

Maxmodal

INTELLIGENT MULTIMODAL FREIGHT SERVICE MANAGEMENT

Create thousands of multimodal services in seconds

THE PROBLEM

Every shipper, carrier, forwarder,
and terminal

- uses its own systems,
- formats
- and exchanges rate files

Weeks of manual work
to build each multimodal service...

2M
companies
250B
freight rates

\$1T+
market
25M
routes

...become billions
in hidden costs for the industry

OUR SOLUTION

- Inconsistent files → Data
- Many formats → Standart
- Manually exchange → Connected

Combine rates like LEGO
into complete multimodal
services in minutes and
sell immediately

HOW IT WORKS TODAY

1
POST

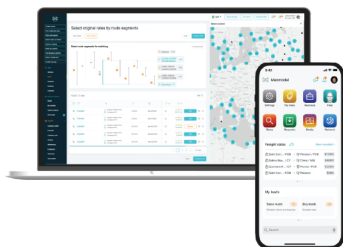

Providers post rates
in their profiles

2
CONNECT

Users connect
rates from different
profiles like LEGO
blocks

3
SELL

Marketplace
for searching
and selling rates

4
AUTOMATE

Once rate is changed
all related services are
updated in real time
automatically

AI-DRIVEN INTELLIGENT AUTOMATION

Next-Generation Product Prototype

Hi Max,
From China
to Great Britain

AI agents capable of
creating and
dynamically
optimising thousands
of multimodal
services in seconds

watch our showreel

TRACTION

Onboarded providers
& shippers across the Silk Road

Launched the world's first
multimodal Silk Road index

Developed an AI-driven
product prototype

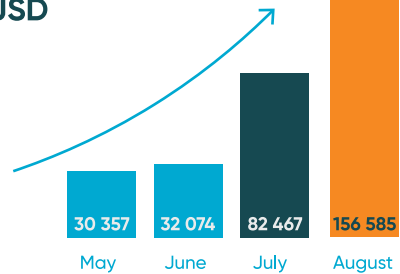

Granted JP patent JP7645796B2,
pending in CN, KR, EU, UK

Filed a new patent in Hong Kong
MK260606051P.HK

GROSS REVENUE FROM BOOKINGS, USD

OUR ROADMAP

1

1-6 months

BRIDGE ROUND

Scale the business
& prepare the AI
infrastructure

2

7-24 months

MAIN ROUND

Intelligent
multimodal service
management

3

INTELLIGENT LOGISTICS MANAGEMENT

Real-time empty runs
optimisation

4*

INTELLIGENT MULTIMODAL OPERATING SYSTEM

Digital and transport
operations
optimisation

*** Step 4: Driving the biggest impact in logistics since containerization**

2.7x

Cost reduction since 1966
due to containerization

2.8x

Extra cost reduction potential
due to digitalisation & AI

TEAM

10+ PROFESSIONALS WITH DEEP EXPERTISE IN:

- Industry
- Marketing
- Technology
- Entrepreneurship
