

Who we are

Cancer Patients Europe represents 113 members across 33 countries, advocating equitable access to cancer prevention, diagnosis, treatment and innovation across Europe.

What we are working on

We bring patient, survivor and caregiver perspectives into EU cancer policy and research, focusing on access, health data, clinical trials, medicines and survivorship.

What's the one thing we need next

We need sustained, well-resourced patient involvement from priority-setting to implementation, ensuring EU cancer initiatives reflect real needs and deliver equitable care.

**5 years Mission Cancer:
Stronger Through Connection**
