

Eduscopi

Science Communication Agency

2024

Meet Eduscopi

What do we do?

Eduscopi is a scientific communication agency that creates and participates in various projects of communication, dissemination, training and scientific education.

Project topics:

What do we offer?

We are a team of professionals in scientific communication who apply **creativity** as the fundamental axis of our work and who offer customized services based on the needs of each project.

Services:

Consulting

Our training and experience, enable us to assist you in finding the best solutions to your needs in education, communication, or scientific outreach.

Project management

Do you need support in implementing projects in education, communication, or scientific outreach? Discover how we can assist you.

Production

We produce innovative, engaging, and scientifically rigorous educational and outreach resources.

Training

We are experts in providing training and workshops in scientific communication and education.

Who are we?

We are professionals from **biology, chemistry, physics, and journalism** backgrounds, passionate about outreach, research and creating scientific content.

That's why we created **Eduscopi**.
