Our Solution

Empowering Informed Choices

SustainaLens, our consumer-facing mobile app, empowers shoppers with instant access to comprehensive product sustainability data. By simply scanning a barcode, users can view detailed environmental, social, and governance (ESG) scores, allowing them to make informed purchasing decisions that align with their values. In turn, the insights gathered through these decisions help companies optimize their Sustainability projects and spends.

Universal Sustainability for the Next Generation

Go-to-Market Strategy

Consumer engagement drives Enterprise SaaS adoption

Planned Features to Drive Adoption

- **Product Recommendations**
Help users discover more sustainable options.
- **Personalized Suggestions**
Tailored advice based on preferences and behavior.

- **Collaborating with Manufacturers**
Work together to **improve sustainability scores** and drive continuous impact.
