S CONSULTING

IT outsourcing and consulting since 2000

AI/ML & Cybersecurity

Advanced AI/ML Solutions Combined with Enterprise Cybersecurity Expertise

S-Consulting is a technology provider with 25 years in enterprise IT, Telecom, AI/ML engineering, data analytics, secure software development, and cybersecurity.
We deliver AI-driven platforms, video analytics, predictive models, and security solutions for finance, government, manufacturing, and healthcare.

Capabilities:

- Predictive modelling and risk scoring

- NLP/NLU, document processing, conversational AI

- Computer Vision (object detection, anomaly detection, behavioral analytics)

- Multi-modal analytics (video + IoT + telemetry)

- Real-time and large-scale data processing
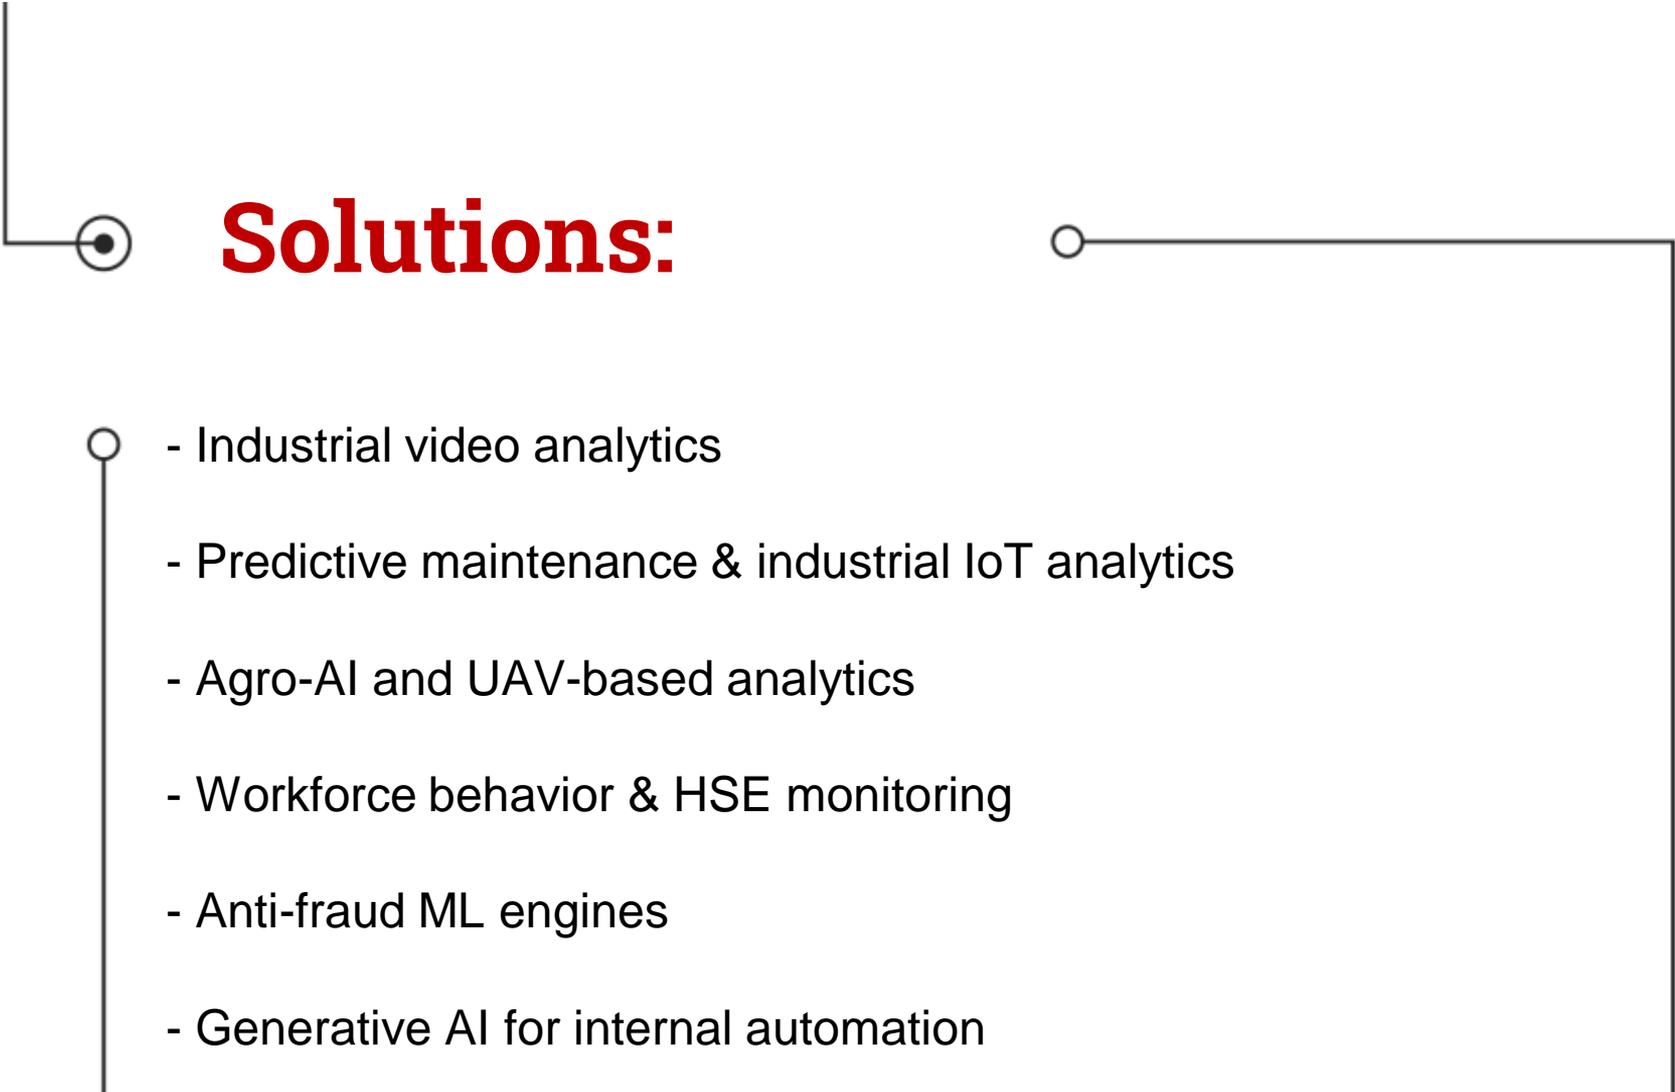

Solutions:

- Industrial video analytics

- Predictive maintenance & industrial IoT analytics

- Agro-AI and UAV-based analytics

- Workforce behavior & HSE monitoring

- Anti-fraud ML engines

- Generative AI for internal automation

Cybersecurity Expertise

👉 Service areas

👉 Project background

S CONSULTING
IT outsourcing and consulting since 2000

- Cybersecurity audits, maturity assessment, threat modeling
- SOC and 24/7 security monitoring
- DevSecOps implementation (secure SDLC, SAST/DAST, CI/CD security)
- Application & API security
- Identity & Access Management
- SIEM/SOAR deployment and tuning
- Incident response and digital forensics

Project background:

- Secure banking systems and AML/KYC platforms

- Government-grade secure data exchange portals

- Pharma and manufacturing enterprise portals

- Microsoft Security / Oracle Security deployments

S CONSULTING
IT outsourcing and consulting since 2000

AI + Cybersecurity Integration

S CONSULTING
IT outsourcing and consulting since 2000

- AI-driven anomaly detection (user, network, application logs)

- Predictive security scoring and risk modeling

- Automated compliance workflows

- Physical security via video analytics

- AI-enhanced SOC operations and event analysis

S CONSULTING
IT outsourcing and consulting since 2000

AI/ML & Data Analytics:
Python, PyTorch, TensorFlow, OpenCV, YOLOv8/v10, MMDetection, FastAPI, NVIDIA CUDA/Jetson, Apache Kafka, Spark, Airflow, MLflow.

Computer Vision & Edge-AI:
NVIDIA Jetson, OpenVINO, MediaPipe, RTSP/RTMP pipelines, Edge TPU (Coral), Redis Streams.

Cybersecurity & DevSecOps:
SIEM/SOAR (ELK, Splunk-compatible), SAST/DAST (GitLab, SonarQube), Vault, Keycloak, LDAP/AD, OSQuery, Zeek, WAF/API Security, OpenAPI/Swagger

S CONSULTING
IT outsourcing and consulting since 2000

- 25+ years in enterprise IT and cybersecurity

- Track record across fintech, govtech, medtech, manufacturing

- Distributed engineering teams (RU, Serbia, CIS, LATAM, Vietnam)

- Fast project kickoff (POC in 2–4 weeks)

- Readiness for localization and delivery in Southeast Asia

S CONSULTING
IT outsourcing and consulting since 2000

AI/ML Platforms & Intelligent Automation
- Custom ML solutions for finance, industry, logistics, agriculture
- Predictive analytics, anomaly detection, risk scoring
- Large-scale data processing and real-time monitoring
- Generative AI for internal process automation

Cybersecurity & DevSecOps Services
- SOC-as-a-Service and 24/7 event monitoring
- Secure SDLC, SAST/DAST, CI/CD hardening
- Identity and Access Management
- SIEM/SOAR deployment, incident response, digital forensics
