

Who we are

EU-GAINS is an EU4Health project coordinated by IARC, advancing gastric cancer prevention guidelines and monitoring cancer screening implementation across Europe.

What we are working on

We develop European *Helicobacter pylori* screen-and-treat guidance, prepare quality assurance, and assess breast, cervical, colorectal and lung screening implementation across EU/EEA countries.

What's the one thing we need next

We need experts for gastric cancer guidelines and sustained national data contributions to improve monitoring and quality of European cancer screening programmes.

**5 years Mission Cancer:
Stronger Through Connection**

BRUSSELS

29 SEPTEMBER – 01 OCTOBER
