

Wind Power investment opportunity in Finland

Strategic Opportunity in a Stable, Green Economy

當今在芬蘭投資風力發電項目的機遇

投向平穩綠色經濟體的戰略時機

2025-09-10 BELT & ROAD SUMMIT HONG KONG

2025年9月10日 香港一帶一路峰會

Opportunity to invest in developed wind farms in Finland

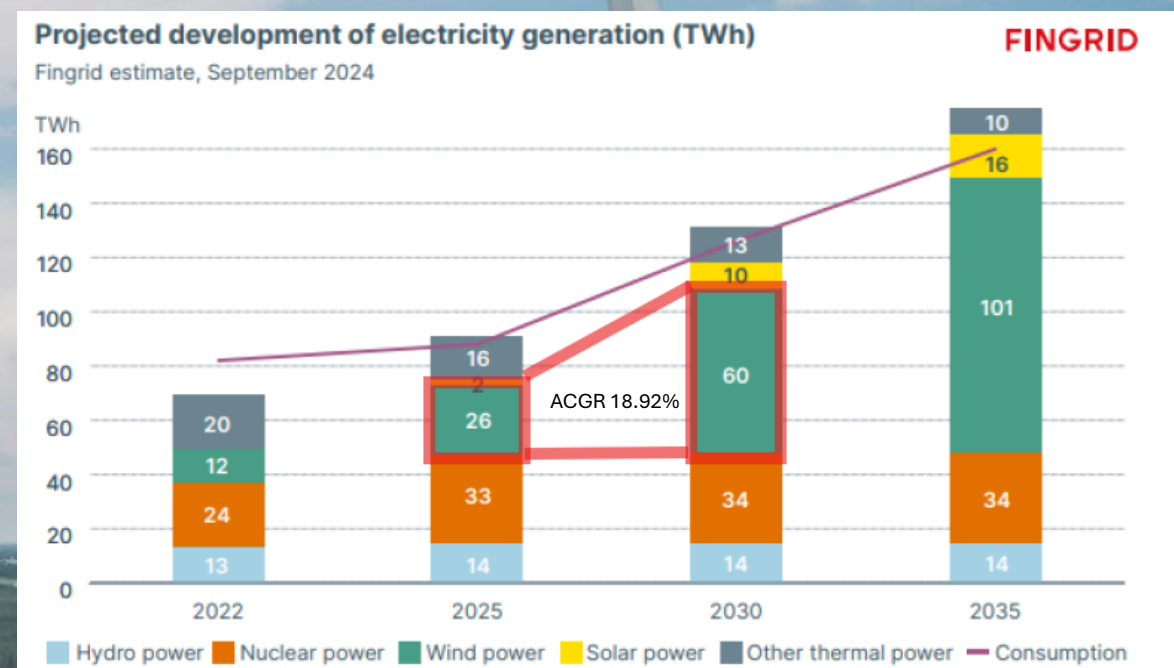

在芬蘭投資開發完備的風力發電場機遇

- To invest in a **fully permitted wind project** or a **portfolio of development-stage projects** with full permitting in place,
投資某一**許可完備的風電項目**或即將獲得完全許可的**開發階段項目組合**,
- Through the **share acquisition** of project companies (SPVs).
通過收購項目公司 (SPV) 的股份。
- The wind farms range from **30MW to 120MW** in full power generation capacity.
待投資的諸多風電場規模按個體滿發容量算從**30兆瓦到120兆瓦**不等。

Entering an Underserved Market with High Growth Potential

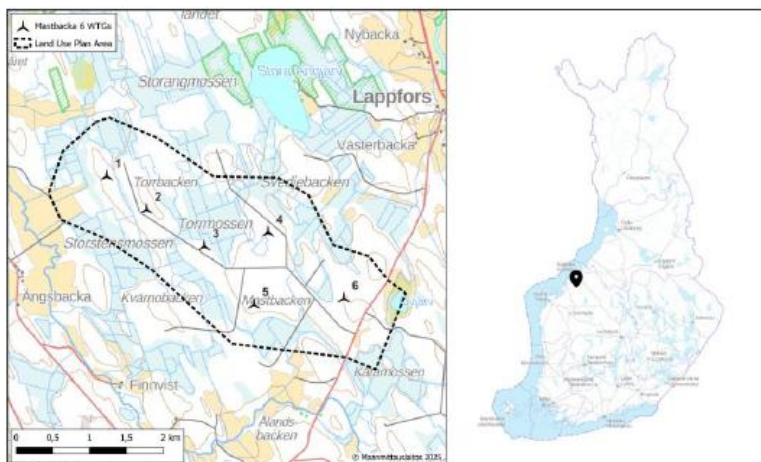

面對未被滿足可再生能源市場需求，芬蘭風電增長潛力高

- Finland - An Eurozone economy with AA+ (S&P) credit rating
芬蘭 – 歐元區 AA+ 信用等級經濟體
- Electricity market with one national bidding zone, strong Nordic integration, reliable infrastructure, and no regional price fragmentation
具有單一國家統一競價區、強大的北歐一體化、可靠的基礎設施、沒有區域價格碎片化電價市場
- Doubling electricity consumption in the coming decade, driven by industrial electrification (green steel, battery manufacturing, e-fuel), hydrogen production, data centres and electric heating
在工業電氣化（綠色冶金、電池製造、電力燃料）、制氫、數據中心和電採暖的推動下，未來十年電力消耗將翻一番。

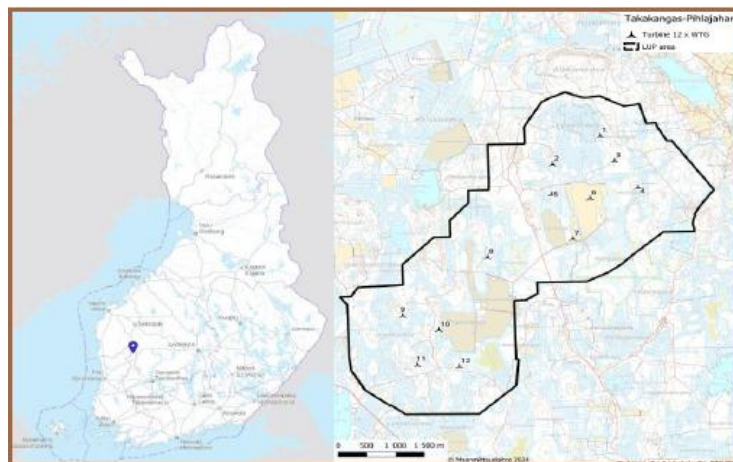

Sample Projects under the management of Etha Oy (Ask for more)

管理項目示例 (按詢給出更多諮詢)

Mastbacka Wind Farm is a project of 40.2 MW capacity, with all permits in place and becoming operational in 2028.

Mastbacka風電場是一個容量為40.2兆瓦的項目，所有許可證均已到位，將於2028年投入運營。

Takakangas-Pihlajajarju Wind Farm is a project of 86.4 MW (permitted for 120MW). The project is estimated to be operational by 2029. Takakangas-Pihlajajarju風電場是一個86.4 MW的項目（允許120MW）。該項目預計將於2029年投入運營。

Kvarnbacken Wind Farm is a hybrid project of 39.6 MW (Permitted for max. 60 MW) WTG together with land permitted also for 25.7 MWp photovoltaics as well as a 50 MWh battery storage area. The project is estimated to be operational by 2029. Kvarnbacken風電場是個混合項目，裝機容量39.6兆瓦（最大允許裝機容量為60兆瓦），同時還允許裝機容量為25.7兆瓦時的光伏發電以及50兆瓦時的電池存儲區。該項目預計將於2029年投入運營。

ETHA is a Finland-based developer of renewable power infrastructure investment.

ETHA是植根在芬蘭的可再生能源電力基礎設施投資開發商。

核心服務包括：投資項目的開發服務，項目顧問，項目轉讓交易顧問。

業務能力覆蓋：技術、商貿、法務和ESG

有累積50GW的項目經驗。
