

# RE:Nutri: Decarbonization of the Food industry

Become a partner in our initiative for Clean Energy Transition Partnership (CETP) 2024.

## Summary

As the institute of Networked Energy Systems, we are looking for industrial partners to research concepts of secure and decarbonized energy supply in the food sector.

## Process

We use techno-economic data of your facility to optimize and model you as a energy actor in the grade energy system.

## Contact us until 16th of Sep. 2024
