

The **ageless beauty** cosmeceutical series – non-invasive **alternative** to **aesthetic medicine**:

- the **definite solution** for **lines and wrinkles reduction** - dedicated to women who want to fight the signs of aging successfully
- "**botox-like**", "**collagen-boost**" and **whitening** effect powered by biomimetic peptides in liposomal technology
- a fine selection of **active ingredients** enhancing the **anti-aging effect** (e.g. biomimetic peptides, vitamin A, B and E, hyaluronic acid, etc.)
- **liposomal technology** that makes active ingredients penetrate into the deeper skin layers, guarantees the lasting effect of their release and significantly increases the effectiveness of the cosmeceuticals used
- complete skin care series for **all skin types**
