Profile

Type of organization	Non-profit
Is the partner organization a public body?	No
Is the partner organization a non-profit?	Non-profit

Background and Experience

Please briefly present your organization

Youth on Board is a non-profit organisation based in North Macedonia with extensive experience in EU-funded programmes and over 60 successfully implemented international projects.

We specialise in digital skills development, digital entrepreneurship, innovation-driven youth capacity building and non-formal digital education methodologies. Our work focuses on strengthening advanced digital competencies, AI literacy, digital inclusion and youth engagement in digital transformation processes.

The organisation works annually with approximately 300 young people and cooperates closely with municipalities, schools, universities and civil society stakeholders, enabling strong pilot implementation capacity and regional outreach in the Western Balkans.

Our team consists of experienced project coordinators, trainers, youth workers and academic experts with proven expertise in project management, digital training delivery, stakeholder engagement, dissemination and impact-oriented programme implementation at European level.

Within the Digital Europe Programme, Youth on Board positions itself as a reliable implementation partner contributing to advanced digital skills initiatives, testing environments, training delivery, outreach activities and ecosystem-building actions.

Activities and experience of the organisation in the areas relevant to this application?

Youth on Board has extensive experience in the design and implementation of EU-funded projects focused on digital skills development, digital transformation, youth innovation and capacity building.

Our relevant activities include:

Advanced Digital Skills & Digital Education

- Development and delivery of digital entrepreneurship programmes for young people
- Training initiatives in digital advocacy, digital transformation and media literacy
- Non-formal education methodologies for strengthening digital competences
- Support for youth in developing innovation-oriented and tech-based initiatives
-

AI & Emerging Technologies Awareness

- Implementation of digital innovation activities introducing AI literacy concepts to young audiences
- Facilitation of workshops and training sessions supporting digital transition and technology adoption
- Engagement of academic experts in digital and IT-related educational activities
-

Capacity Building & Ecosystem Development

- Cross-sector cooperation with municipalities, universities, schools and civil society organisations
- Structured dialogue mechanisms linking youth and decision-makers
- Regional networking across EU Member States and Western Balkans partners
- Pilot project implementation and stakeholder engagement at local and transnational level
-

Project Management & Implementation Capacity

- Coordination and participation in 60+ international projects under Erasmus+ and related EU programmes
- Proven capacity in consortium cooperation, training delivery, dissemination, impact measurement and sustainability planning
- Experience in working with diverse target groups, including youth with fewer opportunities

Through this experience, Youth on Board brings strong implementation capacity, outreach potential in the Western Balkans region, and practical expertise in delivering scalable training, pilot activities and ecosystem-building components within European digital initiatives.

What are the skills and what is the expertise of key staff/persons involved in this application?

Meet us:<https://youthonboard.com.mk/meet-us/>

Youth on Board is supported by a multidisciplinary team combining expertise in project management, digital education, youth policy, innovation and international cooperation.

Project Leadership & Strategic Management

The organisation is led by experienced senior professionals with strong backgrounds in EU project coordination, public administration cooperation and financial management. The leadership team has extensive experience in proposal development, consortium participation, implementation monitoring and compliance with EU programme requirements.

Digital Skills & Training Delivery Expertise

Key staff members hold academic backgrounds in Computer Science, Economics and Social Sciences, and are actively involved in the design and delivery of digital skills training programmes. The team has proven experience in:

- Development of non-formal digital education curricula
- Digital entrepreneurship training
- AI literacy awareness activities
- Digital advocacy and media literacy programmes
- Capacity building for youth workers and educators

Innovation & Cross-Sector Cooperation

The team has strong experience in facilitating cooperation between municipalities, universities, schools and civil society stakeholders. This enables effective pilot implementation, testing activities and ecosystem-building components within digital projects.

Implementation & Operational Capacity

Youth on Board's staff includes project coordinators, trainers, youth workers and academic experts with proven competencies in:

- Consortium collaboration
- Stakeholder engagement and outreach

- Dissemination and communication strategies
- Monitoring, evaluation and impact measurement
- Inclusion methodologies for young people with fewer opportunities

Through this combined expertise, the organisation ensures reliable implementation capacity, structured project management, and high-quality delivery of training, pilot and outreach components within Digital Europe Programme initiatives.
