Radici Rosse

Our name is dedicated to the land of Sicily, a wonderful island rich in nature and delicious fruits, like the ones we use in our products.

Discover the Sicilian tradition, the special jams made as in the past, the genuineness of honey and the goodness of the typical sweets of the holidays. We carefully choose only the best fruit, strictly seasonal, respecting natural cycles and things done well, with love.

One ingredient: nature!

Ours is an ethical choice, of health and well-being, a green idea that brings all the goodness and quality of fruit to the table.

Our philosophy of eating well and healthy leaves everything to nature, which is why our products are without GMOs, without dyes, without pectin, without flavorings and without preservatives.
