Why We Reinvented Air Purification

Clean air is essential for our health and well-being

3.2M Lives Lost Annually

Global air pollution is on the rise: 3.2 million lives are lost annually due to air pollution.

Indoor Air Crisis

Indoor air is about 5x polluted than outdoor air due to pollutants building up and concentrating.

In Search of Ideal Air Solution

A quiet, capable, and dependable humidifier and air purifier remain elusive.

Industry-Defying Solution

Zenwell's Capacity & Filters

VS

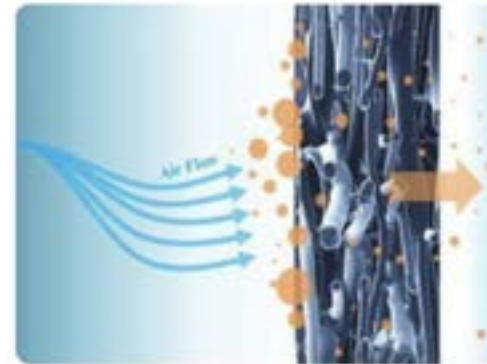

Humidification Range of an Ultrasonic Humidifier

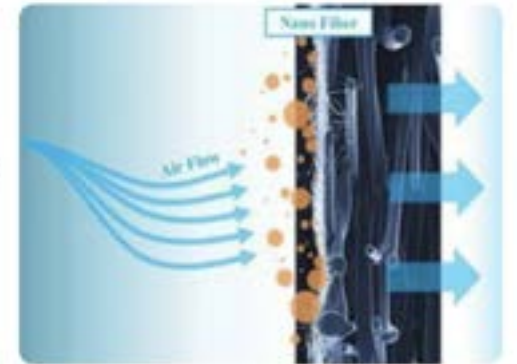

Water vapor particles with size of 5,000nm, so the particles cannot spread far

Humidification Range of Zenwell

Particles with a size of 0.2nm, so humidification is possible for a wide area

VS

Competitor Air Cleaning Filter

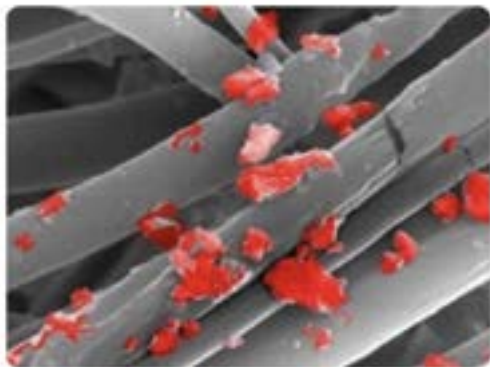

At high humidity, the electrostatic function is lost and fine dust penetrates

Zenwell Nano Air Filter

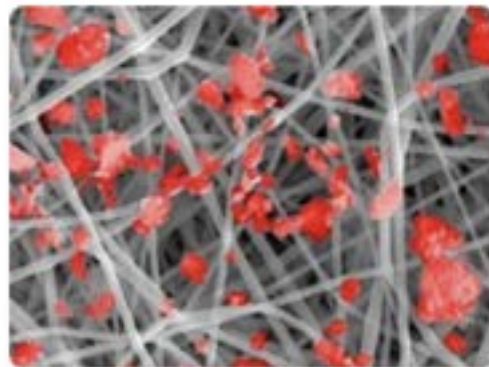

Physical filtration maintains effectiveness regardless of humidity

Industry-Defying Solution

Zenwell's Filters

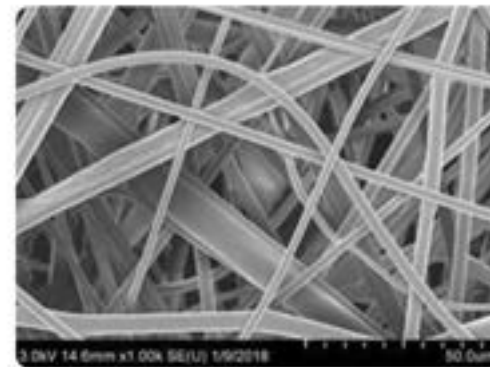

VS

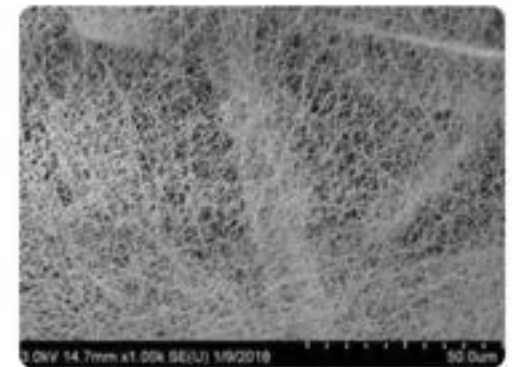

Electrostatic Filtration Filter

Zenwell Nano Air Filter

Images of distillation filtration and physical filtration methods were magnified 1,000 times with an electron microscope, with the ultra-fine dust colored red.

VS

Competitor HEPA Filter

Zenwell Nano Air Filter

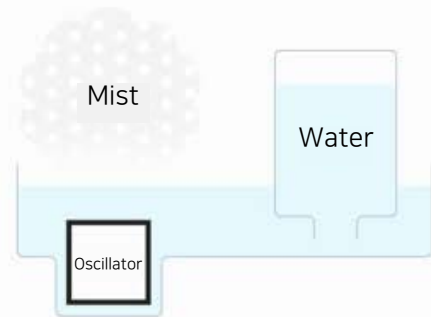

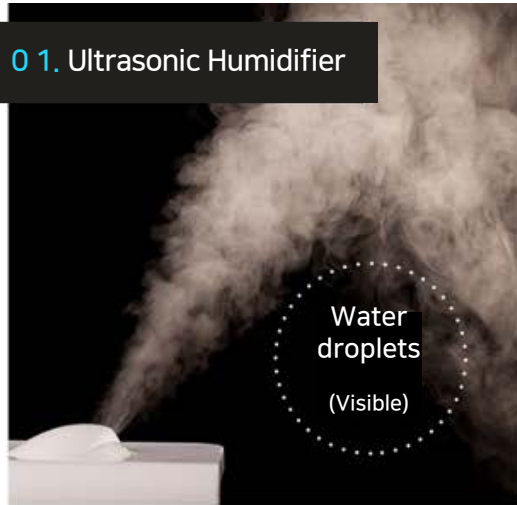

Photos enlarged 1,000 times with an electron microscope to check pores of the nano cleaning filter

OUR TECHNOLOGY

What's Evaporative Humidifier?

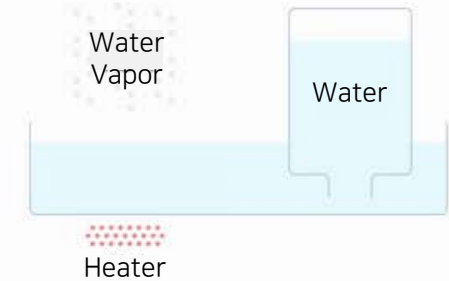

0 1. Ultrasonic Humidifier

Method of spraying **water droplets** using ultrasonic vibrations.

0 2. Steam Vaporizer

A method of heating water to produce and supply **hot steam**.

OUR TECHNOLOGY

What's Evaporative Humidifier?

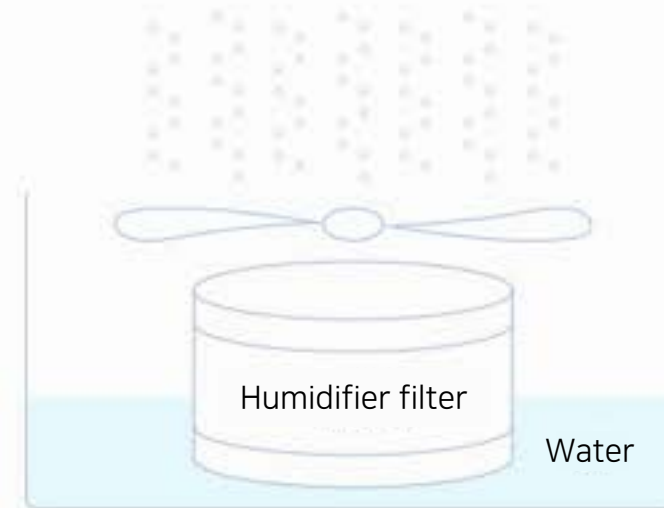

03. Evaporative Humidifier

Emission of
pure moisture
(Invisible)

ZENWELL'S PICK!

Air-based emission of **pure moisture** from a wet humidifier filter.

OUR PRODUCTS

Mini Air Purifier for babies

Baby Breeze Air Doctor

- Compact, dual-filter device for clean air for babies.
- Features a sophisticated CO2 sensor for enhanced air quality monitoring.
- Mood lamp on top flashes as warning for poor levels of fine dust, harmful gases, and CO2.
- Photocatalytic filter with UVC light eliminates viruses and chemicals.
- Fine dust filter removes harmful fine dust particles.
- Real-time air quality monitoring via IoT
- Sleek design available in 6 colors to complement any space.

OUR PRODUCTS

Ice Maker

Dokdo Freeze

- 15 kg daily capacity and refrigerated foaming design for longer storage.
- Rapid opaque ice in 7 minutes or crystal clear ice in 15 minutes.
- Patented clear ice technology for transparent, sturdy, and slow-melting ice.
- 3 sterilizing UV-C LED lights for impeccable hygiene.
- Wide, semi-transparent dual-door design for effortless cleaning.

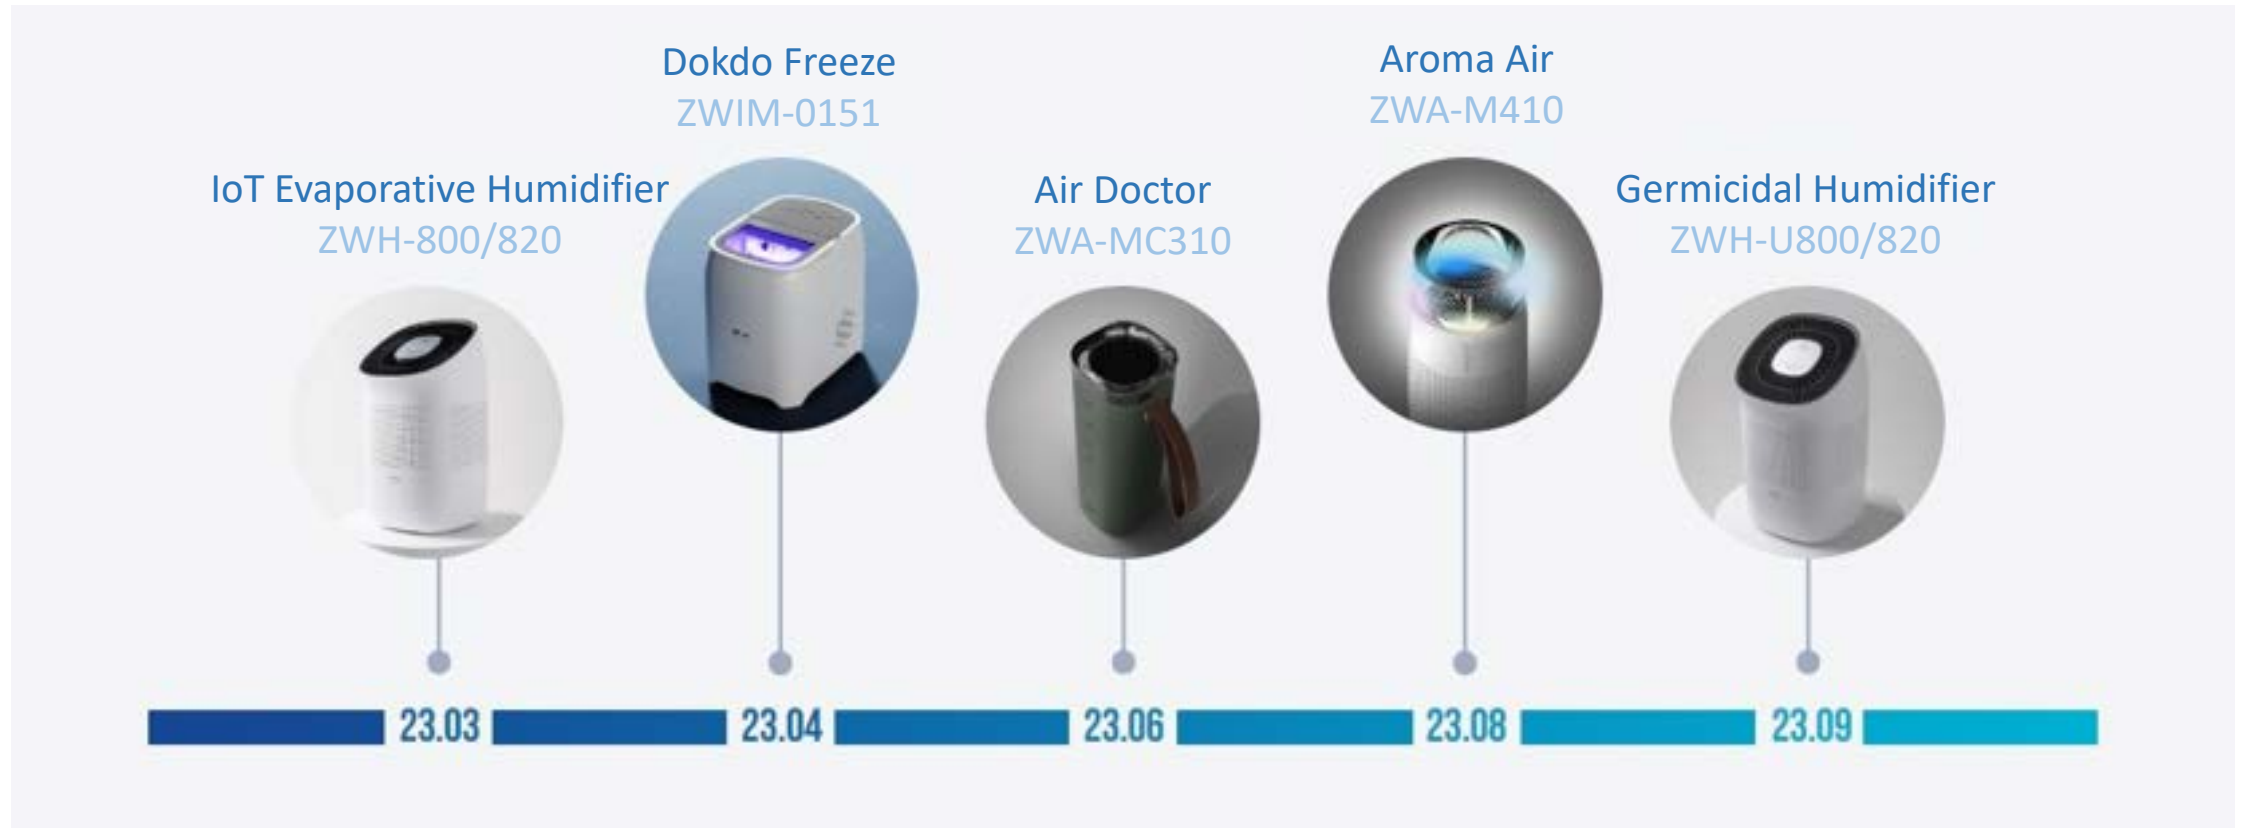

ZEROWELL

AWARDS

- 2023 Brand Customer Loyalty Awards, Grand Prize Winner
- 2023 Red Dot Design Germany, Winner
