

Business Comprehensive Solutions into the EU market

1. Setting up a corporate entity in Europe

Setting up a company in a new market with different regulations, languages and procedures requires patience, time for research and the involvement of many different specialists. By choosing Sicher Sicher Consulting, however, you have a single point of access to all the specialists and services you need to prepare for entering the European market.

2. Insurance Consulting Services

We analyse business risks and provide suitable insurance protection, including claim handling services. As a member of the Sicher Sicher Group, our insurance and claims brokerage service will find you the most suitable and cost-effective insurance on the market. We offer services in the following insurance categories:

Corporate Insurance

- Professional Liability Insurance
- Professional Indemnity Insurance (Financial loss coverage)
- Directors & Officers Liability Insurance (D&O)
- Robot Insurance (Humanoid Robots incl. AI Technology)
- Health Insurance Plans for Management and Employees
- Product Liability Insurance
- Product Recall Insurance
- Cyber Risk Insurance
- Lawyer Insurance
- Motor Fleet Insurance

Industrial Insurance

- Industrial Liability Insurance
- Property Insurance
- Construction & Penalty Aggregate Cover

Specialty Insurance

- Kidnap & Ransom Insurance
- Tax Risk Insurance
- Evacuation Insurance
- Factoring incl. Credit Default Insurance

Sicher Sicher GmbH is a licensed insurance broker operating in the following countries: Germany, Austria, France, Italy, Spain, Belgium, the Netherlands, Ireland, Denmark, Poland, Greece, Portugal, Finland, Sweden, Hungary, Romania, Slovenia, the Czech Republic, Bulgaria, Cyprus and Malta. We provide insurance brokerage services in 150 countries worldwide through our network.

3. Legal Consulting Services

Our legal partners specialize in corporate and trade law. They can help you set up your company, draft a shareholder agreement, and prepare all the necessary documents. Sicher Sicher Consulting has a network of registered and court-certified translators for the translation and certification of documents. While you focus on running your business, our lawyers, with their expertise in the various EU countries, will be at your side if you have a legal question or a serious dispute with a third party. Our legal and tax consultants also offer services relating to mergers and acquisitions (M&A).

4. Tax Consulting Services

To handle tax matters properly and withstand an official audit by the Inland Revenue Department of an EU state, everything must be set up correctly from the beginning. Our tax advisors will ensure that the opening balance sheet meets the necessary requirements, making use of all legal possibilities to optimize your company's tax result.

5. Real Estate Services

Whether you are looking for a home, an office or a shop for your company or staff, we can help. Our specialist licensed estate agents will ensure you find the most suitable premises in a competitive market. Our specialists will guide and advise you through the process, whether you are looking to rent or buy.

6. Visa Services

While registering a company is one thing, obtaining a visa, residence and work permit, or Blue Card is a more complicated matter. Sicher Sicher Consulting, with its team of legal experts, can assist you in obtaining a residence permit as a director and major shareholder, or for employees who will manage business affairs on your behalf. As immigration laws in the European Union differ depending on the status applied for, our experts and legal partners will advise you after reviewing the necessary documents.

7. Business Network Club

For many years, Sicher Sicher has been organizing offline VIP networking events, bringing together professionals from various sectors in a pleasant setting to exchange ideas. These events provide an opportunity to expand your network and share knowledge in the newly entered market. Although there is no membership fee, all new members must attend at least three events during their one-year probation period to ensure the network's quality.
