Bundesministerium  
für Bildung  
und Forschung

*Federal Ministry of  
Education and Research*

## Decision Support

Analysis of complex matters, AI agent for answering questions

**Example:** AI Tactic Chat

BUNDESWEHR

*German Armed Forces*

## Intelligent Document Processing

Review of applications with feedback, information extraction for time savings and improved quality

**Example:** Risk Report Analysis Dashboard

BaFin

*Federal Financial  
Supervisory Authority*

## Productivity Increase

Assistance systems for faster response and preliminary evaluation of information

**Example:** Community Support Tool for a Social Media Team

*European Public  
Institution (NDA)*

# How deepset Uniquely Supports You

Outcome-Focused

Intelligent Planning Solutions

Workflow Automation Solutions

Best Practices & Assistance

AI Expertise

Time-to-value driven AI experts that extend your team with AI consulting, services, and support to ensure your success.

Production Readiness

deepset  
AI Platform

Production-grade AI development fabric delivers the highest quality AI systems, customized to your specific requirements, with easy iteration and rapid time to value.

Future-Proof Flexibility

Haystack  
by deepset

Open source core the turns the AI ecosystem and your enterprise architecture into flexible, reusable, building blocks.

# Let us discuss!

- What are suitable use cases for the RFP?
- Who is still looking for a partner (e.g., City of Hamburg)?
- What role can open source play?
- What are integration partners?

Together for mission-critical European Sovereign AI!

# Thank you
