Ukraine Cargo War Risk Insurance Facility

Backed by Lloyd's of London

About the Facility

This facility provides seamless war-risk protection for cargo transported by **sea, land, or mixed routes** into, across, or out of Ukraine. It combines ocean cargo coverage and/or inland war-on-land insurance. Managed through FortuneGuard's international risk platform, the facility is backed by A+ Lloyd's syndicates and serviced by regulated London market intermediaries.

The structure offers:

- **\$50M international cargo limit** per shipment — higher limits available
- **\$10M inland Ukraine war risk limit** — expandable if needed

Coverage includes:

- Civilian commercial cargo
- Dual-use goods (subject to export license)
- Military cargo where required and eligible
- Covers perils often excluded from traditional policies — including damage or disruption caused by missiles, drones, and acts of war.

Policies are underwritten on behalf of Lloyd's syndicates. All client onboarding, filtering, compliance, and local interface is handled by FortuneGuard, with placement conducted through licensed Lloyd's market brokers.

About FortuneGuard

FortuneGuard has served as the program architect and distribution partner for the Ukraine War Insurance Facility, which was recognised as **Broking Innovation of the Year** by Insurance Insider in 2025. In 2025 alone, FortuneGuard facilitated over **\$2.5 billion in commercial property and investment risks** being quoted in the London market, and helped secure coverage for a broad range of assets across multiple sectors throughout 2025 and 2026.

Indicative quotes are typically issued within 24 hours, with binding possible within 3 business days.
