

THERMO
TIGHTS and LEGGINGS
THERMO WEAR

Mona OK Group has been successfully operating since 1994, starting with the retail and wholesale of underwear. Now our assortment also includes clothes for the home, swimwear, tights, leggings, socks and home textiles and other products.

We offer our clients collections under our own trademarks and produce collections to order under the Customer's private label. We are distributors of some European companies, we provide logistics and delivery services to our customers. The mission of our company is to offer our customers the best product at the best price with the best sincere service.

We have extensive experience in the sale of tights, so we can call ourselves experts, because we know the preferences of our customers and are able to offer the highest quality product at the lowest price. All thanks to hard work and production control in pursuit of the best result.

TIGHTS:

- 60-300 den
- Thermo effect
- Cotton, lycra and microfiber

LEGGINGS for MEN & WOMEN:

- Seamless
- High waist
- Thermo effect

- Home Wear
- Thermo Shirt
- Knee-high socks

PRIVATE LABEL SERVICES

We have more than 16 years experience of manufacturing in Asia. We create our products, control production and quality. We are highly respected by our foreign partners in the field of procurement and sales. That's why we offer our clients and buyers services when placing orders under your Private label. Moreover, we can ship goods from Latvia / Riga to your company, as well as directly to your address from China. We have reliable partners in China and Hong Kong. Our agreements are thought out and protected.

If you have a desire to produce products under your Brand and place orders regularly, we will help you think through the collection, provide samples, create packaging based on our layout or according to your Private label style, check its compliance and track the production process and help with delivery.

Our services are already used by partners from the Baltic countries and some other countries from Europe Union and Eurasian Economic Union.

WINTER BLACK VELVET FURRY LEGGINGS

- **Versatile Style:** perfect for casual outfits or more formal occasions.
- **Warmth and Insulation:** Velvet is a thicker fabric, making these leggings ideal for cooler weather.
- **Flattering Fit:** Velvet leggings often have a body-hugging, stretchy fit that flatters the figure while providing full mobility.
- **Unique Appearance:** The rich texture of velvet creates a subtle sheen and a sophisticated, elegant look that sets these leggings apart from standard options.
- **Durability:** High-quality velvet leggings are durable and resistant to wear, ensuring they remain a staple in your wardrobe for a long time.

WINTER WOMEN'S FLEECE-LINED THERMAL SHIRT

THERMAL SHIRT

Women's fleece-lined thermal top is an essential piece of cold-weather clothing, offering both warmth and comfort.

Composition:
95%polyester,
5% elastane

Black
(other colors
possible)

Sizes:
S, M, L, XL; XXL;

NEW

- **Warmth and Insulation:** The fleece lining provides excellent thermal insulation, trapping body heat to keep you warm in cold conditions without feeling bulky.
- **Soft and Comfortable:** soft, plush texture, ensuring comfort against the skin. The material is gentle and cozy, making it perfect for extended wear.
- **Breathable:** Despite its warmth, fleece-lined tops are breathable, allowing moisture to escape and preventing you from feeling overheated or sweaty.
- **Lightweight:** can be worn as a base layer under clothing without adding unnecessary bulk.
- **Moisture-Wicking:** Many fleece-lined thermal tops are designed to wick moisture away from the body, keeping you dry and comfortable during physical activities or in fluctuating temperatures.
- **Stretchy and Flexible:** The material often offers some stretch, ensuring a snug yet flexible fit that allows for ease of movement.
- **Versatile:** These tops can be worn alone in mild conditions or layered under jackets and coats for extra warmth in colder weather.
- **Durable:** Fleece is a durable fabric, making the top long-lasting and resistant to wear, even after frequent use and washing.

TIGHTS AND LEGGINGS 200-300 DEN

Inside tights and leggings with fleece and have a thermal effect.

Tights have increased wear resistance, breathability and thermal insulation. Therefore, buyers appreciate and love this quality.

Due to the fleece on the inside, an air cushion is formed, which keeps the body temperature in comfort, both outdoors and indoors.

The height from the groin area to the waist of the seat is quite high. The waistband is flat and wide. This ensures wearing comfort. Tights have a uniform staining. No risk of pilling.

The assortment includes tights with cotton - inside is also fleece. These products will be appreciated by lovers of natural fibers and yarn.

Viscose tights are extremely soft and silky to the touch. By their properties they are identical to tights with cotton. These products can be produced in several variants of knitting designs. Viscose is the most perfect combination between science textile developments and softness.

SALES PERIODS:

We recommend hang to the stores from the beginning of September - at the very beginning of autumn to mid-spring.

TIGHTS 60-100 DEN

Tights with 3D effect perfectly fit the lower part of the body.

Thanks to this new technology, the effect of a "second skin" feeling is achieved.

The smooth pleasant surface and the form remains throughout all service life. Excellent extensibility makes it possible to feel comfortable, women even with high growth feel confident in these elastic products. An important feature is the composition of knitwear: 88% polyamide, 12% elastane. The high percentage of lycra (elastane) is an indicator of quality.

SALES PERIODS:

These tights have a longer sales season and are usually sold from late summer to spring (shopping from early August to March/April)
