TRUSTED BY GLOBAL ENTERPRISES

ELEKS is a trusted partner for guaranteed software engineering excellence, quality, and transparency every step of the way.

With ELEKS, you can build your software solution from scratch or use our pre-built delivery accelerators to get your software to market faster, while our team of experts keeps you informed and involved throughout the entire development process.

We stand up to the most complex technology and business challenges, employing a mix of pioneering and traditional methods to design and implement full-cycle products that fulfil your software vision.

COMPANY HIGHLIGHTS

2000+

top tech experts,
middle and senior level

19

offices and delivery
centres globally

120+

active clients, including
Fortune 500 companies

30+

years on the market

64

WHAT WE DO

APPLICATION ENGINEERING

Bring your most complex software vision to life with innovation and scalability in mind.

PRODUCT-ORIENTED DELIVERY

Hire a product delivery team within your time or budget constraints with a focus on your business goals.

DATA & AI

Elevate your performance through AI-powered automation and data-centric solutions crafted to your specific needs.

DATA STRATEGY

Make smart, data-driven business decisions with end-to-end data strategy consulting, plus implementation and provisioning support.

ENTERPRISE APPLICATIONS

Ensure the tailored fit and long-term success of your enterprise software.

CYBERSECURITY

Build a proactive strategy to mitigate risk and maintain security even as you scale.

CLOUD

Futureproof your IT infrastructure for growth and scalability by integrating it with the cloud.

PRODUCT AND SERVICE DESIGN

Get strategic guidance on creating best-in-class domain-specific technology solutions.

SUSTAINABILITY CONSULTING

Propel your business towards net zero and build on new, sustainable opportunities.

WHAT WE DO

APPLICATION RE-ENGINEERING

Reimagine your core legacy systems with technological innovation that boosts performance, agility, scalability and user experience.

R&D AND FEASIBILITY STUDY

Explore innovative concepts before taking them to market – with project predictions and road-mapping services.

QUALITY ASSURANCE

Verify your product's performance, usability, and security, and reduce time to market.

SOFTWARE AUDIT

Reveal the strengths and weaknesses of your IT ecosystem to avoid risk and minimise revenue loss.

SUPPORT

Flawlessly manage technical issues and periods of systems change.

HOW WE STAND OUT

SPECIALISED EXPERTISE ON TAP

With decades of software development experience across industries including insurance, finance, energy, healthcare, logistics, and many more, we can quickly onboard and deliver solutions that align with industry requirements and needs.

STRONG DEDICATION TO YOUR SUCCESS

We aim to cultivate trusted relationships with our clients, serving as their technology partner for both immediate needs and long-term goals. We take pride in our work, driven by dedication, transparency, and trust in achieving the best possible outcomes.

SCALABLE AND EXTENDIBLE PROPRIETARY PLATFORMS

Our proprietary platforms for software development in healthcare and energy, data science, and compliance automation can be extended, customised and integrated with your existing software ecosystem to optimise and facilitate your essential operating tasks.

EXPERIENCE WITH INNOVATIVE TECHNOLOGIES

With vast experience in AI, data analysis and machine learning, blockchain, cyber security and data protection, and Cloud consulting, our specialists can help you design a solution that integrates cutting-edge technologies to help you future-proof your business

HOW CLIENTS SUCCEED WITH US

For over 20 years, ELEKS has been assisting Eagle in expanding the capabilities of its flagship suite of enterprise portfolio management solutions.

ELEKS helped TechnipFMC re-engineer its centralised terminal automation system and bring it to the cloud for lowering cost, increased resilience, and scalability.

ELEKS helped TAIT build Navigator, the world's leading entertainment automation platform that uses industrial automation protocols, real-time hardware control and complex motion algorithms.

ELEKS assisted PACE in building a comprehensive digital experience for commercial aircraft and cabin configuration software, migrating it to the cloud for enhanced collaboration capabilities.

ABOUT ELEKS

ELEKS is a global software engineering and technology consulting provider. For more than 30 years, we have built custom software solutions that support the business growth of our clients.
