Our story :

For over 30 years, Le Temps des Cerises has been cultivating its expertise in the world of indulgent products. Its name is inspired by the coffee cherry—the fruit of the coffee tree—which turns red when ripe and closely resembles a cherry.

Based in the South-West of France, the company offers a wide range of coffees, from Single Origin and Grand Cru coffees to flavoured coffees, its signature specialty. Since the launch of its hazelnut-flavoured coffee in 1998, Le Temps des Cerises has continued to innovate, creating original blends for lovers of aromatic coffees.
