You can **now** activate your  
**Unified Health ID**,  
receive **notifications** to keep your  
**Unified Health Index** up-to-date,  
share **digital twins** for research,  
request **assistance** and **be located** in **emergencies**  
via SMS and **Bluetooth** devices.

## *A new paradigm: the Unified Health ID\**

Experience the impact of creating  
your own worldwide Unified Health ID\*  
to be attended to by emergency services and  
clinicians anywhere.

*\*Patent US 11,636,776*

## Collaborative ***Shared Data Space***

Use a secure bridge to **receive notifications** from patient portals to your **Unified Health ID\***, enabling your Unified Health Index:  
**Have your data ready, anytime!**

*\*Patent US 11,636,776*

## *Real-time* healthcare *data updates*

Your Unified Health Index works like a book index, automatically updating links to new pages in different sections, sent from distinct patient portals to your Unified Health ID\* or associated IDs.

*\*Patent US 11,636,776*

## *Associate your Identifiers and Devices*

**Link any other identifier or device\*\*  
to your Unified Health ID\*.**

**Authorize being located by rescue services  
via location devices\*\* (Bluetooth or others)  
in emergency situations.**

*\*Patent US 11,636,776*

*\*\*QuantumPrime is used for generating anonym device identifiers (digital twin).*

## *Receive Trusted Data and Request Assistance*

Get notifications and information  
from **trusted sources** (to avoid fake news).  
Send **service requests to emergency services**  
including your **Unified Health ID\***, device ID\*\*,  
severity and type of emergency.

*\*Patent US 11,636,776*

*\*\*QuantumPrime is used for generating anonym device identifiers (digital twin).*

Resilient Architecture and  
Security by Design

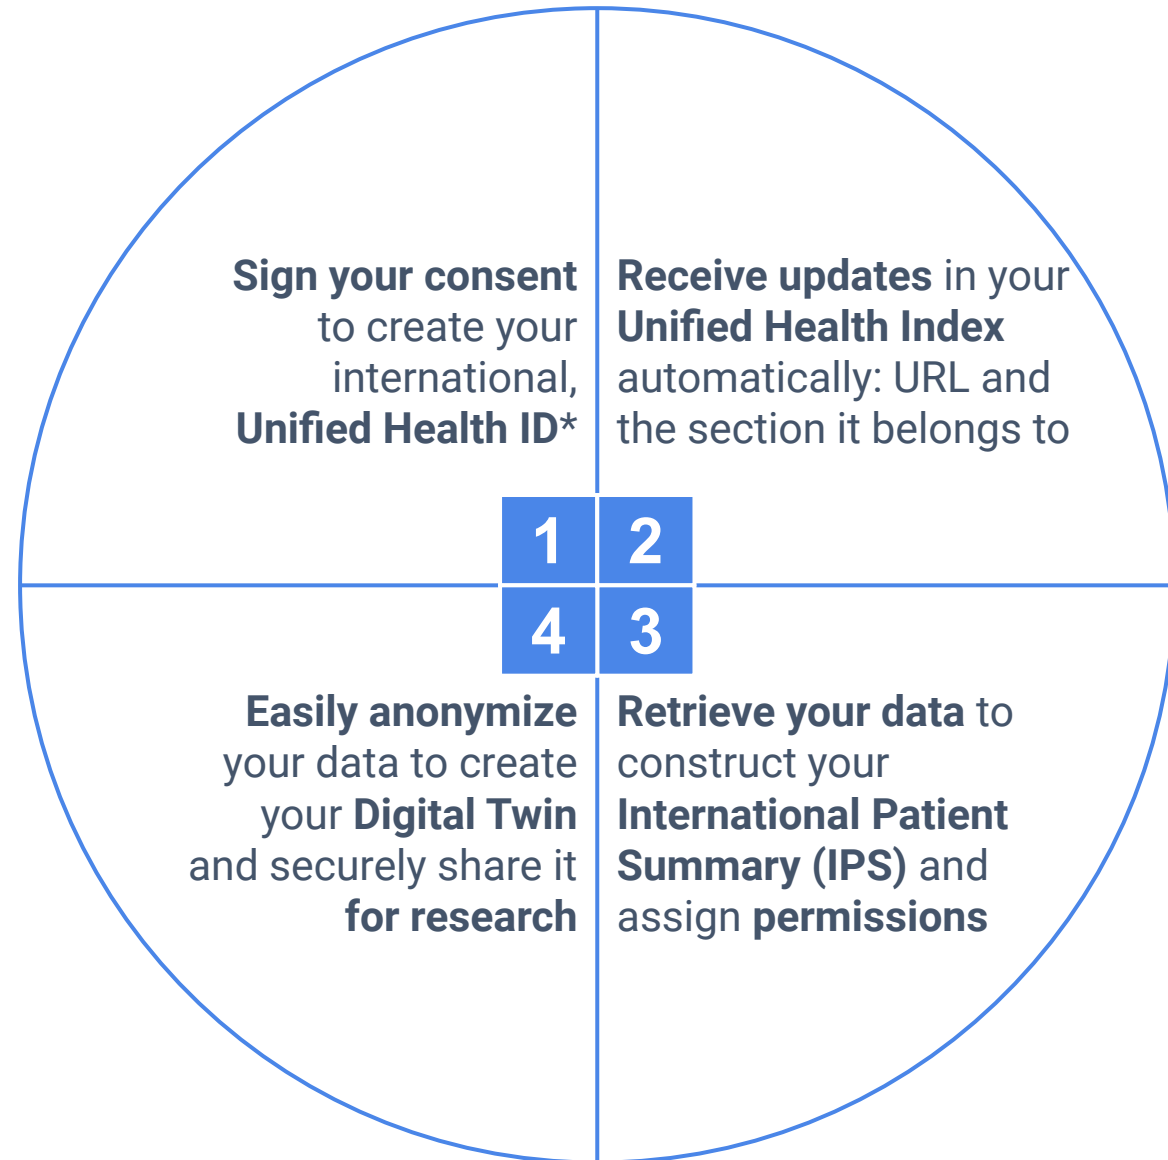

# Unified Health Index: create your International Health Booklet

## A new paradigm:

- Create your **Unified Health ID\***
- Associate **other identifiers**
- Enable your **Unified Health Index**
- Receive notifications about your data!

*\*Patent US 11,636,776*

# Registering organizations and employee roles on Blockchain

The **fundamental data communication tool\***

- **Prevent fraud:** verified identities and messages
- **Optimize time** in medical consultations
- **Reduce diagnostic errors** and readmissions
- Secure data and messages: **post-quantum algorithms**

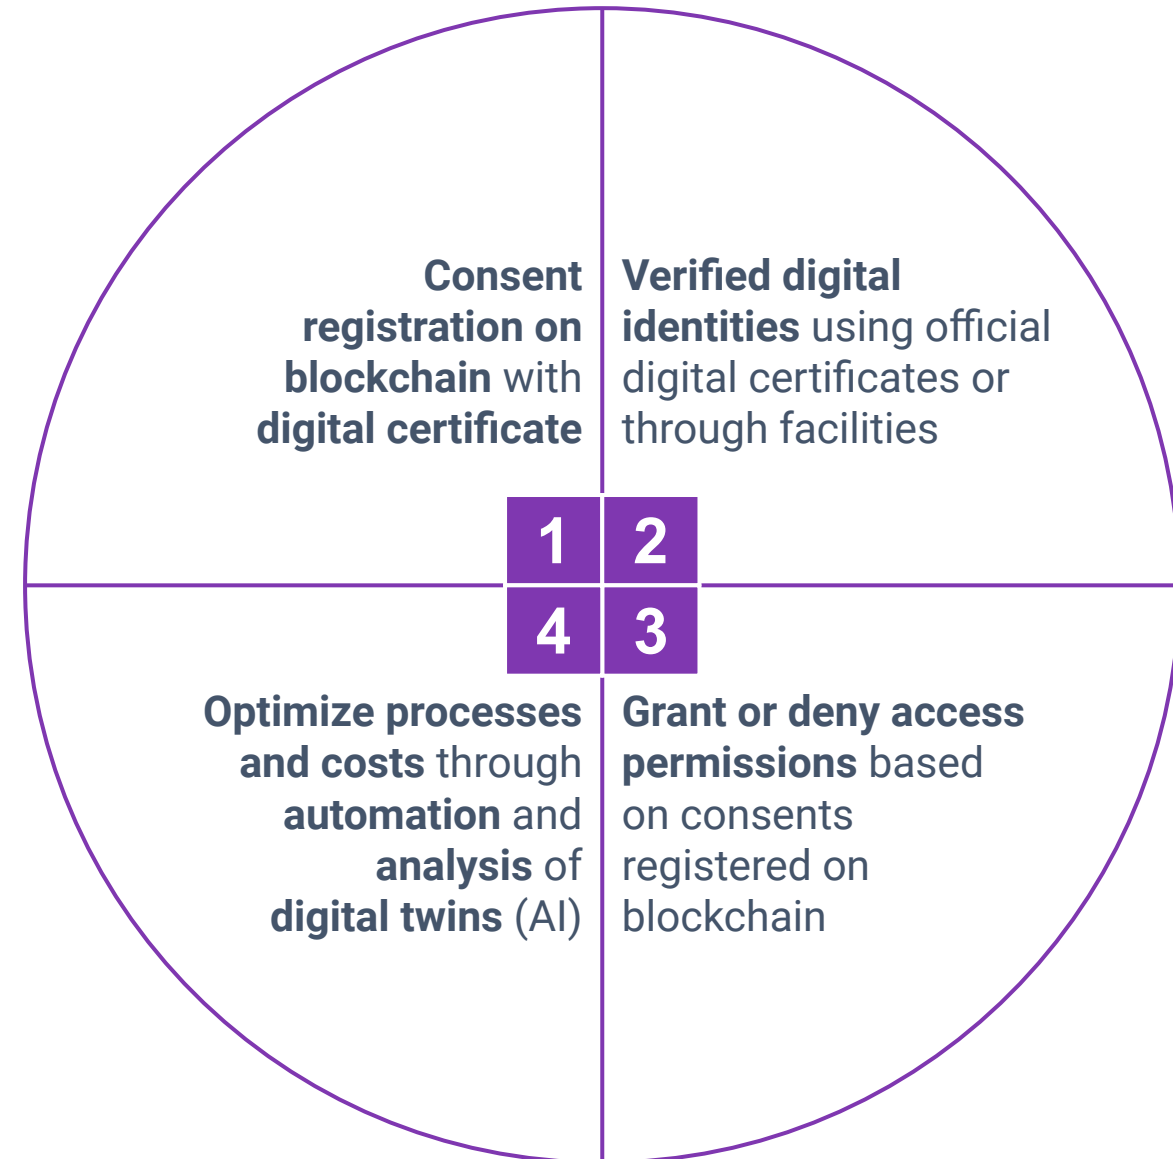

*\*Patent US 11,636,776*

# Verify consents and documents, coverage and history

Blockchain: **public notary for security and trust\***

- Secure certification of data and consents
- Permissions based on consents
- Automation: auditable and secure records
- Reduces administrative burden and operational costs

\*Patent US 11,636,776

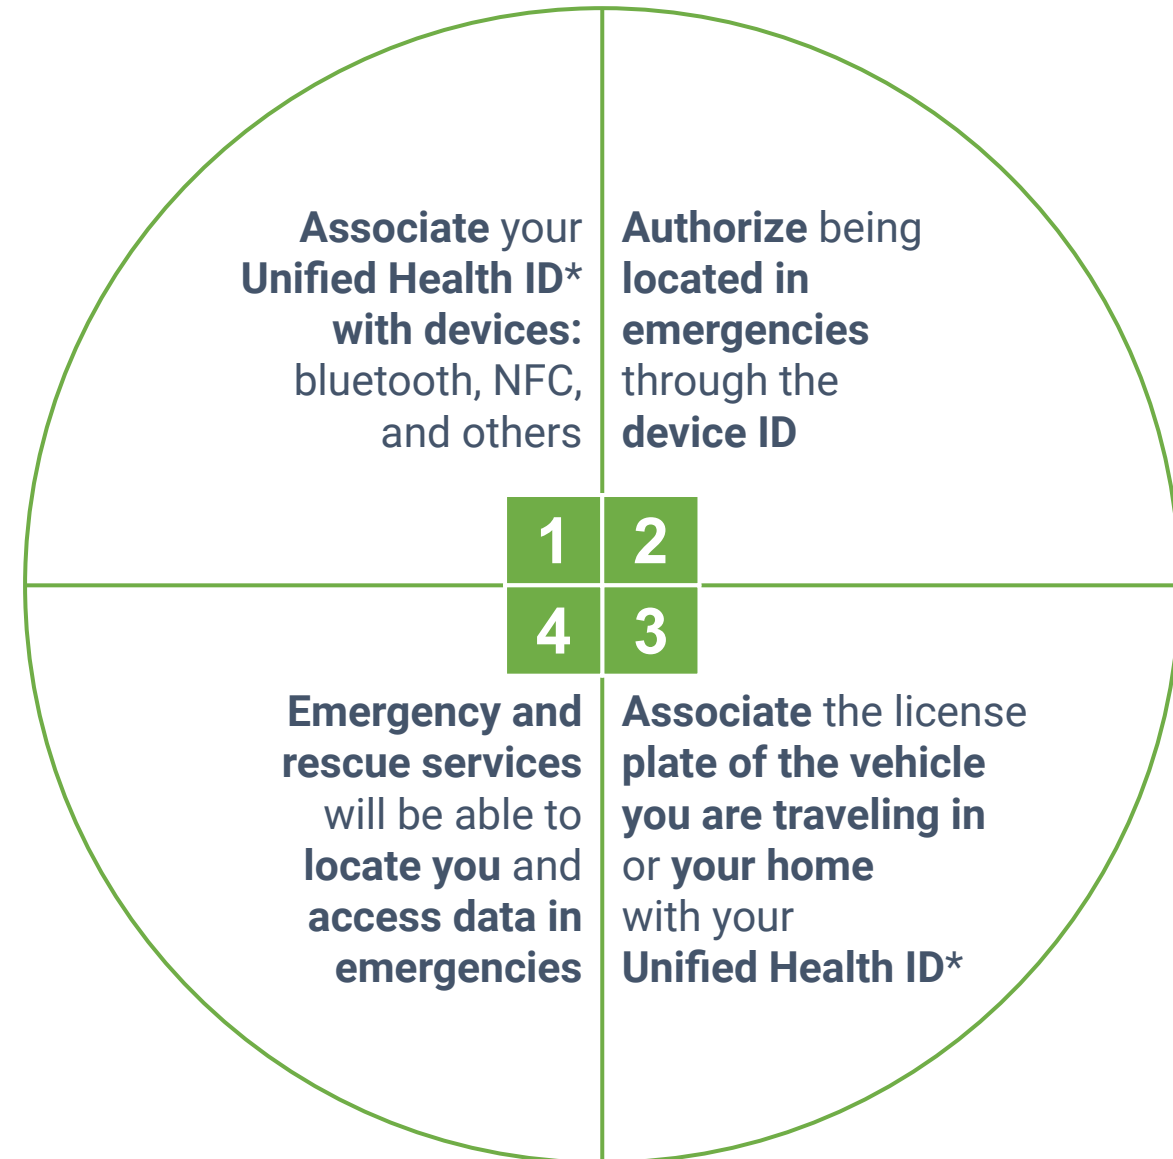

# Localization in emergencies and rescues

## Devices and permissions for emergency cases:

- **Rescue request via SMS:** Unified Health ID\*, device ID, coordinates, type of emergency, etc.
- **Localization** via **Bluetooth** devices and others: disoriented individuals, natural disasters, etc.
- **Access to contacts and data for emergencies:** allergies (e.g., penicillin, latex), pacemakers, etc

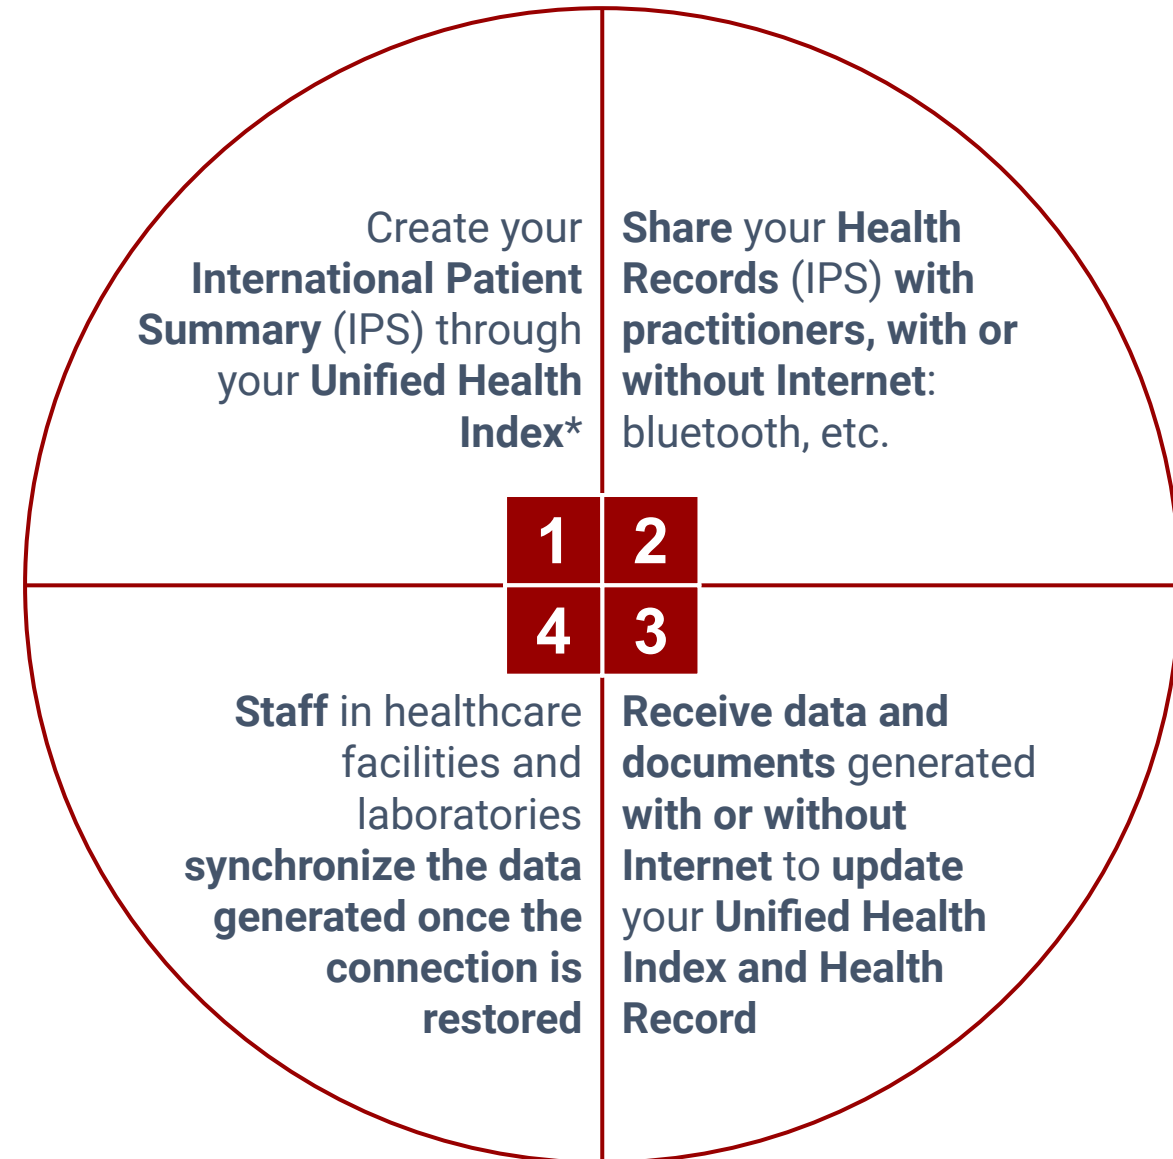

# Improve resilience against system failures and attacks

Create **cyber-resilient health ecosystems** as a **key and strategic sector** for the defense of countries

- **Resilience:** The patient creates their International Health Record and shares it with medical services even without the Internet, using Bluetooth, etc.
- **Protection against disruptions:** Healthcare professionals create new documents and share them via Bluetooth, printed QR codes, or other means.
- **Recovery:** Patients and professionals synchronize the data once the connection is restored.

*\*Patent US 11,636,776*
