

MORETTI

Viticoltori dal 1630

Dear Sirs,

I would like to introduce our company with a brief letter of greetings, we are a family-run winery with a well-established history since 1630 in the Langhe and Roero wine region in Piedmont, growing commercially in terms of exports also to foreign markets in the last few years.

Our philosophy is to vinify only grapes from our own vineyards, about 30 ha of properties on the main Unesco hills of this territory, taking great care to protect the land and use products with low environmental impact to take care of the vineyards.

The richness and diversity of the soil allows us to come out with different lines of wines, different in style due to the diversity and richness of the vineyards in our wine region.

Some of our best vintage have recently been awarded in various international competitions, among which I mention The Wine Hunter by Merano Wine Festival, Falstaff, Decanter World Wine Awards, Luca Maroni wine guide, I Vini di Veronelli and others that you can check out from the dedicated section and soon to be updated on our company website.

I hope you will soon have a chance to appreciate the quality of these gift bottles.

Best regards,
Moretti Family
