

TEXERA

YOUR GLOBAL, TEXTILE & SUSTAINABLE PARTNER!

THE NEW ERA OF TEXTILE

TEXERA

COMPANY OVERVIEW

As TEXERA, we set out with the mission of offering quality, stylish and value-added products to the textile industry. We adapt to the dynamic structure of fashion by prioritizing your satisfaction with the experience we have gained in corporate business life and our expert partners.

By adopting the principle of sustainability, using environmentally friendly materials and optimizing our production processes, we show our respect for both fashion and nature. We attach great importance to quality control processes at every stage of our products. Thus, we ensure that each of our products is designed and manufactured to the highest standards. We are constantly looking for innovative solutions to meet the needs and expectations of our customers. By following modern technology and current trends, we come up with new collections every season.

TEXERA

MISSION STATEMENT

We aim to add value to our customers' living spaces with our innovative designs and quality materials. Adhering to the principle of sustainability, we combine both elegance and comfort with environmentally friendly production processes. With our textile products, we are committed to continuous improvement to achieve the highest standards in our industry while making every individual feel special.

TEXERA

VISION STATEMENT

In the future, we aim to be a recognized brand in the global market and to be a pioneer in the field of technical textiles and sustainability in the textile industry.

VALUES

Teamwork: We are compromised to provide talent and leadership to reach our costumers goals.

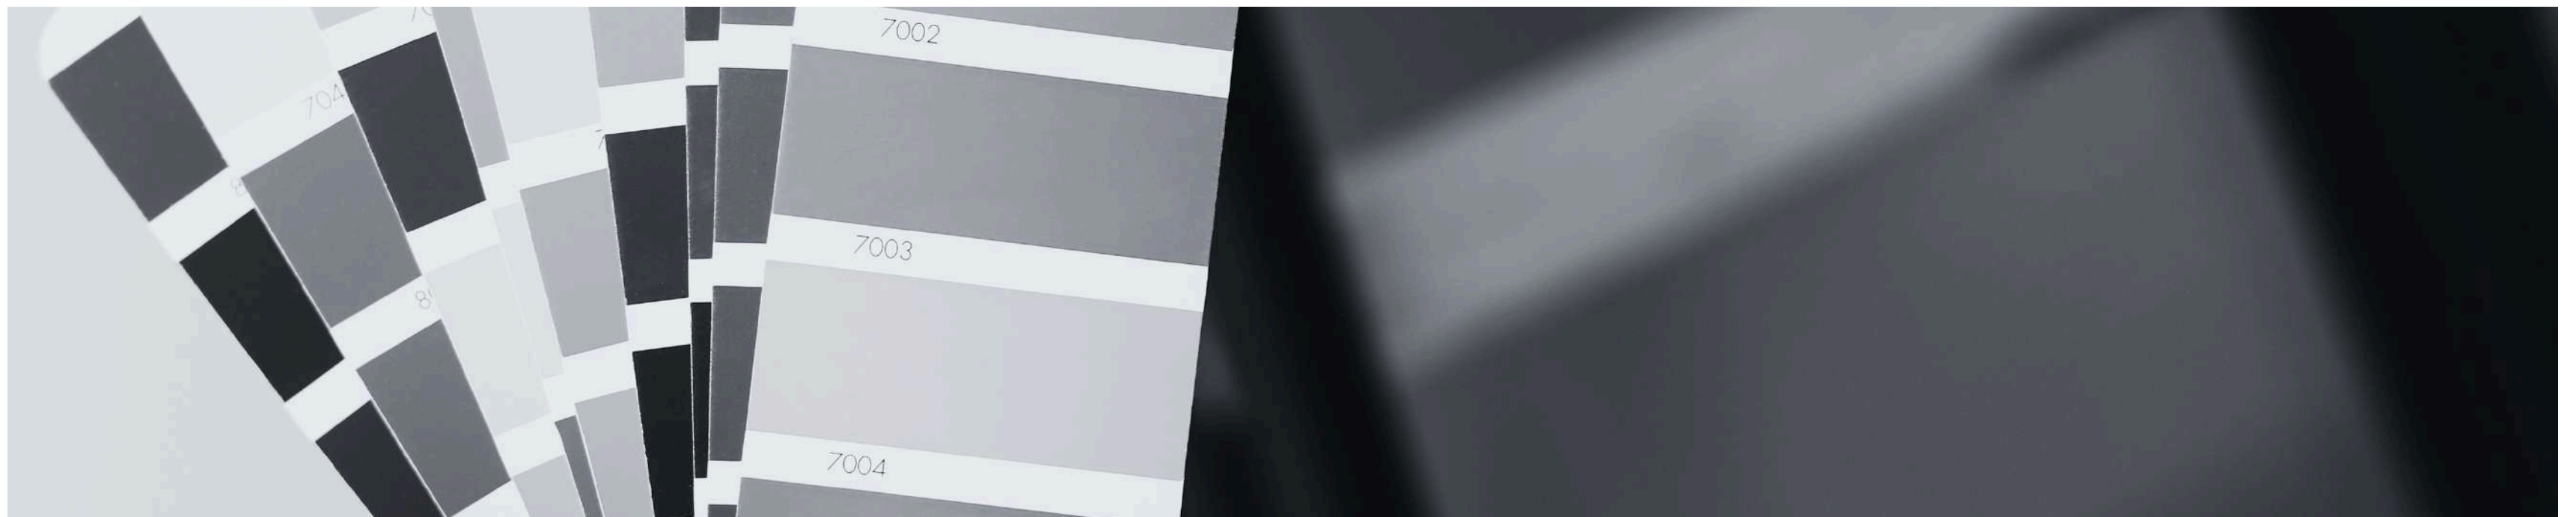

Commitment: We take care and look after the concerns and assignments from our customers.

Respect: We uphold others, no cultural nor social distinction to comply with inner rules and policies.

Standards: We make products and procedures with finishings that offer extra value.

Integrity: We believe in a deal ethical and moral, keeping in discretion confidential information.

Innovation: We are looking to create new development techniques to optimize timing and expenditures in our procedures.
