

# Rehabilitation, cleaning and disinfection systems

We develop, manufacture, and install your custom cleaning and disinfection system, tailored to your specific needs.

Our knowledgeable and experienced service team is always here to assist you.

## Our advantages for your benefit:

- ✓ **Consistent quality standards** for all products in accordance with the latest European directives
- ✓ **Versatile and flexible** development and production of professional washing and disinfection systems by qualified experts
- ✓ The dimensions of the washing units can be individually customized
- ✓ **Cost reduction** through low water consumption and correspondingly reduced use of treatment chemicals

## The advantages of a Kluge & Fielitz washing system are:

- ✓ High cleaning and disinfection performance
- ✓ Environmentally friendly with improved safety standards for the operator
- ✓ Time savings in the reprocessing workflow
- ✓ Cost per medical device between 1–3 euros
- ✓ Continuous development and improvement of our products
- ✓ Validated fogging disinfection for mattresses and electronic components

# Basic types of rehabilitation, cleaning and disinfection systems by Kluge & Fielitz GmbH:

## Washing System Type KF 200

Wheelchairs, walkers, anti-decubitus mattress

## Washing System Type KF 300

Wheelchairs, walkers, AD mattress, bed frame – transport position
