

# DEXpertise

## Who We Are

DEX Innovation Centre (DEX IC) is a private innovation hub based in Liberec, Czech Republic, operating since 2012. We drive innovation and entrepreneurship in health, energy, mobility, the circular economy, and education. We support startups, SMEs, researchers and policymakers in turning ideas into validated, market-ready solutions.

## Our Impact

20+

Co-created innovations

50+

Delivered innovative products

300+

Supported startups

80+

## Our Mission

With a strong multidisciplinary team and a network of 80+ mentors across the CEE region, we bridge research, business, and the public sector. We guide projects from early ideas through validation to market readiness and implementation.

# DEXpertise

## What Do We Do Best?

1

Designing impactful innovation processes and narratives.

2

Tailored startup acceleration across all TRL levels.

3

Capacity building and digital skills for diverse audiences.

4

Facilitating co-creation with hospitals, SMEs, and public actors.

5

Mapping ecosystems and developing scale-up strategies.

6

Go-to-market planning and stakeholder engagement.

We turn ideas into measurable impact. [Let's collaborate.](#)
