

# THE BEST FOR YOUR BOAT, THE BEST FOR THE OCEAN

Our Ecoating solution  
is **sustainable, durable and  
cost-saving.**

## CLEAN OCEAN COATINGS

### GET TO KNOW OUR INNOVATIVE ECOATING SOLUTION

**Clean Ocean Coatings** developed an innovative hard coating with a uniquely smooth surface. Compared to conventional coatings, **Ecoating** not only **eliminates microplastics**, but also helps every owner and shipping company **save fuel costs.**

#### FUEL SAVING

A clean and smooth hull **reduces frictional resistance**, resulting in proven **fuel savings of 7 percent.**

#### LONG LIFESPAN

The durability is at least **two years longer** than conventional coatings, reducing the number of shipyard dockings.

#### EASY TO CLEAN

A **smooth and hard surface** is easier to clean and to maintain.

#### SUSTAINABLE

Environmentally friendly Ecoating. **Free of biocides, solvents and microplastic**; no release of toxins into the water

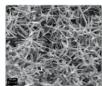

# THE BEST FOR YOUR BOAT, THE BEST FOR THE OCEAN

Our **Ecoating** solution  
is **sustainable, durable and  
cost-saving.**

## CLEAN OCEAN COATINGS

### ECOATING - AN INNOVATIVE TECHNOLOGY

**Ecoating** is a combination of a nanostructured patented particle and a polymer matrix, so called **Polyramik®**. By combining the advantages of ceramics and polymers, our coating is hard and flexible at the same time.
