EGYPT → EUROPE · SEA-FREIGHT CORRIDOR

02 THE PLATFORM · PARTNERING FOR TOMORROW

THE VITALGLOVE CONTINENTAL PLATFORM

SCZone, Egypt

To secure long-term European medical-supply resilience, we are developing a continental-scale medical manufacturing ecosystem — from raw material at source to finished, certified product.

01

100

Double-Former Production Lines

Under development in Egypt's Suez Canal Economic Zone.

02

75,000_{ha}

Natural-Rubber Farms, at Source

Secured across West Africa under AfCFTA — upstream supply integration.

03

+

Sterile Surgical Gloves

Product-line expansion into surgical gloves and large-scale capacity.

PARTNER WITH THE PLATFORM

Long-term offtake & capacity reservation

Long-Term Offtake Agreements

Multi-year supply frameworks for institutional healthcare buyers, distributors and GPOs.

Production-Line Capacity Reservation

Early partners reserve dedicated capacity — priority allocation, locked terms and OEM / private-label flexibility.

— Early reservation secures priority access as capacity comes online.

◆ **Africa's rubber, Egypt's manufacturing, Europe's supply security.** ◆
