

WELLE Technology Co. Ltd.

Quality is our Promise

- ✓ WELLE focuses on manufacturing and supplying quality various sorts Fastener parts to satisfy OEM customers' high-quality requirement in the industry area worldwide.
- ✓ With our experiences of manufacturing, industrial support and service, and international trade since almost 25 years, we look forward to bringing good products and service to you, and having long-terms cooperation with you.

Available Materials:

- **Stainless Steel** products: ss304, ss316, ss2205, best selling products with high standard
- **Carbon Steel** products: reliable surface treatment details
- Non-Metal Material
- Other Materials according to customers' requirement

Our Products

Fastener parts

- ◆ Threaded Rod & U-Bolt (from M6-M36)
- ◆ Screw & Bolt
- ◆ Nut
- ◆ Washer
- ◆ Circlip
- ◆ Anchor
- ◆ Pop/Blind Rivet and riveting tools
- ◆ Others, egg. Stamping parts, Sheet metal stretch, Pipe forming

- ✓ We work customer-oriented.
- ✓ We are communicative.
- ✓ Our products are cost-effective.

Threaded rod U-Bolt

Threaded rods and U-Bolt in different standards, materials and surface treatment:

- ◆ Size: from M6- M36
- ◆ **Stainless steel** threaded rods: ss304 / ss316 / ss2205, etc.
- ◆ Carbon steel threaded rods
- ◆ International Standard product according to ISO/ DIN/ GB/ JIS/ ANSI-ASME/ BSW
 - Surface treatment: plain, zinc plated, hot dip galvanizing, electr. galvanized, blackening, etc.
- ◆ Non-Standard products according to customers' requirements also available:
 - Manufacture and provide stirrup bolts, square U-bolts and anchor bolts
 - Other customized product types

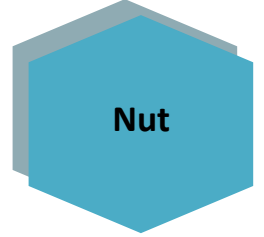

Screw & Bolt

We manufacture and provide screws and bolts in different size, materials and surface treatment methods:

- ◆ Stainless steel and carbon steel products
- ◆ Standard screws and bolts:
 - Bolts: DIN 933/931/912, GB6170, ISO4032, JIS1181, etc.
 - Screws: DIN916/965/84/85/7982/7985/7981, etc.
- ◆ Non-Standard: according to customers' requirement, e.g. non-standard stainless steel profiled part, stainless steel SUS410 screws
- ◆ Different types available: hex bolts, socket bolts, countersunk head series, color painted roofing screw series, hexagon flange head series, hexagon washer head series, countersunk head with wing series, pan head series, dacromet series, truss head series, wafer head series, bugle head series, drywall screw series, pan framing head series etc.
- ◆ Surface treatment: zinc plated, yellow zinc plated, hot dip galvanized, blackened, etc.

Production including different types of hexagonal nuts, cap nuts, welding nuts, square nuts, nylon nuts, flange nuts, wing nuts, K-nuts etc.

- ◆ Materials: stainless steel, carbon steel, etc.
- ◆ Standard products: DIN934/6170/439/1587/929/557/985/6923, GB6170, JISB1181, UNI5587, etc.
- ◆ Non-Standard products: according to customers' requirement, e.g. different types of non-standard stainless steel profiled parts
- ◆ Surface treatment: Zinc plated, yellow zinc plated, hot dip galvanizing, blackening, etc.

Provide different types of flat washers, square washers, internal/external teeth lock washers, spring lock washers, wave spring washers, internal/external teeth serrated lock washers, washers with split etc.

- ◆ Stainless Steel and Carbon Steel products, more materials available
- ◆ Standard products: e.g. DIN125/ 9021/ 440/ 434/ 6797/ 6798/ 125/ 127/ 9021/ 7989/ 444/ 799, GB955/93-87/956/861/862/9/93-87/896, etc.
- ◆ Non-Standard products: according to customers' specific requirement, e.g. non-standard tab washer for slotted round nuts, wave spring washers, non-standard washers with split, etc.
- ◆ Surface treatment: Zinc plated, yellow zinc plated, hot dip galvanizing, blackening, etc.

Circlip

Provide different types circlips for screw connections, shaft circlips, bore lock circlips etc.

- ◆ Standard products: e.g. DIN472/471/983, etc.
- ◆ Non-Standard products: according to customers' requirement,
- ◆ Material: stainless steel, carbon steel, etc.
- ◆ Surface treatment: Zinc plated, yellow zinc plated, hot dip galvanizing, blackening, etc.

Pop/Blind Rivet

Production with advance equipment and technology. Variety rivet and rivet nuts products follow international standards GB/ IFI/ DIN/ ISO. High level quality control and testing for high quality products and service. Wide products scope of supply:

- ◆ Standard blind rivets
 - ◆ Grooved/ Multigrip/ Peel/ Sealed blind rivets
 - ◆ GO-INOX / GO-BULB
 - ◆ blind rivets
 - ◆ Triple claw blind rivets (light weight construction)
 - ◆ High-strength blind rivets domed Head
 - ◆ Rivet nuts (Inserts)
 - ◆ Solid rivet, tubular rivet
- ✓ Material: carbon steel, stainless steel, aluminum etc.
 - ✓ Surface treatment: standard or according to customers' requirement, e.g. paint colored according to RAL, steel zinc plated, surface with protection layer, etc.

Anchor

Provide different types sleeve anchor, wedge anchor, stud anchor, hollow wall anchor, heavy duty shield anchor, tie wire anchor, metal hit anchor, bolt anchor, metal frame anchor, key anchor, saw anchor, express nail anchor, ceiling anchor, nylon anchor, steel plug, cut anchor hammer drive anchor, double/single expansion anchor, machine screw anchor and corresponding accessories etc.

- ◆ Standard products according to DIN/GB/ISO
- ◆ Non-Standard: according to customers' requirement
- ◆ Material: carbon steel, stainless steel, different kind of industrial plastics, etc.
- ◆ Surface treatment: Zinc plated, yellow zinc plated, hot dip galvanizing, blackening, etc.

Others

Provide different types products e.g. stamping parts, sheet metal stretch parts and pipe forming parts for various using area, egg. automobile industry, heavy industry. Communication about technical information and customer request in details:

- ◆ Product stamping parts according to customers' requirement,
- ◆ Different type materials available
- ◆ Technical communication about requirement details
- ◆ Professional project and manufacturing process
- ◆ Precise equipment for production and testing
- ◆ Rigorous quality inspection for samples and mass production

Our Advantages

- 100% quality assurance: High-quality resource and supply
- Cost-effective products
- Experienced technical Know-How to support our customers in details
- Long-terms experiences on customized engineering and manufacturing: help you to find better solutions
- Precise delivery time control
- Efficient communication with considering of every details
- Quickly response
- Enhances end-customer satisfaction
