# International collaboration: Brazil-EU

Fundação Getulio Vargas (FGV) is a private, non-profit research and teaching institution focused on applied social sciences and humanities. Its mission is to foster Brazil's sustainable economic development, grounded in social inclusion and environmental sustainability.

- **Global Evidence:** Horizon values datasets and case studies from non-EU countries like Brazil to enrich policy recommendations.
- **International Cooperation:** Some calls explicitly encourage collaboration with non-EU partners.
- **National Co-Funding:** Projects can align Horizon support with national funding sources.
- **Brazilian Expertise:** Strong track record in evidence-based public policy design and evaluation.
