

No need for a host cart, multiple clinical application solutions

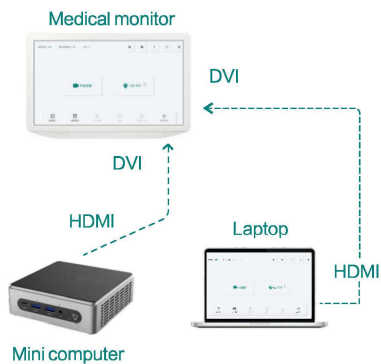

First type

Connects to Android and Windows system tablets and mobile phones, easy to move and operate

Second type

Connects to Windows computers without requiring a host cart

Third type

Compatible with tablets, mobile phones, and medical monitors, supports PIP/POP display

DEKRA RoHS NMPA CE 0344

Leinzett®

Flexible video Choledochoscope, Single-use

Scope: Used for observation, diagnosis, and treatment in endoscopic surgery of the pancreaticobiliary system

World's first scale marking, fast intraoperative distance measurement, and accurate position depth identification

→ Product Features

- 7.5Fr ultra-thin outer diameter, 1.2mm working channel
- 10.5Fr extra-thin outer diameter, 2.0mm large working channel
- Real-time scale marking, fast intraoperative distance measurement and positioning
- No host required, highly integrated micro image processor
- Self-powered, mobile and portable, simple connection operation
- Compatible with tablets, mobile phones, and medical monitors, supports PIP/POP display

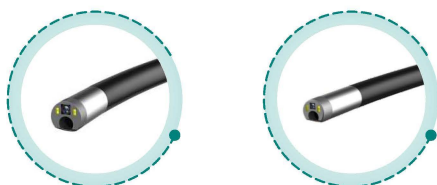

→ Specifications

Model	Actual Insertion Outer Diameter	Actual Working Channel	Field of View	Working Length
LAN-EP-2612	≤2.5mm/7.5Fr	≤1.2mm/3.6Fr	120°	2140mm
LAN-EP-3516	≤3.0mm/9.0Fr	≤1.2mm/3.6Fr	120°	2140mm
LAN-EP-3522	≤3.5mm/10.5Fr	≤2.0mm/6.0Fr	120°	2140mm

→ Launching Soon

Model	Insertion Outer Diameter	Working Channel	Field of View	Working Length
LAN-EP-3516S	≤4.5mm/13.5Fr	≤2.2mm/6.6Fr	120°	380mm
LAN-EP-2612S	≤3.2mm/9.6Fr	≤1.2mm/3.6Fr	120°	450mm

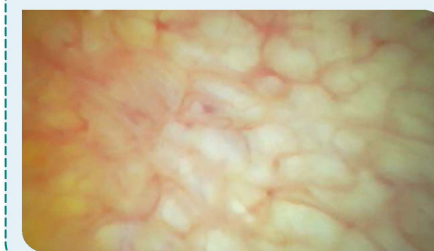

A disposable imaging catheter designed for the hepatobiliary and pancreatic system, suitable for ERCP, PTCd surgeries

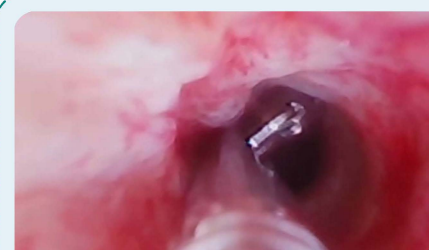

Direct high-definition imaging, paired with diagnostic accessories and peripheral products to provide flexible and diverse solutions

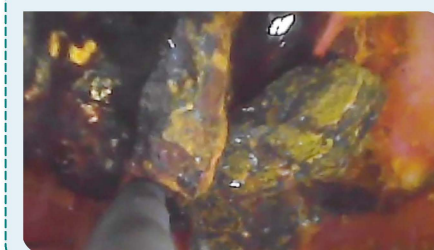

ERCP Biliary Tube

PTCD Biliary Tube

ERCP Biopsy

ERCP Direct Vision Lithotripsy

→ Compatible Accessories

Disposable Endoscopic Stone Retrieval Basket

Model	Diameter	Length	Basket Open Width	Basket Length	Working Channel	Basket Feature
SE1027B/L	1.0mm	2700mm	12mm	16/20mm	≥1.2mm	Semi/full-threaded
SE1527B/L	1.5mm	2700mm	12mm	16/20mm	≥1.6mm	Semi/full-threaded

Disposable Sterile Pancreatobiliary Tissue Sampling Forceps

Model	Diameter	Length	Open Width	Working Channel	Head Characteristics
BF1027T	1.0mm	2700mm	4.0	≥1.2	With Spike
Bf1529	1.5mm	2900mm	4.6	≥1.7	Without Spike
