

OHOSPITAL
HEALTH SOLUTIONS

PROBLEM

75% of Kenya's population is less 35 years

1:10000 Specialist to Patient

80% Of outpatients can be done virtually,
Slow telehealth penetration

24.5% Adolescents

10% Insurance penetration

THE MARKET

In Kenya, 75% of Kenya's population is between 0-35%. We focus on providers (doctors, pharmacies and chemists), patients with cancer, diabetes, lifestyle diseases, mental health, general consult, HIV/AIDs, women's reproductive health, and men's health.

Stigma and Discrimination is increasing everyday and the cost of specialists is high.
