

LINEN

LINEN

A Grupe collections

“NATURAL” collection consists of rough products with massage effect, whose composition is: loops – 100 % linen, base – 100 % cotton. These unique linen products massage well, are non-static and keep warmth. The moisture absorption of this group is medium; for better absorption, the material should be fractioned with wet surface. The main weakness of “NATURAL” product group is its greater

shrinkage (8-10 %) and some fiber shedding that can occur after the first wash. Due to natural color variations of flax, from yellow to dark gray, different product parties will have differing colors.

“EXCLUSIVE” collection consists of tender, specially softened products, the composition of which is - loops 100 % linen, base 100 % cotton. Products keep their characteristics for a long time and are long-usable. These linen products absorb moisture well, are antistatic and keep warmth. Production group shrinkage is (2-3 %) after the first wash.

“PRESTIGE” collection consists of light products from 100 % linen or 50 % linen / 50 % cotton waffle fabrics and products from unique double-sided, plise, goffer fabrics. Production group shrinkage is (2-7 %) after first washing.

“TOP LINEN” collection consists of light products from 100 % linen or 50 % linen / 50 % cotton plain fabrics. Production group shrinkage is (3-8 %) after the first wash.

“SOFT LINEN” collection consists of light products from 100 % linen or 50 % linen / 50 % cotton plain softened fabrics. Products are finished and softened by a special technique mechanical softening process without using harsh chemicals, that make linen fabrics very soft and comfortable which is perfect for clothing. Makes the naturalness of our linen

fabrics and new finishing technology of linen brushing, which gives a unique soft coat effect. Production group shrinkage is normal (2-3 %) after the first wash.

“HAPPY KIDS” collection consists of wonderfully soft linen terry and plain linen products for children and babies. In order to keep natural properties of linen, it is softened only mechanically. This unique high-quality collection has been inspired by non-allergic and very eco-friendly properties of linen. The shrinkage after the first wash washing for this product group is usually 2-3 %.

“TOP GROUP” collection consists of digitally printed 100 % linen fabrics. Production group shrinkage is (2-3 %) after the first wash.

JSC A Grupe factory

JSC **A Grupe** is a linen fabrics and textile factory in Lithuania, founded in 1990. It is one of a few companies in Europe that weaves linen terry as well as high-quality plain, plise, goffer, waffle fabrics and sews a wide range of home, bath and sauna textile products.

In 2010, JSC **A Grupe** has acquired new weaving machines, which are able to weave wide fabrics, at the maximum width of 2,60 m. These new weaving looms have given us the possibility to produce more varied fabrics, such as plise, goffer, waffle and other modern structured fabrics. Also this new equipment has helped to expand our product range from home textile fabrics to high quality fashion fabrics.

Since 2016, the company has expanded its finished textile products line to include apparel. Our team of professional craftsmen and designers keeps developing diverse and unique linen fashion fabrics and homewear.

According to high customer demand for fashion fabrics, JSC **A Grupe** has acquired more new weaving looms from Picanol (Belgium) and a fabric sorting machine. That is why, since 2017, the factory has expanded its fashion fabric collection even more. The new, modern looms that have extremely large technical possibilities let the company offer much more diverse high quality fabrics - from very thin and light to very heavy ones, such as 100 % linen, cotton/linen mixes and many other fancy compositions.

Since 2019, JSC **A Grupe** offers a new service – digital fabric printing. Prints could be chosen from our original data base or can also be designed according to customers request.

JSC **A Grupe** keeps growing and plans to start weaving jaquard fabrics of 150 cm to 230 cm width, which will give us the possibility to expand fancy fabrics and home textile collections at the beginning of 2020.

Main production – weaving linen, linen/cotton, cotton fabrics, fabric finishing, sewing ready-made home textiles for bedroom, bathroom and sauna, kitchen and table, linen garments and accessories for children.

Weaving – linen and other natural fibres fabrics, including soft and rough (massaging) terry, plise, goffer, waffle, plain, herringbone and double-sided fabrics. Their widths vary from 50 cm to 320 cm, weights - from 120 g/m² to 800 g/m²;
Textile finishing – fabric and ready-made items washing, bleaching, dyeing, softening, tumble-drying, stabilization, other special treatments.

Sewing – home textiles for kitchen, bedroom, bath, sauna and production for kids.

Digital printing – printing on linen fabric, from 50 cm up to 150 cm width. Original data base of prints. Prints design service according to customers request.

Bed and Interior Linen

Bed and Interior Linen

Linen bedding is not only ecologically friendly, but also antistatic, antibacterial and non-allergenic. Our 100 % linen bedding collection will keep you warm in winter and won't let you overheat in summer, because linen is a highly breathable fabric. You will finally discover the feeling of luxury and quality rest when you lay down between our pure 100 % linen sheets, which will maintain their quality for many years.

In our Bed and Interior Linen collection you will also find long lasting curtains, luxurious bed covers and decorative pillows made of unique plise, goffer or double-sided fabrics.

Bed linen

Thanks to special softening treatments, the linen is super soft and pleasant to the touch. Linen fabrics are famous for ensuring best micro-climate for skin, they help regulate body temperature and ensure enhanced breathability. Linen bedding will serve you for years without losing its looks and will only become even softer.

Bath Linen

Bath Linen

Linen is strongly valued for its high absorbency in addition to its allowance for water to evaporate quickly. Thus, it is a perfect choice for bath towels and accessories. Discover our exclusive collection of linen and half linen terry towels, either softened or rough, slippers and many other linen bathroom accessories such as cosmetic sponges, backwashers and turbans.

Towels

We offer a wide range of towels – terry, waffle or plain. Rough linen terry towels are perfect for your body after bath because they massage your skin without irritating it and improve the blood flow. Specially softened terry towels are perfect for people with sensitive skin as they gently wipe and absorb water immediately. Bath towels made of softened waffle or plain 100 % linen or linen/cotton fabrics are not only highly absorbent but also significantly durable. They will serve you for many years and what's more – they will look and absorb better and better with every wash.

► **Sauna seat covers.** Linen sauna seat covers are the best choice for the sauna. Not only because they are stylish and will fit any sauna, whether it is very luxurious, modern or has a traditional wooden interior, but in addition, linen is dirt-repellent and bacteria-resistant. Thanks to this, linen sauna seat covers will become your favorite sauna accessory!

► **Sauna pillows.** Why not make your sauna experience even more relaxing by using a linen sauna pillow? These matching pillows are made of quality pure linen fabric, which has natural heat regulating, antibacterial, moisture absorbing and evaporating capabilities.

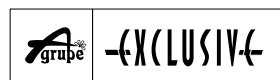

► **Sauna hats.** A great addition to our sauna collection are linen sauna hats. Being capable of withstanding sudden temperature changes, linen sauna hats will protect your hair from the sauna heat.

For sure, the best fabric for coolness and comfort in warm weather and hot climates is pure linen. This natural fabric absorbs perspiration, allows the skin to breathe and the air to circulate round the body. Due to these advantages, linen is perfect for bathrobes and nightwear sets. Put on our cozy and super soft nightwear, wrap up in a pure linen bathrobe which is simple but so elegant and feel comfortable and stylish in your bedroom!

Only mechanical way is used to brush twill weave linen fabric, avoiding chemicals, which can cause an allergic reaction and fabric damage. After that, the surface gets soft and a little bit fluffy, reminding of wool.

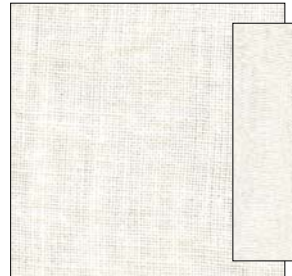

Recycled cotton is also commonly referred to as regenerated cotton. Recycled content includes recycled raw material, as well as used, reconditioned and re-manufactured components. The largest volume of recycled cotton sources is produced through pre-consumer waste, such as cutting scraps.
