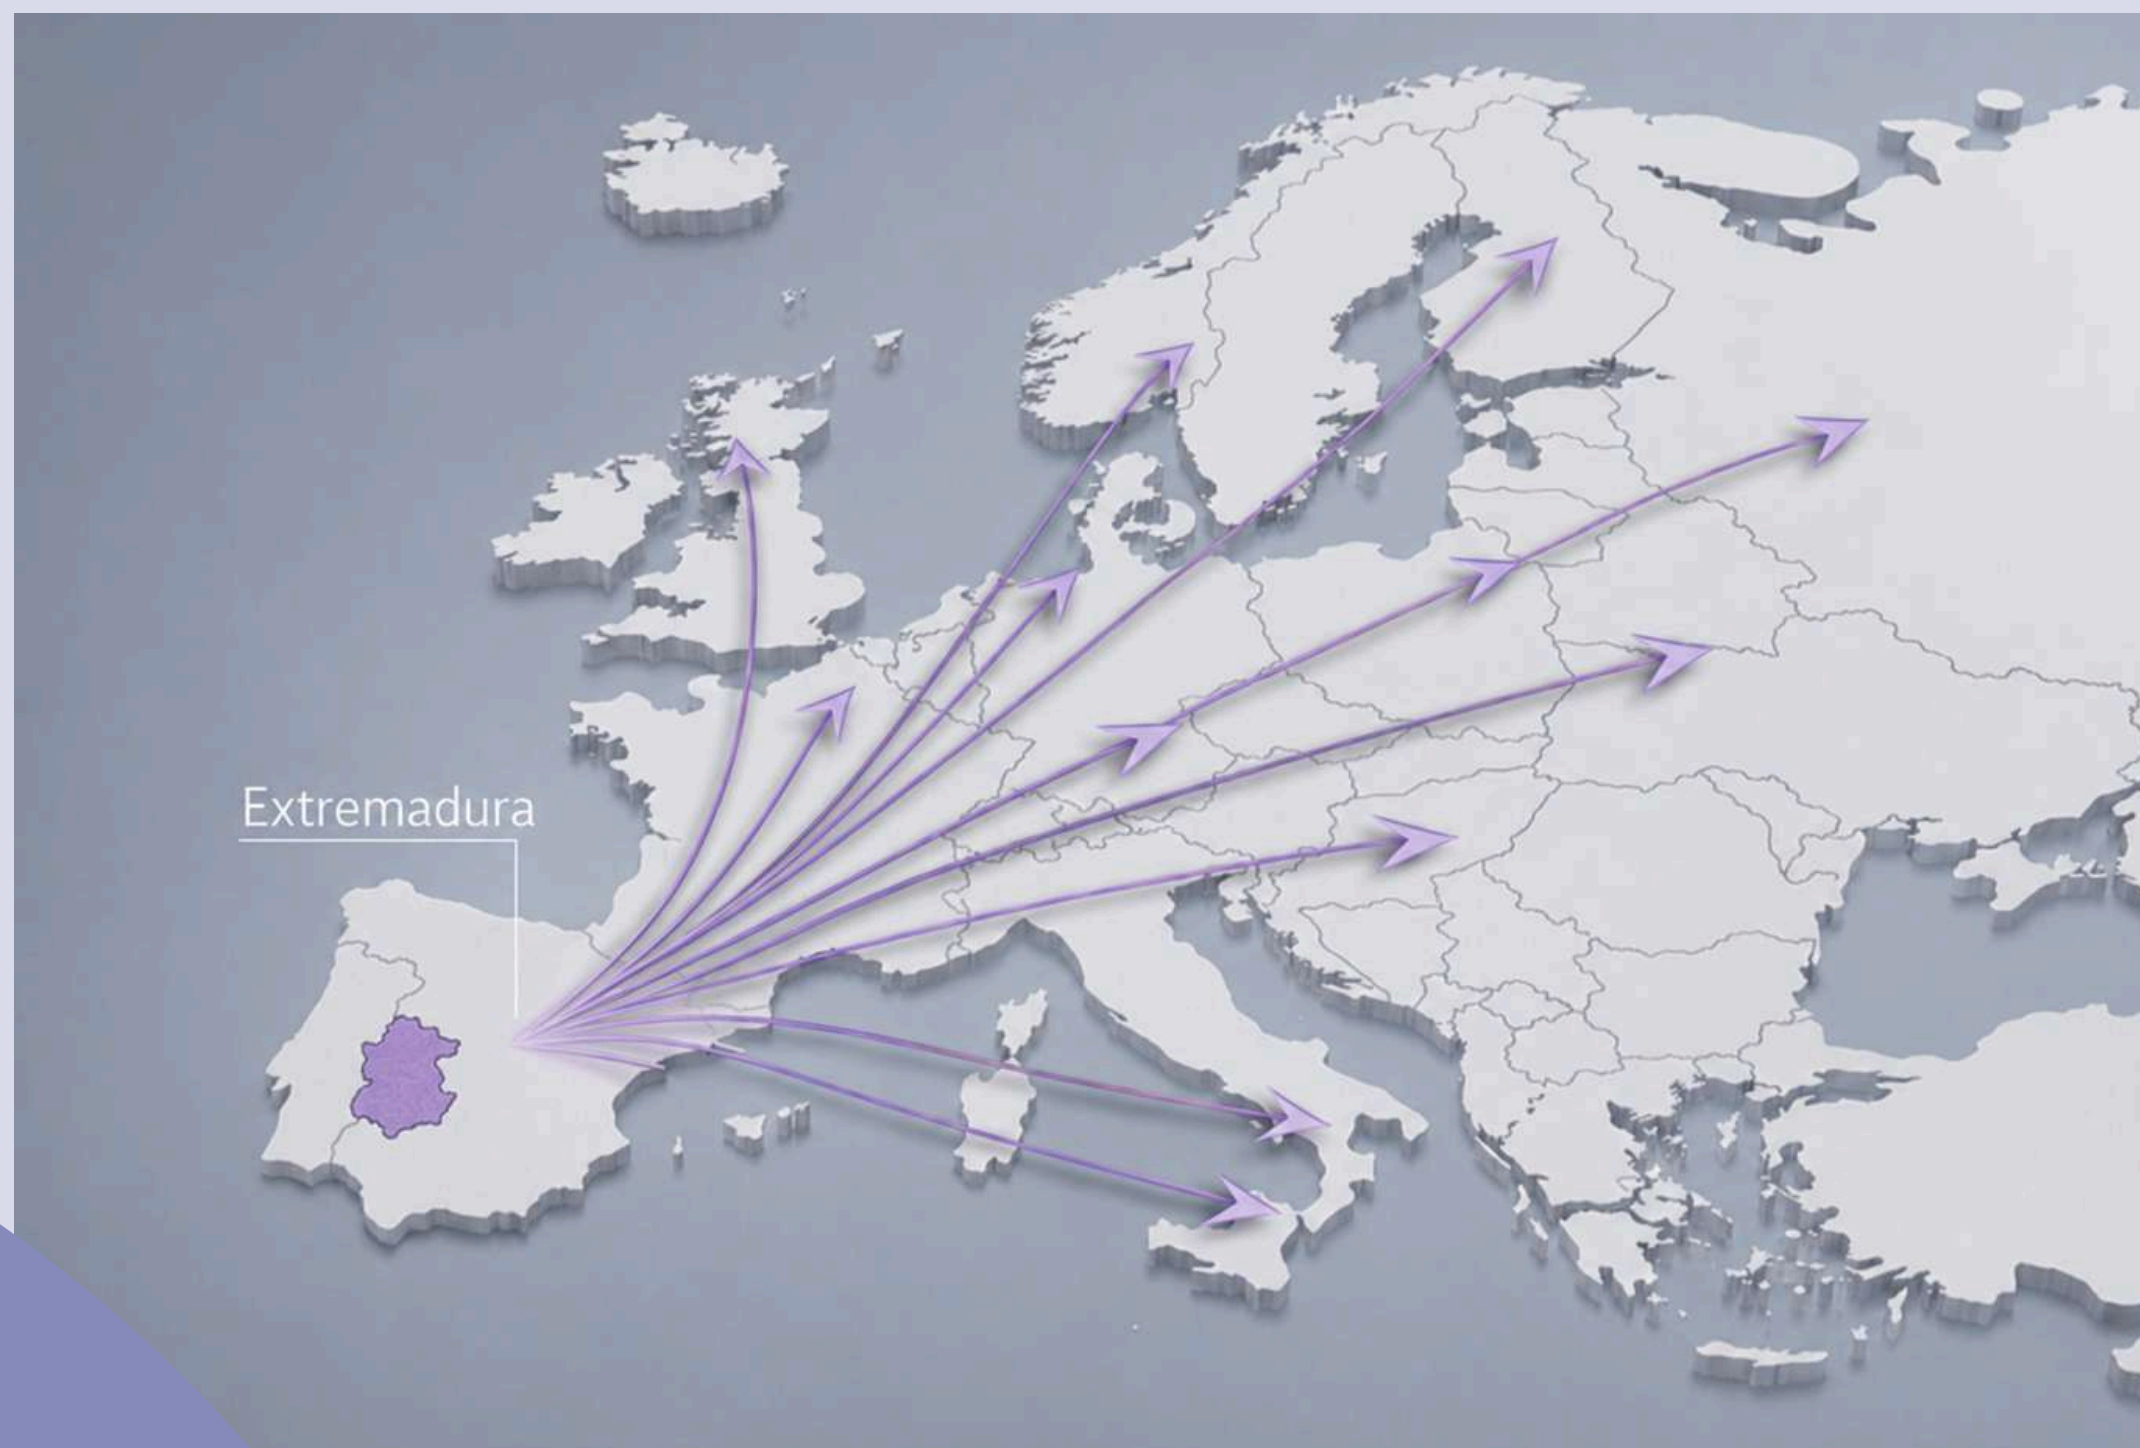

XILÉA INGREDIENTS: A PROJECT BACKED BY A STRONG BUSINESS GROUP

Xiléa Ingredients was born as the natural evolution of a business group with extensive experience in agriculture, industry, technology, and commercial development. It is not an isolated initiative, but the result of years of building solid, efficient companies with a long-term vision.

Agricultural Bussiness Group

WHO WE ARE

Spain's strategic geographical location, combined with its position as one of Europe's leading agro-industrial hubs, offers a significant competitive advantage.

From Extremadura, Xiléa can efficiently serve key European markets with speed, reliability, and high logistical efficiency

WHAT WE DO

At Xiléa, we **develop natural functional ingredients directly from our fields**, with an integrated, end-to-end approach.

We control every stage from agricultural production to industrial processing, which allows us to ensure the freshness of the raw material, the purity of the final ingredient, and full traceability throughout the process.

OUR FACILITIES

We have **30,000 m² of greenhouse space** dedicated to cultivating our raw materials. Our industrial plant is equipped with specialised technologies for extraction, concentration, and dehydration designed to preserve the bioactive properties of the plants.

We provide technical solutions tailored to meet the demands of the industry.

GREENHOUSE

FACILITIES

We operate a modern, fully equipped industrial facility featuring the latest technology. Our infrastructure is designed to meet the highest standards of quality, efficiency, and safety, ensuring consistent high-quality output and full compliance with industry regulations.

OUR FACILITIES

OUR FACILITIES

WHAT WE DO

Our work is guided by three core values: consistent **quality**, **sustainability**, and proven **effectiveness**. We support our clients with specialised technical assistance and a collaborative mindset, developing ingredients that bring **real and differentiated value** to their formulations.

The background of the image shows several clear glass petri dishes arranged on a white surface. Inside the dishes are various green plant samples, including small leaves and stems. A semi-transparent blue banner is overlaid across the middle of the image, containing white text. In the bottom right corner, there is a blue logo consisting of a stylized 'X' shape with four leaf-like extensions, followed by the text 'INGREDIENTS HIGH NATURAL COEFFICIENT'.

**AT XILÉA, WE CULTIVATE MORE THAN JUST NATURAL INGREDIENTS.
WE CULTIVATE KNOWLEDGE, EFFECTIVENESS, AND TRUST.**
