- Flap-Laminate Labels
- Security Labels for medical device and automotive
- Asset Labels for products
- Tamper Evident Labels for all industries
- UL Approved Labels

UL Labels

DURABLE LABELLING SOLUTIONS

UL stands for Underwriter Laboratories. UL are a third-party certification company founded in the USA in 1894. They certify products and set industry standards to follow when innovating new products with the aim to make our world a safer place in terms of safety, flammability and sustainability. They continually check or test these materials or products to ensure they meet these standards and ensure products are constructed correctly for adequate safety. UL standards certification includes listing certification and recognition certification. Listing certification is generally of an end product, while recognition certification is for component parts included within a product

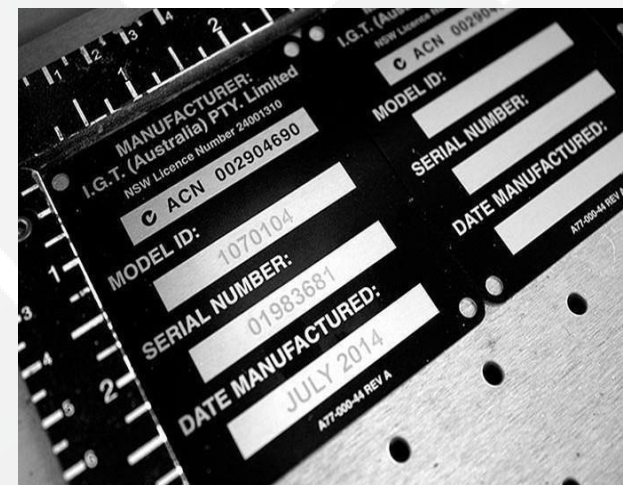

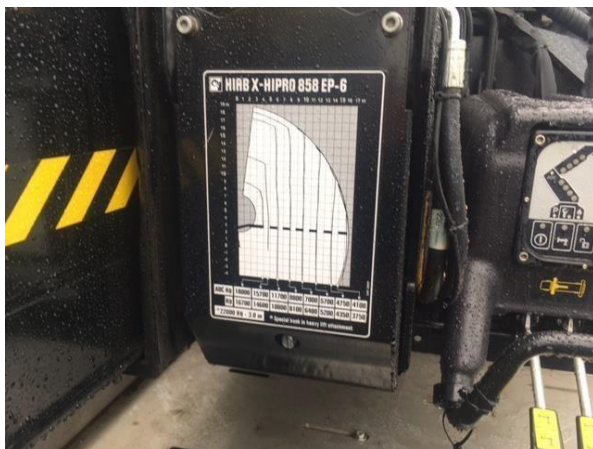

Underwriters Laboratories

Just a few samples of the UL mark.
Give us a call we will help you
determine what material and mark to use

Sustainability at System Label

SUSTAINABILITY IS KEY TO PRESERVING OUR PLANET!

- We are proud to say that we hold a zero waste to land-fill status since 2016
- We recycle cardboard, plastic, Printer cartridges, aluminium
- Use of returnable packaging. Re-use of pallets & foam chips
- Chemicals from our production processes are recycled.
- 100% of the electricity that we consume in our business is 100% renewable
- Reduced air and road travel with the use of virtual online meetings
- Onsite electric car charger for Customers to use while visiting the facility
- Ongoing program to phase-in more efficient LED lighting
- Measuring energy, water & CO2 generated in our manufacturing

Sustainability at System Label

SUSTAINABILITY IS KEY TO PRESERVING OUR PLANET!

- Working to find the optimum yield & most efficient use of raw material to minimise waste.
- Use of durable and quality materials that maximise on the life of the product
- Endeavour to source raw materials as locally as possible to reduce carbon footprint in supply chain
- Working with our suppliers on compliance to RoHS and REACH to improve the protection of human health & the environment from risks presented by hazardous substances.
