

Business Presentation

JULY 2025

Company details

AENAOS Energy Systems, a company exclusively engaged in Renewable Energy Systems since 1998, is equipped with all the modern machinery and the necessary expertise.

With a vision of maximizing the use of Renewable Energy Sources for the benefit of both people and nature, the company offers comprehensive solutions in the engineering, procurement, construction, and maintenance of energy systems.

AENAOS Energy Systems operates five physical stores in Athens, Thessaloniki, and Heraklion, Crete, as well as two online stores, and has developed a network of partners capable of responding to any region or challenge.

Business Units

- Distributed Generation (Net – Billing/Virtual Net-Billing, Zero Feed-in) .
- Utility Solar Systems(Small and Medium Scale).
- Energy Efficiency (Heat Pumps, Solar Boilers, Energy Upgrade).
- Operation and Maintenance (Solar, Wind and Hydroelectric plants).
- Electric Chargers & Solar Carports
- Off-grid Systems.
- Wholesale of renewable energy equipment.

Distributed Generation (Net - Billing (Virtual) & Zero Feed-In)

- With detailed planning and a focus on optimal performance, AENAOS Energy Systems undertakes the construction of any photovoltaic system, regardless of complexity or limitations.
- Customer satisfaction and partner trust have established AENAOS Energy Systems as one of the leading companies in the field of photovoltaic systems across Greece, holding more than 15% of all grid-connected projects over the past four years.

EV Chargers & Solar Carports

- With the rapid growth of electric vehicles in the market, actions to support the increasing power demand have become essential. Innovation and the combination of technologies led to the creation of Solar Carports, consisting of electric vehicle chargers and canopies made from photovoltaic panels.
- This is an ideal investment for large businesses and hotels, aiming to reduce their energy bills while simultaneously developing infrastructure to support electromobility.

Our Projects

ΑΕΝΑΟΣ
ΕΝΕΡΓΕΙΑΚΑ ΣΥΣΤΗΜΑΤΑ

KOLIOS S.A. 3 MW

- 6666 TRINA 450W
- 30 Inverter HUAWEI SUN2000 – 100KTL

KOLIÓS®
THE GREEK DAIRY
