# CWORT

*AI-assisted compliance and operational resilience*

## OVERVIEW

CWORT is an AI-assisted compliance and operational resilience platform for consulting firms and regulated businesses working with frameworks such as DORA and NIS2.

> **BRING YOUR OWN FRAMEWORKS**
>
> Bring your own frameworks, methodologies and knowledge bases so assessments, evidence workflows and reports reflect your operating model.

## CORE CAPABILITIES

- Structure and run assessments.
- Organise supporting evidence and identify gaps.
- Apply organisation-specific methodologies and knowledge.
- Support consistent delivery across engagements.
- Produce traceable, board-ready reports for practitioner review.

## PILOT OPPORTUNITY

We are seeking design partners for a scoped pilot on a real engagement. Together, we would agree the use case, responsibilities and success measures covering assessment time, evidence completeness and report traceability.

## CURRENT STAGE

In development; seeking design partners for scoped pilots.
