PHP

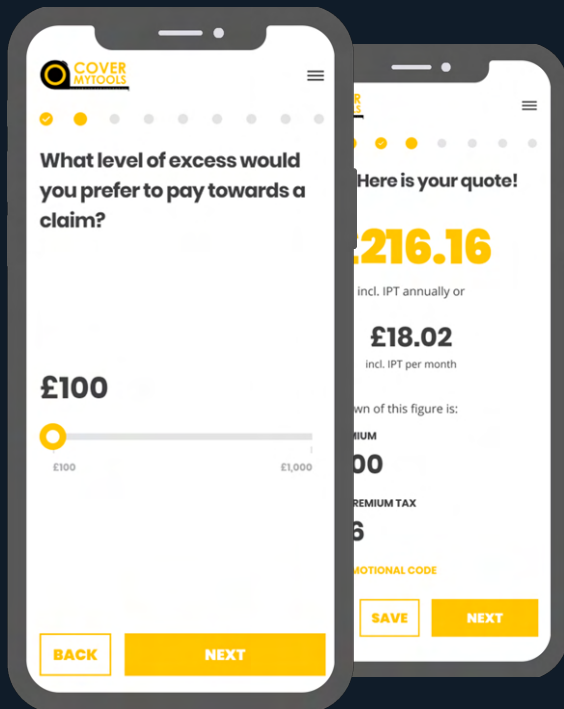

## FEATURED ON BBC

YoungPlanet is an app that enables parents to put unused children's things to good use with new families and away from landfill, for free. This app was handed into our hands by another company and in just a few months we have greatly improved stability, user rating and helped the team to reliably scale infrastructure to tens of thousands of users.

# Insync Insurance

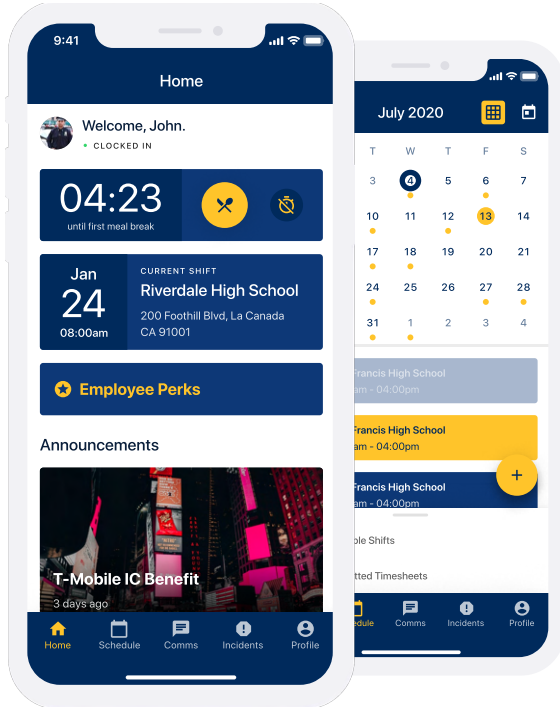

## AWARD-WINNING UK INSURANCE BROKER

Insync Insurance utilises online platforms to make business and Landlord insurance modern, simple and easy. We're building over 15 fully-digital insurtech platforms using React.js, Node.js and Google Firebase.

# Jutarnji list

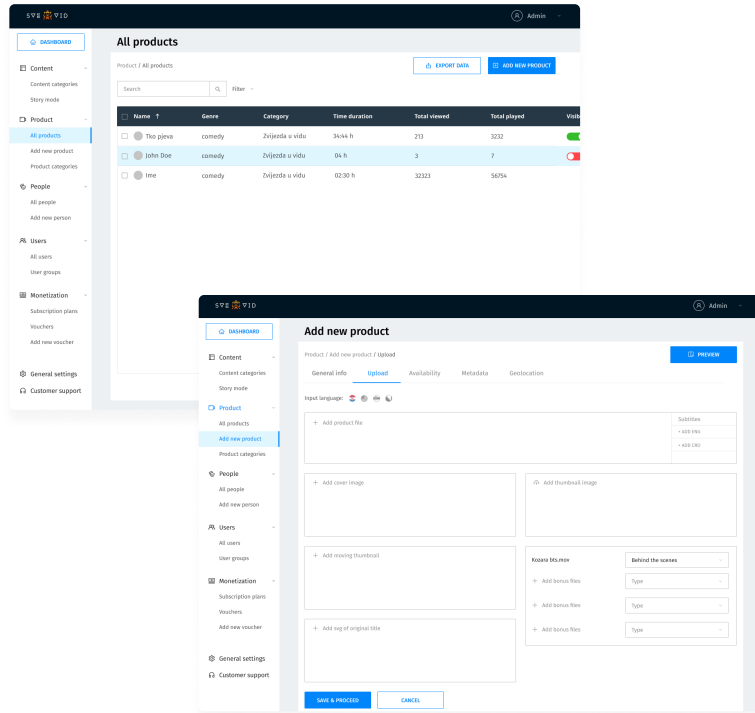

## THE MOST SUCCESSFUL CROATIAN DAILY NEWSPAPER

Mobile application written in Flutter for the most famous Croatian daily newspaper. The Jutarnji list application provides simple, fast and high-quality information on current events and the latest news through a top user experience.

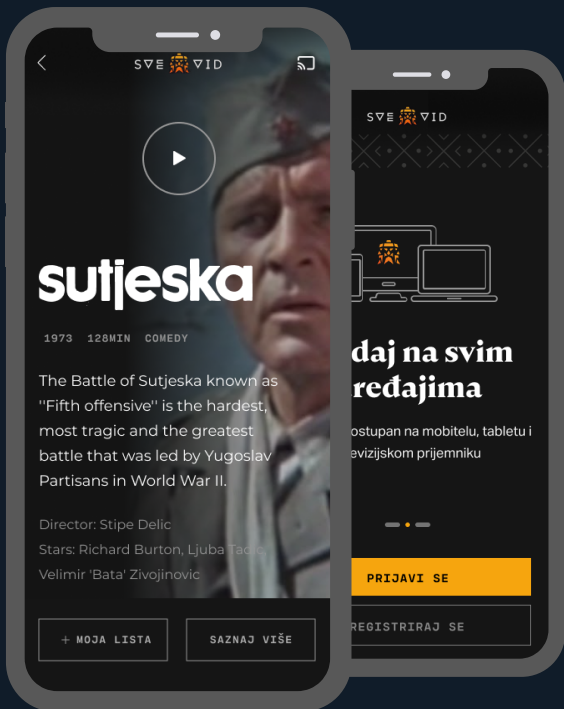

# SVEVID CMS

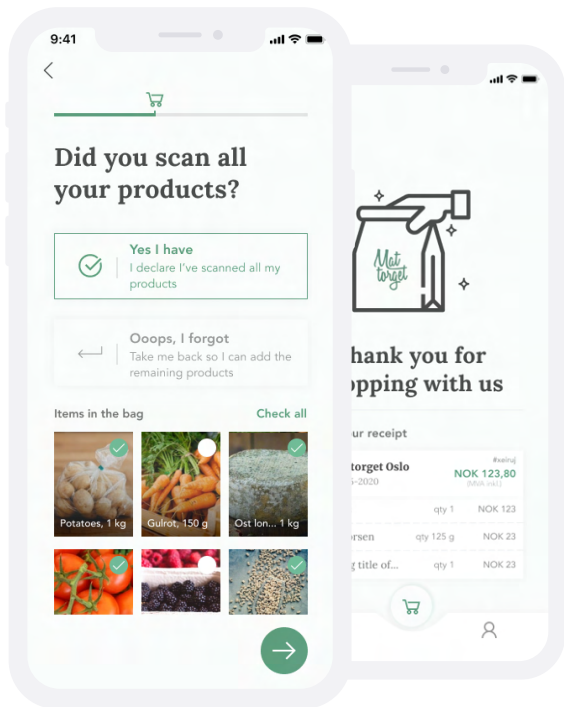

## STREAMING SERVICE MANAGEMENT

We created a CMS for a platform that publishes movies and TV shows. The content management system needed to suffice all the statistics for a certain time period and make it as easy as possible to add or upload products to the platform.

## EX-YUGOSLAVIAN MOVIES AND TV SHOWS STREAMING

SVEVID is a platform for watching movies and TV shows. This project was commenced via a Design Sprint - 5-day brainstorming session for the app's CMS and mobile app's user experience. The outcome was reducing the number of unsubscribed users and the whole information architecture for the CMS.

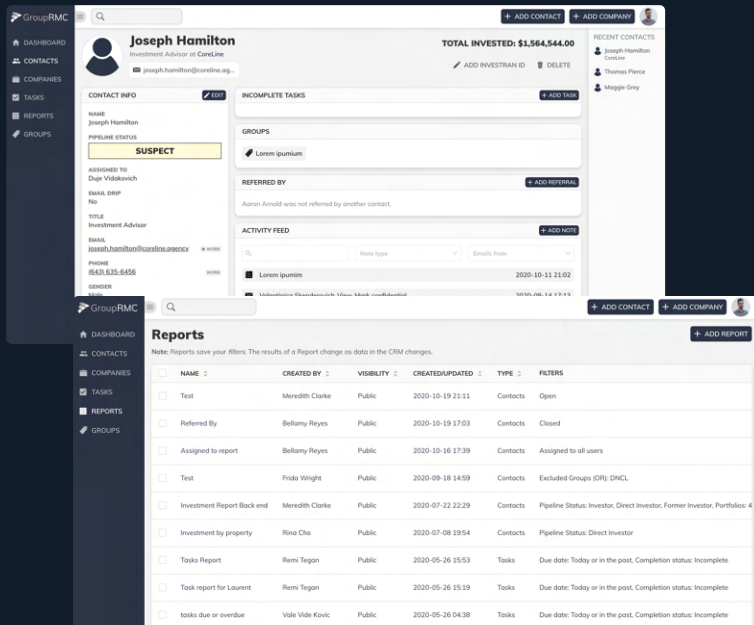

## #1 ONLINE FOOD DISTRIBUTER IN NORWAY

Mattorget is an online market shop for fresh vegetables, fruits and meats. With its online marketplace - the website available since 2017, in 2020 it was the time to make the shopping experience in their physical shops easier and effortless.
