One Stop Stock Count Services

Stock Count Solutions

One Stop stock take integrated solutions :

- 1) Sophisticated Stock Count Program
- 2) User friendly handheld devices
- 3) On site technical support
- 4) Real time quality reports
- 5) Instant data adjustment
- 6) Backup data and control log

Our Sophisticated Program

- Android Apps or offline data sync (client base / web base)
- Data capturing by location, by bin, by item (SKU)
- Quantity On Hand & Stock count data analysis
- Reports for audit purposes and variance checking
- Real time Stock take adjustment
- Output for different ERP system

User Friendly Design Handheld - Offline

- Security authorized log in
- Location / bin selection
- Bar code scanning with item validation
- Quantity auto sum and allow adjustment

Preparation methodology

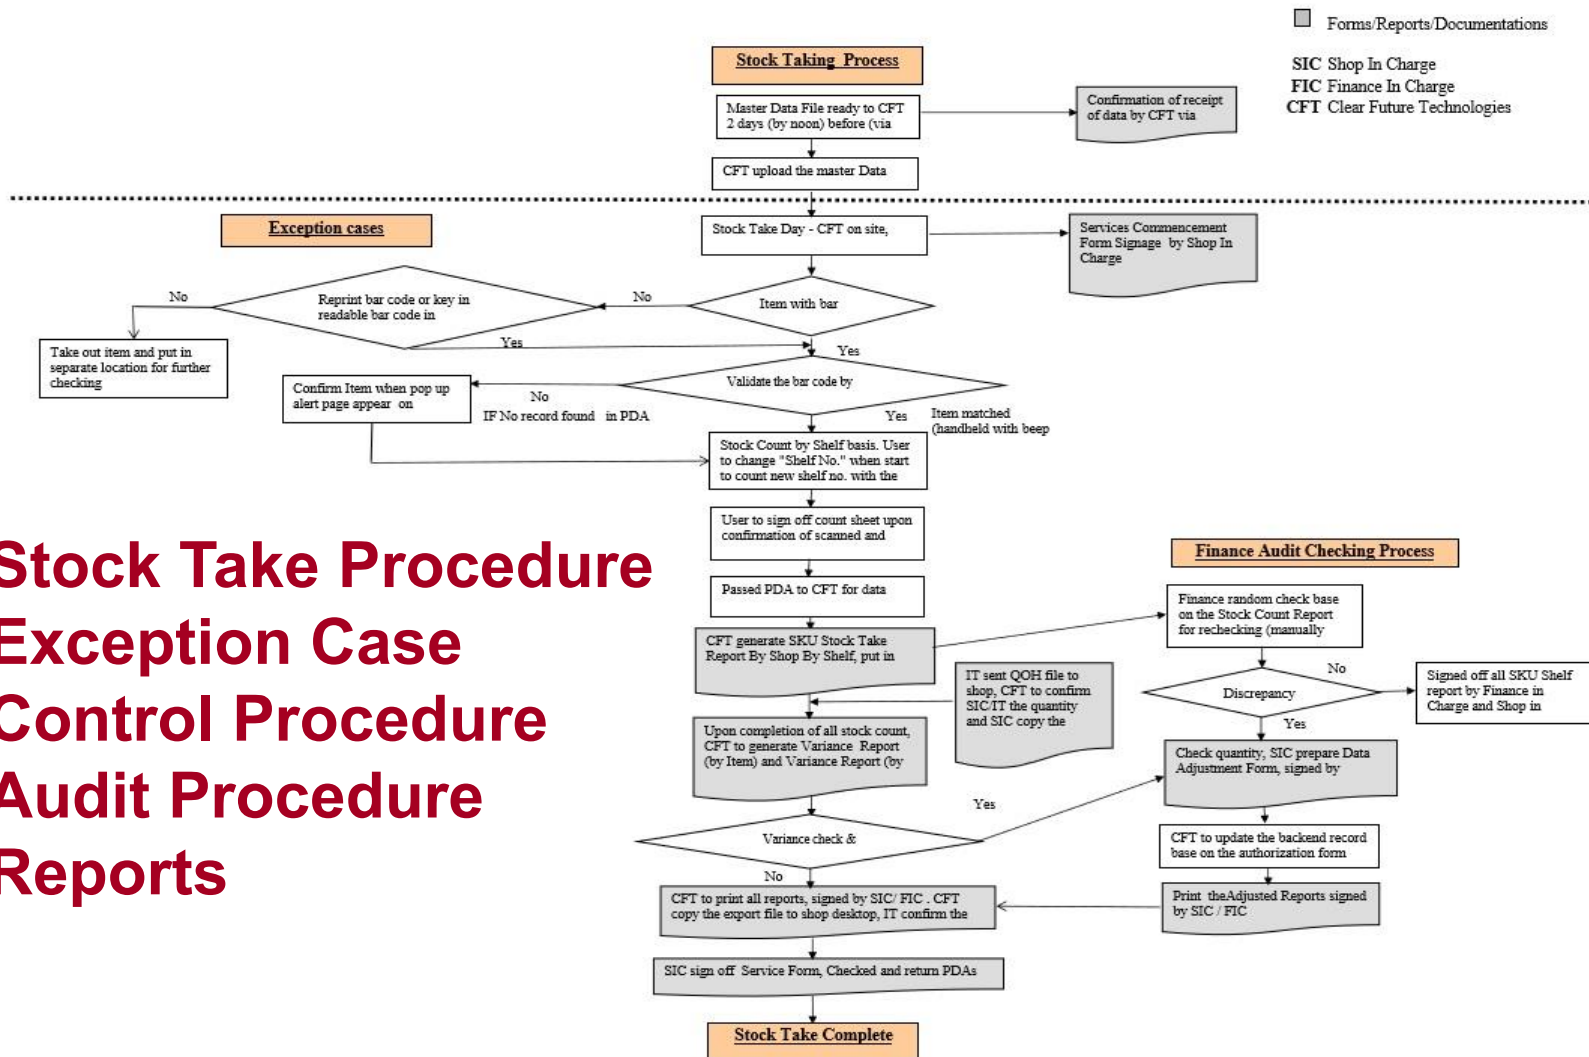

Optional Services – SOP & Site Planning

We provide SOP and shop planning consultancy for the client in order to minimize client's workload and optimize stock take efficiency and accuracy

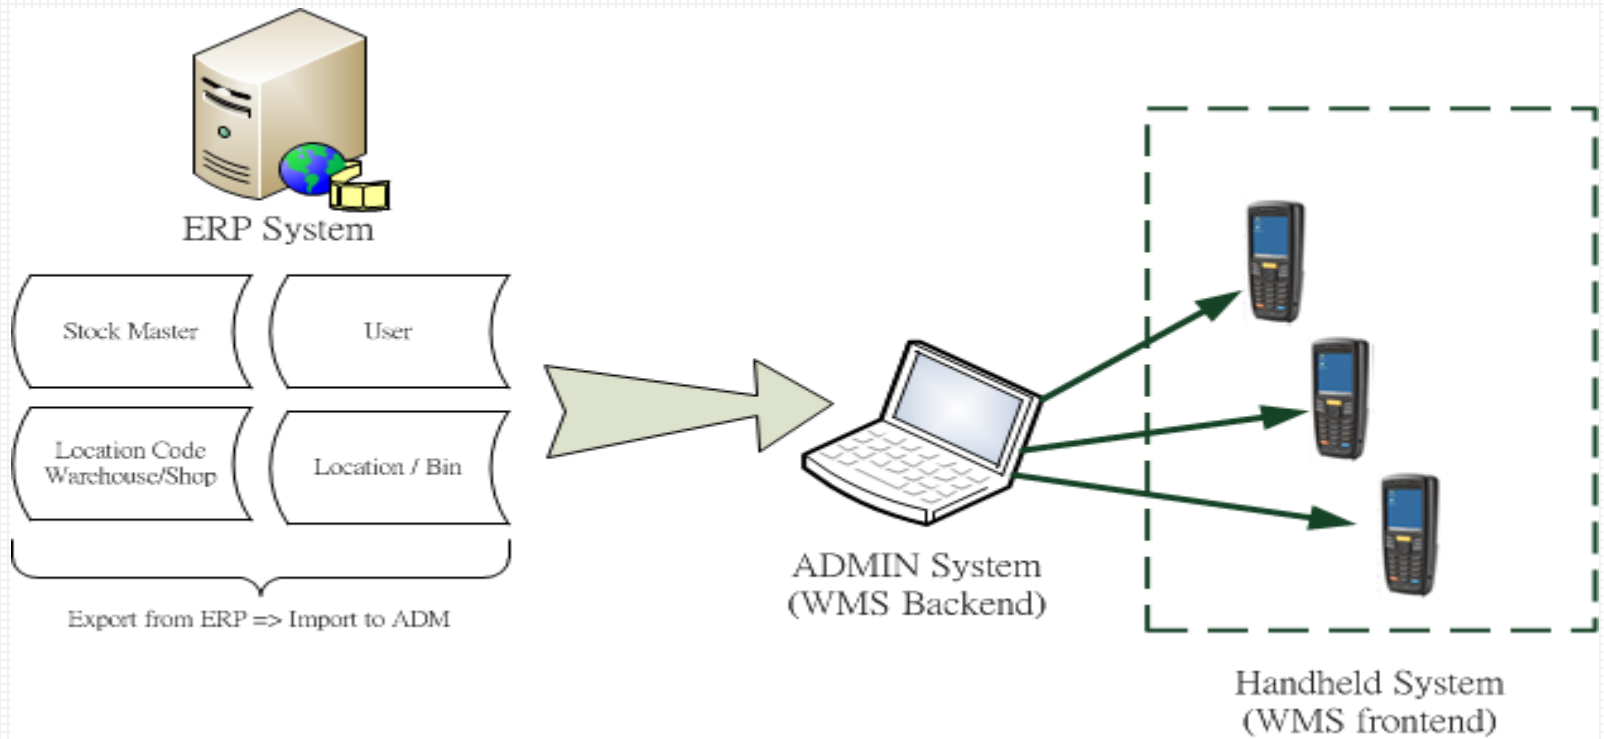

Optional Services – SOP & Site Planning

- Stock Take Procedure
- Exception Case
- Control Procedure
- Audit Procedure
- Reports

Technical Preparation

Notes:

Stock Master : Product Code, Brand, Description, Barcode

Location information : Warehouse Code or Shop Code, Name

Location / Bin : Bin Code (for identifying the positions of the Location

User Code : User ID and Name (If we provide the service, no User Table request.)

Our Stock Take References – Burberry

BURBERRY

Personalized Stock Take Services

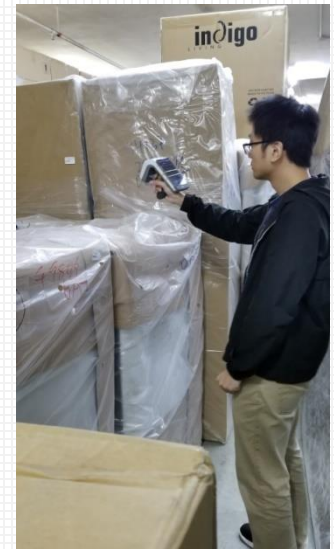

- HK & Macau outlets
- Integrated handhelds peripherals
- Customized stock take program
- Instant Stock report for audit & variance checking
- On site technical support
- Integrated with SAP

Our Stock Take References – Indigo

- Handle more than 40,000 SKUs of furniture & household items
- Provide up to 70 mobile devices
- Manage up to 10 retails shops & warehouses
- Integrated with Microsoft Navision
- Apply bar code scanning and RFID technology in warehouse

Our Stock Take References – Miniso

- Manage up to 20 retail shops within 5 days
- Stock taking of 600,000 units of items during the period
- Products include household items, cosmetics, bags and accessories
- Provide up to 50 mobile devices
- Provide one stop total solutions
- Apply bar code scanning and variance adjustment
