Wise logistics from Weiz Logistics

1 Transparency

Transparent logistics according to your needs and freight transportation regulations in different countries

2 Attention to the details

We control every stage of transportation and treat your cargo responsibly

3 European expertise and experience

We optimize your business processes according to the best European experience and the requirements of leading manufacturers

Managing your logistics for you

Weiz Logistics is the only contact you need to control your shipment. Save time while our team plans and executes all stages of delivery for you.

Our company is an experienced partner who knows which solution is most effective for your supply chain.

Why Weiz Logistics?

Professionalism and experience allow us to quickly and effectively respond to changes

Logistics are often unpredictable, especially in times of crisis. To avoid additional costs and wasted time during transportation, let professionals handle the deliveries. We know how to approach logistics wisely, and we'll help you do the same.

You will know about the delivery status at any moment of the transportation

Our first priority is the efficient delivery of your cargo. Therefore, we control the transportation and communicate with all its participants, and you have the opportunity to keep your finger on the pulse, constantly receiving reports and photos. Without our verification of the necessary documents, packaging, loading, cargo condition, and other criteria, as well as without your confirmation, the car will not move.

Responsible towards your time, property and money

We build efficient logistics for our clients, thus save them time and resources. In addition, for us, the client is a partner, and Weiz Logistics' partners are always sure that their cargo will arrive safely and without unnecessary costs.

Your cargo is in safe hands

Reliable carriers and a wide network of contacts in logistics allow us to guarantee a transparent and flexible delivery process. We focus on the leading European experience and our own long-term practice, so the transportation is easy and comfortable for you.

**Why
Weiz
Logistics?**

150+ reliable transport partners that meet the requirements of the largest European manufacturers from various industries and allow you to expand the transportation area with Weiz Logistics

We are increasing the fleet of our own transport: by the end of 2022 we plan on having 10 trucks, and by the end of 2023 - up to 30 trucks and tanks

Head office is located in Dnipro. Opening of a branch in Warsaw, Poland soon
