

Who we are

CCI4EU unites around 55 partners across 27 countries to build a European network of Comprehensive Cancer Infrastructures and reduce gaps in care and research.

What we are working on

We developed a maturity model, expert support programme, professional training and a free resource centre to strengthen Comprehensive Cancer Infrastructures across Europe.

What's the one thing we need next

We need continued investment to expand proven peer-learning and expert-support models, especially to centres facing the greatest cancer care and research gaps.

**5 years Mission Cancer:
Stronger Through Connection**
