

What **funding options** are available to me? ✨

Type your tax number

Enter your company's tax number and our system will automatically load the necessary public company data, such as company size, main activity (TEÁOR), year of establishment, turnover, and registered office. Based on this, we can determine which domestic or EU funding opportunities apply to you.

You will then receive personalized recommendations highlighting the grants you are currently eligible for or that best match your business profile. You can search the results by type of grant or target area, or if you prefer, just view the options labeled "most relevant to you."

Our goal is to save you time and energy: you don't have to browse through complicated documents, we show you what you can apply for in a transparent format. The system is constantly updated, so it's worth

AI Business profile-based support finder

The Challenge

- ✗ SMEs struggle to navigate fragmented and multilingual funding opportunities.
- ✗ Eligibility criteria are complex, legalistic, and often inaccessible without expert knowledge.
- ✗ Information is dispersed across multiple national & EU platforms → leading to missed opportunities.

Our Solution

- **AI-powered Support Finder:** a GenAI-enhanced tool that interprets funding rules and matches them to company profiles.
- **Automatic company profiling via tax number** → retrieves official registry data (size, activity, turnover, region).
- **Personalized recommendations:** grants and funding schemes aligned with the company's life cycle, activity, and region.
- **Multilingual interpretation:** complex EU & national rules explained in plain language.
- **Proactive alerts:** SMEs notified when new relevant opportunities emerge.

Don't miss this new funding opportunity!

A funding opportunity matching your company profile has become available.

Key Features & Impact

✨ Core Functionalities

- Tax number input → automated data retrieval & company profile generation.
- Real-time, personalized suggestions via a user-friendly interface
- Evaluation of eligibility and exclusion with a “law-as-code” engine
- Transparent, source-linked explanations (RAG) ensuring traceability to regulations
- Scalable across EU Member States – adaptable to local rules, registries, and languages.

Expected Impact

- Save SMEs time and resources by simplifying access to funding.
- Increase SME participation in EU and national funding schemes.
- Strengthen innovation ecosystems by improving SME competitiveness.
- Contribute to digital public services transformation across Europe.

The screenshot displays the DKF digital funding search interface. At the top, there are search filters for 'Digitization' and 'CRM software', and a location filter for 'Budapest, Pest County'. The left sidebar contains three main filter sections: 'Form of support', 'Supported activities', and 'Amount of support'. The 'Form of support' section includes checkboxes for 'Loan' (159), 'Tender, non-refundable' (38), 'Tender, refundable' (50), 'Combined support' (76), and 'Investment program' (15). The 'Supported activities' section includes checkboxes for 'Purchase of assets' (38), 'Marketing, advertising' (50), 'RDI, Innovation' (45), 'Real estate financing' (30), 'Employment' (20), and 'Operating costs' (15). The 'Amount of support' section features a slider from 'Min 10 €' to 'Max 5000 €'. A 'Search' button and a 'Delete conditions' button are at the bottom of the sidebar. The main content area shows '128 results Support found'. Two results are visible: 'DIMOP Plus 1.2.1-23 Businesses in the digital...' and 'GINOP Plus 2.1.1-24 Focus area innovation ...'. Both results are categorized as 'Digitization' and 'Non-refundable'. The first result has a deadline of 'August 1, 2027' and the second has a deadline of 'July 17, 2027'.

Form of support

- ☐ Loan 159
- ☒ Tender, non-refundable 38
- ☒ Tender, refundable 50
