

# SecuraNova

Secure Faster.  
With Elite Assurance.

## The Problem We Solve

- **Slow, Inflexible Service Delivery** - Traditional providers take weeks or months to mobilise, **delaying critical validation and remediation**.
- **Shortage of Trusted Experts** - Highly skilled offensive security professionals are scarce, making it **hard to access consistent, high-calibre expertise** when needed.
- **Rigid, Vendor-Locked Models** - Fixed contracts and packaged offerings **rarely adapt to changing risk profiles** or evolving business priorities.
- **Inconsistent Quality & Oversight** - Crowdsourced or volume-based models **lack assurance, depth**, and the human context behind results.
- **Limited Agility & Continuity** - Security needs shift rapidly, yet **most providers can't scale, pivot**, or integrate testing seamlessly into agile development cycles.

## Company Overview

SecuraNova combines **world-class cybersecurity Consultants**, an **AI-powered Service Delivery Platform**, and a dedicated **Client Success Team** to provide fast, flexible, and outcome-driven security solutions.

Our services are delivered by a **global community of elite** cybersecurity professionals - **handpicked**, rigorously vetted, and **trusted** for their ability to advise, not just analyse. This is **curated expertise**, not crowdsourced labour.

Every engagement is **relationship-driven**, with a real human at the core - someone who **understands your objectives**, speaks your technical and business language, and delivers support across your entire enterprise architecture.

These are **concierge-level services** with a white-glove, human touch - consistent, personal, and **built around you**. **Trusted experts, personally matched and globally placed**.

## Our Solution: Cybersecurity On demand. Expert-Led. Platform-Powered.

- **Speed** - On-demand cybersecurity services delivered in days, not weeks.
- **Flexible, Highly Tailored** - Customised services built around your goals, not templates.
- **Quality & Choice** - Get the right consultant for your needs, with industry leading quality.
- **Operational Efficiency** - Lean, remote-first model with zero unnecessary overheads.
- **Comprehensive Coverage** - A single, trusted partner for all human-led offensive security testing and assurance needs.
- **Agile & Continuous** - Designed to scale and adapt with your business, supporting iterative development and evolving security priorities.

# SecuraNova

Secure Faster.  
With Elite Assurance.

## Key Services

- ◆ **Penetration Testing & Adversarial Emulation** - Expert-led testing across web, cloud, network, application, and hybrid environments. Includes red teaming, purple teaming social engineering etc to validate real-world resilience.
- ◆ **Security Validation & Assurance** - Independent verification of your controls, configurations, and architectures. Services include vulnerability assessments, Zero Trust validation, third-party assurance, and due diligence reviews.
- ◆ **Advisory & Remediation** - Expert guidance to translate findings into action. From secure architecture and technology advisory to remediation support and validation, we help strengthen your security posture effectively.
- ◆ **Specialised & Emerging Assessments** - In-depth testing for AI/ML, blockchain, IoT, OT/SCADA, and containerised environments, ensuring security across evolving technologies and complex digital ecosystems.

## Why Choose SecuraNova?

### Traditional Models

- ✗ Expensive hourly rates
- ✗ Weeks/months to schedule tests
- ✗ Vendor lock-in & rigid contracts
- ✗ Uncertain test coverage
- ✗ Crowdsourced unpredictability
- ✗ Complex multi-vendor management

### SecuraNova

- ✓ Predictable, outcome-based pricing
- ✓ On-demand access to experts
- ✓ Flexible, no long-term commitments
- ✓ Guaranteed quality & coverage
- ✓ Vetted cybersecurity professionals
- ✓ Single-contract procurement model
